

PROSPECTUS SUPPLEMENT NO. 3
(to Prospectus dated August 5, 2022)

MSP RECOVERY, INC.

Up to 3,981,159,239 Shares of Class A Common Stock **Up to 755,200,000 Warrants to Purchase Shares of Class A Common Stock** **Up to 1,032,578,731 Shares of Class A Common Stock Underlying Warrants**

This prospectus supplement amends and supplements the prospectus dated August 5, 2022 (as supplemented or amended from time to time, the “Prospectus”), which forms a part of our Registration Statement on Form S-1 (No. 333-265953). This prospectus supplement is being filed to update and supplement the information in the Prospectus with the information contained in our Annual Report on Form 10-K, filed with the Securities and Exchange Commission (the “SEC”) on July 27, 2023 (the “Annual Report”). Accordingly, we have attached the Annual Report to this prospectus supplement.

The Prospectus and this prospectus supplement relate to the offer and sale, from time to time, by the selling securityholders named in the Prospectus (the “Selling Securityholders”), or any of their permitted transferees, of (i) up to an aggregate of 755,525,000 shares of Common Stock (as defined in the Prospectus) otherwise held by the Selling Securityholders; (ii) up to an aggregate of 325,000 shares of Common Stock that may be issued upon exercise of Private Warrants (as defined in the Prospectus); (iii) up to an aggregate of 755,200,000 shares of Common Stock that may be issued upon exercise of New Warrants (as defined in the Prospectus); (iv) up to an aggregate of 5,750,000 shares of Common Stock that were issued to certain investors, including the Sponsor (as defined in the Prospectus) in a private placement in connection with the closing of the Business Combination (as defined in the Prospectus); (v) up to an aggregate of 650,000 shares of Common Stock that were issued to certain investors in a private placement of Private Units (as defined in the Prospectus) in connection with the Business Combination; (vi) up to an aggregate of 3,167,967,900 shares of Common Stock exchangeable for Up-C Units (as defined in the Prospectus) originally issued to certain Selling Securityholders, including the Members (as defined in the Prospectus), as consideration in the Business Combination for their membership interests in the MSP Purchased Companies (as defined in the Prospectus) or issuable pursuant to the terms of existing contracts; (vii) up to an aggregate of 50,022,000 shares of Common Stock issued to certain Selling Securityholders upon exchange of Up-C Units designated by the Members and issued in a private placement by the Company in lieu of a corresponding number of Up-C Units to which such Members were otherwise entitled but designated back to the Company and Opco (as defined in the Prospectus) pursuant to the terms of the Business Combination; (viii) up to an aggregate of 1,244,339 shares of Common Stock issued to certain Selling Securityholders in a private placement by the Company pursuant to the terms of existing contracts; (ix) up to an aggregate of 4,532,405 shares of Common Stock issuable upon the exercise of up to 4,532,405 Public Warrants (as defined in the Prospectus); and (x) up to an aggregate of 1,028,046,326 shares of Common Stock issuable upon the exercise of up to 1,028,046,326 New Warrants. The Prospectus and this prospectus supplement also cover any additional securities that may become issuable by reason of share splits, share dividends or other similar transactions.

Our Common Stock, Public Warrants and New Warrants are listed on Nasdaq under the symbols “LIFW,” “LIFWZ” and “LIFWW”. On July 27, 2023, the closing price of Common Stock was \$0.2022 per share, the closing

price of our Public Warrants was \$0.2899 per warrant and the closing price of our New Warrants was \$0.0039 per warrant.

Investing in our securities involves risks. Before you invest in our securities, please carefully read the information provided in the “Risk Factors” section beginning on page 9 of the Prospectus and any in any applicable prospectus supplement, and Item IA of our Annual Report on Form 10-K for the fiscal year ending December 31, 2022, filed with the SEC on July 27, 2023, attached hereto.

Neither the SEC nor any state securities commission has approved or disapproved of the securities to be issued under the Prospectus or determined if the Prospectus or this prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus supplement is September 19, 2023.

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2022

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE
TRANSITION PERIOD FROM TO

Commission File Number: 001-39445

MSP Recovery, Inc.

(Exact name of Registrant as specified in its Charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

2710 Le Jeune Road Floor 10

Coral Gables, Florida

(Address of principal executive offices)

84-4117825

(I.R.S. Employer
Identification No.)

33134

(Zip Code)

Registrant's telephone number, including area code: (305) 614-2222

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Class A common stock, \$0.0001 par value per share	LIFW	The Nasdaq Global Market
Redeemable warrants, each whole warrant exercisable for one share of Class A common stock at an exercise price of \$11.50 per share	LIFWW	The Nasdaq Global Market
Redeemable warrants, each whole warrant exercisable for one share of Class A common stock at an exercise price of \$0.0001 per share	LIFWZ	The Nasdaq Global Market

Securities registered pursuant to Section 12(g) of the Act: **None**

Indicate by check mark if the Registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the Registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
Emerging growth company	<input checked="" type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates of the Registrant based on the closing price of \$0.328 for the shares of common stock on the Nasdaq Stock Market on June 30, 2023, was \$43,005,879.

The number of shares of Registrant's Common Stock outstanding as of July 19, 2023 was 331,235,848 shares of Class A common stock, \$0.0001 par value per share, and 3,106,616,119 shares of Class V common stock, \$0.0001 par value per share, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

None.

Explanatory Note

As described in our Current Report on Form 8-K filed with the SEC on April 14, 2023, we identified errors in the accounting for the indemnification asset, various intangible assets and rights to cash flows, and consolidation of an entity in connection with our business combination. As a result of these errors, management and the audit committee of our board of directors concluded that our previously issued unaudited condensed consolidated financial statements for the periods ended June 30, 2022 and September 30, 2022 were materially misstated. Accordingly, our unaudited condensed consolidated financial statements for the foregoing periods require restatement and should no longer be relied upon. The financial information that was previously filed or otherwise reported as of and for the periods ended June 30, 2022 and September 30, 2022 is superseded by the information in this Annual Report on Form 10-K. See Note 18 to our consolidated financial statements in this Annual Report on Form 10-K for additional information on the restatement and the related financial information impacts.

In addition, on April 16, 2023, the board of directors of the Company established a special committee to review matters related to the preparation and filing of this Annual Report on Form 10-K, and to address any related issues. At that time, it was decided to postpone the filing of this Annual Report on Form 10-K pending the special committee's review. On June 13, 2023, the special committee finalized its review. The findings and recommendations of the special committee are set forth in "Part II, Item 9A Controls and Procedures" of this Annual Report on Form 10-K.

DEFINITIONS

Unless otherwise stated or unless the context otherwise requires, the terms “we,” “us,” “our,” the “Company,” and “LifeWallet” refer to MSP Recovery, Inc. d/b/a LifeWallet. As used in this annual report on Form 10-K, unless otherwise noted or the context otherwise requires, the terms below are defined as follows:

“Algorithm” The term algorithm generally refers to a set of instructions that perform a particular action. Our team of data scientists and medical professionals create proprietary instruction sets, or “Algorithms,” to identify recovery opportunities within our Assignors’ Claims data sets. The Algorithms incorporate various data points within our Assignors’ data, which may include, but are not limited to, medical coding classification systems such as diagnosis codes (e.g., ICD-8/ICD-9/ICD-10 codes), procedure codes (e.g., CPT codes), and drug codes (e.g., NDC codes); non-medical data such as demographics and date ranges; and data from public sources such as crash reports, offense incident reports, and other reports that provide details as to an occurrence. These Algorithms are then applied to our Assignors’ aggregated Claims data, filtering through the billions of lines of data from our Assignors to identify recoverable opportunities consistent with a given Algorithm’s criteria. Identified potential recoveries are then further quality reviewed by our medical team.

“Amended and Restated Bylaws” means the proposed Amended and Restated Bylaws of the Company;

“Billed Amount” (a/k/a the charged amount or retail price) is the full commercial value of services billed by the provider, or the full charge that the provider would ordinarily bill for the service provided. The Billed Amount for a specific procedure code is based on the provider and varies from location to location. The Company uses historical data from claims submitted by providers to determine the Billed Amount when a Billed Amount is not provided in the data received from the Assignor.

“Board of Directors” or “Board” means the board of directors of the Company;

“Business Combination” means the business combination pursuant to that certain Membership Interest Purchase Agreement, dated as of July 11, 2021, as described in more detail in Note 1 of this Form 10-K;

“Claim” means the right, title to, and/or interest in, any and all claims or potential claims, including all related reimbursement and recovery rights, which the Company has, may have had, or may have in the future assigned to it (whether or not asserted), including all rights to causes of action and remedies against any third-party, whether a primary payer or responsible party, at law or in equity. The term “Claim” includes but is not limited to: (i) claims arising under consumer protection statutes and laws; (ii) claims arising under the Medicare and Medicare Advantage secondary payer statutes, whether based in contract, tort, statutory right, or otherwise, in connection with the payment to provide healthcare services or supplies; (iii) claims arising under any state statutes and common laws irrespective of the rights that are conferred to MSP through assignment or otherwise; and (iv) all right, title, and interest to any recovery rights that may exist for any potential cause of action where a responsible party or primary payer is liable, even where it has not been established because liability is not yet proven as of the date that the Claim is identified or discovered, together with all receivables, general intangibles, payment intangibles, and other rights to payment now existing or hereafter arising and all products and proceeds of the foregoing;

“Class A Common Stock” means the shares of the Company’s Class A common stock, par value \$0.0001 per share, as described in more detail in Note 3 of this Form 10-K;

“Class B Common Stock” means the shares of the Company’s Class B common stock, par value \$0.0001 per share, as described in more detail in Note 1 of this Form 10-K;

“Class V Common Stock” means the shares of the Company’s Class V common stock, par value \$0.0001 per share, as described in more detail in Note 1 of this Form 10-K;

“Class B Unit” means the non-voting economic Class B Units of the Company, as described in more detail in Note 1 of this Form 10-K;

“Closing” means the closing of the Business Combination, as described in more detail in Note 3 of this Form 10-K;

“DGCL” means the Delaware General Corporation Law, as may be amended from time to time;

“Exchange Act” means the Securities Exchange Act of 1934, as amended;

“Existing Warrant Agreement” means the Warrant Agreement dated as of August 13, 2020, by and between the Company and Continental Stock Transfer & Trust Company;

“Founder Shares” means the shares of the Class B Common Stock and the shares of Class A Common Stock issued upon the automatic conversion of the Class B Common Stock at the time of the Business Combination as provided in the Existing Charter;

“GAAP” means generally accepted accounting principles in the United States, as applied on a consistent basis;

“IPO” means the initial public offering by the Company;

“Incentive Plan” means the MSP Recovery Omnibus Incentive Plan effective May 18, 2022, a copy of which is filed as an Exhibit 10.16 to our Form S-1 Registration Statement filed on November 30, 2022;

“LCAP Board” means the board of directors of the Company prior to the Closing;

“LLC Agreement” means the first amended and restated limited liability company agreement of Opco;

“Members’ Representative” means John H. Ruiz, solely in his capacity as the representative of the Members;

“MIPA” means the Membership Interest Purchase Agreement, dated as of July 11, 2021, as described in more detail in Note 1 of this Form 10-K;

“MSP Recovery” means MSP Recovery, LLC;

“New Warrants” means 1,029,000,000 warrants, each to purchase one share of Class A Common Stock issued as a dividend to the holders of record of Class A Common Stock as of the close of business on the date of Closing;

“Nomura” means Nomura Securities International, Inc.;

“Opco” means Lionheart II Holdings, LLC, a wholly owned subsidiary of the Company;

“Paid Amount,” (a/k/a Medicare Paid Rate or wholesale price) means the amount paid to the provider from the health plan or insurer. This amount varies based on the party making payment. For example, Medicare typically pays a lower fee for service rate than commercial insurers. The Paid Amount is derived from the Claims data we receive from our Assignors. In the limited instances where the data received lacks a paid value, our team calculates the Paid Amount with a formula. The formula used provides rates for outpatient services and is derived from the customary rate at the 95th percentile as it appears from standard industry commercial rates or, where that data is unavailable, the billed amount if present in the data. These amounts are then adjusted to account for the customary Medicare adjustment to arrive at the calculated Paid Amount. Management believes that this formula provides a conservative estimate for the Medicare paid amount rate, based on industry studies which show the range of differences between private insurers and Medicare rates for outpatient services.

We periodically update this formula to enhance the calculated paid amount where that information is not provided in the Assignor data. Management believes this measure provides a useful baseline for potential recoveries, but it is not a measure of the total amount that may be recovered in respect of potentially recoverable Claims, which in turn may be influenced by any applicable potential statutory recoveries such as double damages or fines, as described below. This calculation accounts for an approximate 7% increase in the total Paid Amount. Where we have to extrapolate a Paid Amount to establish damages, the calculated amount may be contested by opposing parties.

“Private Warrants” means warrants which is exercisable for one share of Class A Common Stock, in accordance with its terms;

“Public Units” means units comprised of one share of Class A Common Stock and one-half of one Public Warrant issued in the IPO;

“Public Warrants” means warrants included in the Public Units issued in the IPO, each of which is exercisable for one share of Class A Common Stock, in accordance with its terms, as described in more detail in Note 3;

“PVPRC” means the cumulative Paid Amount value of potentially recoverable Claims. We analyze our Claims portfolio and identify potentially recoverable Claims using Algorithms that comb through historical paid Claims data and search for potential recoveries. The PVPRC is a measure of the Paid Amount in respect of those potentially recoverable Claims. In the limited instances where the data received from our Assignors lacks a paid value, the adjustment formula described in the definition of Paid Amount is applied and increases PVPRC by approximately 6.5%.

“SEC” means the U.S. Securities and Exchange Commission;

“Securities Act” means the Securities Act of 1933, as amended;

“Series MRCS” means Series MRCS, a series of MDA, Series LLC, a Delaware series limited liability company;

“Sponsor” means Lionheart Equities, LLC, a Delaware limited liability company;

“Trust Account” means the trust account established by the Company for the benefit of its stockholders with Continental Stock Transfer & Trust Company;

“Up-C Unit” means each pair consisting of one share of Class V Common Stock and one Class B Unit, as described in more detail in Note 1 of this Form 10-K.

“Virage” means Virage Capital Management LP, a Delaware limited partnership;

“Voting Rights Threshold Date” means the date on which the voting power of John H. Ruiz and his affiliates represent less than fifty percent (50%) of the voting power of all of the then outstanding shares of the Company generally entitled to vote;

“VRM” means Virage Recovery Master LP, a Delaware limited partnership and affiliate of Virage; and

“VRM MSP” means VRM MSP Recovery Partners LLC, a Delaware limited liability company and joint investment vehicle of VRM and Series MRCS.

Item 1. Business.**Industry Overview**

The market for healthcare data solutions and healthcare Claims recovery solutions is large and growing. In 2020, the U.S. national health care expenditure was an estimated \$4.1 trillion and accounted for 19.7% of the U.S. gross domestic product (“GDP”). The Office of the Actuary of the Center for Medicare & Medicaid Services (“CMS”) estimates that the U.S. national health care expenditure will amount to \$6.2 trillion, accounting for 19.7% of the GDP in 2028. National health care expenditures are projected to grow 1.1% faster than the GDP between 2019 and 2028.

CMS estimated that \$1.6 trillion would be spent on Medicare and Medicaid in 2021. This \$1.6 trillion includes \$684 billion on Medicaid expenditures and \$923 billion on Medicare expenditures. We estimate the serviceable addressable market for Medicare was \$102 billion and \$75 billion for Medicaid for 2021.

Further, CMS estimates that they review less than 0.2% of the over one billion Claims that Medicare processes every year, which leads to a potentially high frequency or number of improper payments of Claims submitted.

The Company’s Business Overview

We are a leading data analytics company specializing in healthcare Claims recovery. Our Assignors are healthcare providers and payers (the “Assignors”) that have irrevocably assigned to us their recovery rights associated with certain healthcare Claims. We obtain Claims data from the Assignors and leverage our data analytics capabilities using our Claims recovery platform to identify payments that were improperly paid by our Assignors. We then seek the full recoverable amount from those parties who, under applicable law or contract, were responsible for payment (or reimbursement). Our Assignors fall into three general categories:

- o **Medicare Advantage.** Medicare Advantage organizations (“MAOs”) contract with CMS to administer Medicare benefits to Medicare beneficiaries pursuant to Medicare Advantage plans; and MAOs, in turn, contract with Medicare first-tier, downstream, and related entities to assist the MAOs in administering those Medicare benefits.
- o **Medicaid.** Health coverage provided to eligible low-income adults, children, pregnant women, elderly adults, and people with disabilities.
- o **Commercial Insurance.** Employer-sponsored or individual purchased health insurance coverage.

In January 2022, the Company announced the launch of LifeWallet. LifeWallet is a data ecosystem that is in continuous development to provide innovative data solutions for a variety of industries, including, but not limited to, sports, education, legal, and healthcare. LifeWallet is being developed to employ sophisticated data analytics to enable informed decision-making and improved patient outcomes.

Our assets are generally comprised of recovery rights assigned by our Assignors relating to the improper payment of medical expenses. As opposed to service-based contracts, the entirety of these recovery rights have been irrevocably assigned to us, and because we own these rights, our recovery rights for Claims being pursued cannot be revoked.

Although our Assignors are primarily MAOs, Management Services Organizations (“MSO”) and Independent Practitioner Associations (“IPA”), we also can (and in certain cases do) provide our Claims recovery services to other entities such as:

- Health Maintenance Organizations (“HMOs”)
- Accountable Care Organization (“ACOs”)
- Physicians
- Home Healthcare Facilities
- Self-Funded Plans
- States and Municipalities
- Skilled Nursing Facilities
- Hospitals/Health Systems

Our data recovery system operates across a Health Insurance Portability and Accountability Act of 1996 (“HIPAA”) compliant IT platform incorporating the latest in business intelligence and data technology. Due to the sensitive nature of the data we receive from our Assignors, we ensure that our data systems comply with the security and privacy mandates by federal law. In April 2022, Marcum LLP (“Marcum”), a HITRUST authorized External Assessor Organization, completed an independent assessment of MSP

Recovery's system and service commitments, concluding that our system met the requirements to satisfy the applicable trust services criteria and HITRUST CSF criteria. This independent assessment verifies that we met the healthcare industry's highest standards in protecting healthcare information and mitigating this risk, including compliance with HIPAA rules and regulations. On March 2, 2023, Marcum provided MSP Recovery a report demonstrating that our data recovery system's commitments and system requirements meet or exceed the stringent SOC 2 Type II applicable trust services criteria. For our cloud computing services, we currently use the HITRUST certified Amazon Web Services ("AWS").

The Company's History

In April 2014, MSP Recovery's predecessor, La Ley Recovery Systems, entered into its first assignment agreement. Later that year, MSP Recovery, LLC was founded to provide data driven solutions, and La Ley Recovery Systems filed its first lawsuit against a primary payer—Allstate Insurance Company. In late 2014, we entered into assignment agreements with our second and third Assignors. To date, we have over 160 Assignors.

Since 2014, we have had significant legal victories, including several significant federal appellate court wins. In these opinions, the courts agreed with us on a variety of key issues, holding that:

- downstream entities, such as MSOs and IPAs have standing to sue primary plans under the Medicare Secondary Payer Act ("MSP Act") and associated federal regulations (collectively, the "MSP Laws"); and
- a settlement agreement with a Medicare beneficiary is evidence of constructive knowledge that the primary payer had reimbursement obligations.

Claims Recovery Model

Identifying Opportunity. Our primary focus is on the Medicare and Medicaid markets. Medicare is the second largest government program, with approximately 65 million enrollees and estimated annual expenditures of approximately \$930 billion during 2022. Medicaid is a state-based program with approximately 85 million enrollees and estimated annual expenditures of approximately \$864 billion during 2022. Under the MSP Laws, Medicare is the secondary payer in those instances where a primary payer is obligated to provide coverage to an insured. When Medicare (or an MAO) makes a payment for medical services that are the responsibility of a primary payer under the MSP Act, those payments are subject to recovery where, and to the extent that, one of the statutorily enumerated sources of primary coverage was contractually obligated to pay. Subsequent MSP Act legislation authorizes private parties to recover unreimbursed payments in cases where a primary plan fails to provide payment (or appropriate reimbursement) in accordance with MSP Laws.

We believe our access to large volumes of data, sophisticated data analytics, and a leading technology platform provide a unique ability to discover and recover Claims. Using Algorithms, we identify fraud, waste, and abuse in the Medicare, Medicaid, and commercial insurance segments. Our Algorithms have identified what we estimate to be significant value in potentially recoverable Claims. Of the amount spent yearly by Medicare on medical expenses for its beneficiaries, we estimate that at least 10% are improper payments by private Medicare Advantage plans where a primary payer was responsible to make the payment. We seek recoveries of the Billed Amount from responsible primary payers, and in some instances, double damages and statutory interest pursuant to the MSP Laws.

Pursuit of Recoveries. After potentially recoverable Claims are identified using our Algorithms, and vetted by our team of professionals, we formally retain counsel, including La Ley con John H. Ruiz P.A., d/b/a MSP Recovery Law Firm (the "Law Firm"), described in more detail below under "Fee Sharing Arrangement," and other law firms, to pursue recoveries using a variety of methods, including, but not limited to, demand letters, litigation, private lien resolution programs, and the submission of Claims to mass tort or antitrust settlement coordinators.

Medicare and the MSP Law

The Medicare Secondary Payer Act

The MSP Act states that, under certain conditions, Medicare is the secondary payer rather than the primary payer for its insureds. When Medicare (or an MAO) makes a payment for medical services that are the responsibility of a primary plan under the MSP Act, those payments are conditional. Conditional payments are made by Medicare (or an MAO) as an accommodation for its beneficiaries but are secondary and subject to reimbursement in all situations where one of the statutorily enumerated sources of primary coverage was obligated to pay instead.

Subsequent to the initial passage of the MSP Laws, Congress provided a private cause of action, authorizing private parties to recover unreimbursed payments in cases where a primary plan fails to pay or provide appropriate reimbursement in accordance with MSP Laws. We use the current MSP Laws, among others, including the double damages provision, to hold primary payers accountable. The U.S. Senate and the U.S. House of Representatives is currently contemplating the Repair Abuses of MSP Payments Act, re-introduced in May 2023, which seeks to limit the application of the private cause of action under the Medicare Secondary Payer Act and related double damages provisions.

In 1997, Congress enacted the Medicare Part C program to allow Medicare beneficiaries to receive Medicare Part A and B benefits through privately-run managed care plans. Under the Medicare Advantage program, a private insurance company contracts with CMS to provide Medicare Parts A and B benefits on behalf of Medicare beneficiaries enrolled in a Medicare Advantage Plan ("MA Plan"). Under such a contract, the MAO receives a fixed amount per enrollee (the "Capitation") and must provide at least the same level of benefits that enrollees would receive under the fee-for-service option. The Capitation structure incentivizes MAOs to provide Medicare benefits more efficiently than under the fee-for-service model due to the competition among MAOs for enrollees as well as the savings recovered from primary payers resulting in additional benefits to enrollees.

An MAO's payment obligation under Part C is coextensive with that of the Secretary under Parts A and B. Part C includes a reference to the MSP Act and renders an MAO a "secondary payer" under the Act. In addition, the CMS regulations provide that an MAO will exercise the same rights to recovery from a primary plan, entity or individual that the HHS Secretary exercises under the MSP regulations. The U.S. Court of Appeals for the Eleventh Circuit has accordingly recognized parity between MAOs and Medicare, as "Congress empowered (and perhaps obligated) MAOs to make secondary payments under the same circumstances as the Secretary." MAOs, however, are merely the first layer of the Medicare Advantage program. Due to the customary practices within the MAO industry, the financial injury caused by a primary plan's failure to reimburse conditional payments is often felt primarily by First Tier and Downstream Entities.

First-Tier and Downstream Entities

Federal regulations recognize Medicare first-tier and downstream entities as active participants in the provision of benefits under Medicare Part C. 42 C.F.R. § 422.2 defines a "First-Tier Entity" as "any party that enters into an acceptable written arrangement with an MA organization or contract applicant to provide administrative services or health care services for a Medicare eligible individual." A "Downstream Entity" is an entity that enters into a similar written arrangement at a level below that of a First-Tier Entity. Such written arrangements continue down to the level of the ultimate provider of both health and administrative services. These contracts are both encouraged and regulated by CMS, which requires First-Tier and Downstream Entities to furnish healthcare services in a manner consistent with the dictates of the Medicare program and a MA plan's obligations thereunder. In this way, First-Tier and Downstream Entities are the parties responsible for managing and providing healthcare services to Medicare beneficiaries under the Medicare Advantage program.

First-Tier entities include MSOs and IPAs. An IPA is a business entity organized and owned by a network of independent physician practices for the purpose of reducing overhead and optimizing efficiency and effectiveness in the delivery of health care to Medicare beneficiaries. Put simply, IPAs are healthcare providers who often bear the full financial risk of managing their patients' care. An MSO is a group that owns or manages multiple physician practices for the same purpose. The core business of IPAs and MSOs within the Medicare Part C infrastructure is to manage the care of patients, leverage their delivery systems, and focus on preventive health in order to create value and cost savings.

Because of an MSO and IPA's role as a point of service provider and manager of a beneficiary's care, MAOs customarily pass their risk of loss onto MSOs and IPAs. Under these arrangements, an MAO deducts a percentage of the CMS capitation rate for its administrative costs and pays the balance to the IPA or MSO. In exchange, the provider (IPA or MSO) assumes the full financial risk for the care of the MAO's enrollee. As such, "at-risk" IPAs and MSOs are charged with producing competition, innovation, progress, and savings in the Medicare Part C environment. In accepting the full financial risk of a Medicare beneficiary's health care, an IPA or MSO assumes the MAO's position within the Medicare Part C framework.

When a Medicare Advantage enrollee is injured in an accident, an IPA or MSO can meet its obligation to that enrollee in one of two ways. First, it can render the requisite care to the enrollee directly through its network of physicians, providers, or medical centers. Under this scenario, the MSO or IPA suffers the full cost of providing items and services to the Medicare beneficiary.

Alternatively, if the enrollee is treated in an emergency room or other facility outside of the MSO or IPA's provider system, then the MSO or IPA may make a conditional payment for the cost of that treatment because it is financially responsible for the enrollee's care. Under this second scenario, the contracting MAO pays the outside provider (i.e., the emergency room) and then charges the full amount of that payment to the MSO or IPA who bears the risk of loss. In other words, the MSO or IPA must reimburse the MAO for the full amount of its payment to the outside provider (or that payment is applied as a set-off against capitated funds that the MSO or IPA would otherwise receive).

If an MAO makes a secondary payment which is later appropriately reimbursed by a primary payer, then the MAO will not charge and collect that same amount from the MSO or IPA responsible for that particular enrollee. On the other hand, if the primary payer violates the MSP Act, it is First-Tier and Downstream Entities that are damaged as a result. When an MSO or IPA is damaged by a primary payer, that entity may likewise turn to the MSP Act's broadly worded private cause of action against the primary payer.

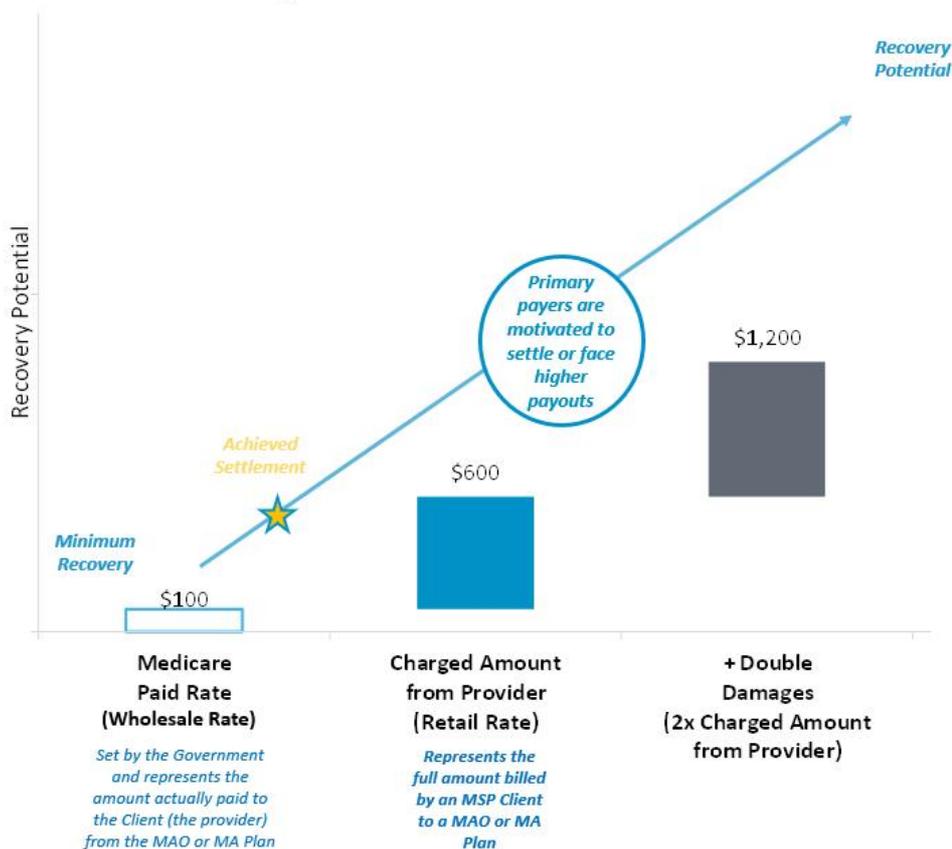

Double Damages. Under existing statutory and case law, the private cause of action under the MSP Act permits an award of double damages when a primary plan fails to provide for primary payment or appropriate reimbursement. We are entitled to pursue medical expenses paid by our Assignors that should have been paid by Primary Plans. Under the MSP Act, we are entitled to pursue double the amount that a provider charged. The private cause of action under 42 U.S.C. § 1395y(b)(3)(A), works in concert with 42

U.S.C. § 1395w-22(a)(4), which expressly provides MAOs with the right to “charge or authorize the provider of such services to charge, in accordance with the charges allowed under a law, plan, or policy, described in such section the insurance carrier, employer, or other entity which under such law, plan, or policy is to pay for the provision of such services...” Moreover, the MSP regulations in Part 411 also support the fact that a provider may bill its full charges for services to primary payers. The statute provides the Company the ability to seek double the charged or otherwise Billed Amounts from primary plans. The payment disparity between the Paid Amount and the Billed Amount creates a free rider scenario where the primary payer is in a better financial position if it does not comply with the law. In other words, if a primary payer’s liability is capped at double the Paid Amount (an amount less than what the primary payer would have paid) then the entire purpose of the MSP Act—to make Medicare secondary—is defeated. That is why Congress set the damage amount at the amount billed by the provider; to incentivize compliance with the MSP Act. However, the Repair Abuses of MSP Payments Act (S.1607/H.R.3388) (the “RAMP Act”) introduced by Senators Tim Scott (R-SC) and Maggie Hassan (D-NH) and Representatives Brad Schneider (D-IL) and Gus Bilirakis (R-FL) in the U.S. Senate and the U.S. House of Representatives, respectively, could limit potential double damage recoveries to group health plans only, as defined in paragraph 42 U.S.C. § 1395y(b)(1)(A)(v)). This legislation, if enacted as proposed, would not apply retroactively, and would not affect our existing portfolio of Claims or lawsuits filed prior to its potential enactment.

Interest Multiple. In addition to the Billed Amount, the Company is entitled to pursue interest pursuant to Section 1862(b)(2)(B)(i) of the Social Security Act and 42 C.F.R. § 411.24(m), which provides express authority to assess interest on Medicare Secondary Payer debts. Therefore, when recovery is pursued through litigation, we seek to recover double the amount owed for our Assignor’s accident-related medical expenses, plus accrued statutory interest due pursuant to the MSP Laws.

Pursuant to federal and state laws, we believe the Company has an established basis for future recoveries, often in excess of the Paid Amount. By discovering, quantifying, and settling the gap between Paid Amount and Billed Amount on a large scale, we believe we are positioned to generate meaningful profit margins. Pursuant to the “right-to-charge” provision in the MSP Laws, an MAO may charge, or authorize providers to charge, insurance carriers for usual, customary, and reasonable charges permitted by the law, plan, or policy, such as the Billed Amount. As such laws, plans, and policies provide for payment of the providers’ actual charges (the Billed Amount), rather than the reduced Medicare payments, we pursue recovery of the Billed Amount and in certain cases, as provided by law, double the Billed Amount for medical services and treatments. The below graphic demonstrates the difference between the Paid Amount, the Billed Amount, and the potential for double damages. For additional information, see “Development of Medicare and the MSP Law” below.

Illustrative Recovery Potential

Mandatory Reporting

The Medicare, Medicaid, and SCHIP Extension Act of 2007 (“MMSEA”): MMSEA added mandatory reporting requirements with respect to Medicare beneficiaries who have coverage under group health plan arrangements as well as for Medicare beneficiaries who receive settlements, judgments, awards, or other payment from liability insurance (including self-insurance), no-fault insurance, or workers’ compensation. Failure to comply with MMSEA may result in a civil money penalty of \$1,000 for each day of noncompliance for each individual for which the information should have been submitted. This civil money penalty is in addition to any other penalties prescribed by law and in addition to any Medicare secondary payer Claim under this title with respect to an individual. Although we are not entitled to pursue MMSEA penalties on our own behalf, we have filed a qui tam lawsuits on behalf of the federal government to enforce this federal law.

Recent Updates - Corporate Rebranding

In January 2023, we rebranded to LifeWallet. The core strategy and business of the Company remains the same—secondary payer reimbursement recoveries. However, utilizing the name LifeWallet reflects the diverse recovery opportunities presented by the Company’s growing technological innovations and consolidates current and future lines of business under one name, while positioning the Company for future revenues streams.

The LifeWallet Ecosystem

We are developing LifeWallet—a versatile, scalable, and expandable ecosystem, where tokenized data is stored in a secure, user friendly platform with multiple applications. LifeWallet is expected to provide real-time analytics at the point of care, helping identify the primary insurer, assisting providers in receiving reasonable and customary rates for accident-related treatment, shortening the company’s collection time frame, and increasing revenue visibility and predictability. The platform aims to avoid the improper documenting of medical Claims that lead to improper billing, thereby preventing fraud, waste, and abuse, and is also expected to provide an application programming interface that allows patients to gain immediate access to all of their medical records when seeking medical treatments. LifeWallet incorporates extensive privacy and security standards and is HIPAA compliant.

A number of applications that will be powered by LifeWallet are currently in development, including:

- **LifeWallet Sports.** LifeWallet Sports empowers student-athletes to maximize their Name, Image, and Likeness (“NIL”) rights by connecting them with brands and businesses. The platform assists athletes in deal negotiation and rule compliance and enables brands and businesses to identify talent, schedule events, monitor campaigns, and much more.
- **Chase to Pay Services.** Over time we intend to shift our core business to the Chase to Pay service platform powered by LifeWallet (“Chase to Pay”). Chase to Pay is being developed to locate and organize users’ medical records to facilitate efficient access and enable informed decision-making and improved patient care. A real-time, analytics driven platform that identifies the proper primary payer at the point of care, Chase to Pay is intended to plug into the real-time medical utilization platforms used by providers at the point of care.
- **LifeWallet Health.** LifeWallet Health is being developed to give patients the ultimate control over their healthcare data by providing easy access to their medical history, providing healthcare notifications, and utilizing a wide variety of data points to improve overall patient care.
- **LifeChain.** LifeChain is being developed to tokenize healthcare Claims and patient records using blockchain technology, to enable adjudication of Claims upfront, in real-time, with complete transparency. LifeChain aims to reduce costs, maximize provider revenue, improve patient care, and eliminate fraud, while maintaining patient privacy using decentralized biometric authentication.
- **LifeWallet 911.** LifeWallet 911 is being developed for utilization by emergency service organizations to improve the facilitation of emergency services by providing 911 operators, dispatchers, and emergency medical providers with immediate access to vital information to reduce response times and improve patient outcomes.
- **LifeWallet Legal.** LifeWallet Legal is being developed to bring together clients and attorneys through a trusted, verified data platform to facilitate the efficient processing of Claims for improved legal outcomes.
- **LifeWallet EDU.** LifeWallet EDU is being developed to provide an intelligent infrastructure and security solutions for educational institutions, utilizing biometric technology to prevent safety breaches in real-time, thus providing unparalleled security for students, faculty, and staff.

Competitive Strengths

Irrevocable Assignments

We differ from competitors as we receive irrevocable assignments of recovery rights associated with certain healthcare related Claims. When we are assigned these rights, we obtain ownership in those rights that our competitors do not. Rather than provide services under third-party vendor services contracts, we receive the rights to our Assignors’ Claims, and therefore step into the Assignor’s shoes. As assignees, we are the plaintiff in any action filed in connection with such Claims, we maintain control over the direction of the litigation, and we can pursue additional recoveries under numerous legal theories that our competitors cannot.

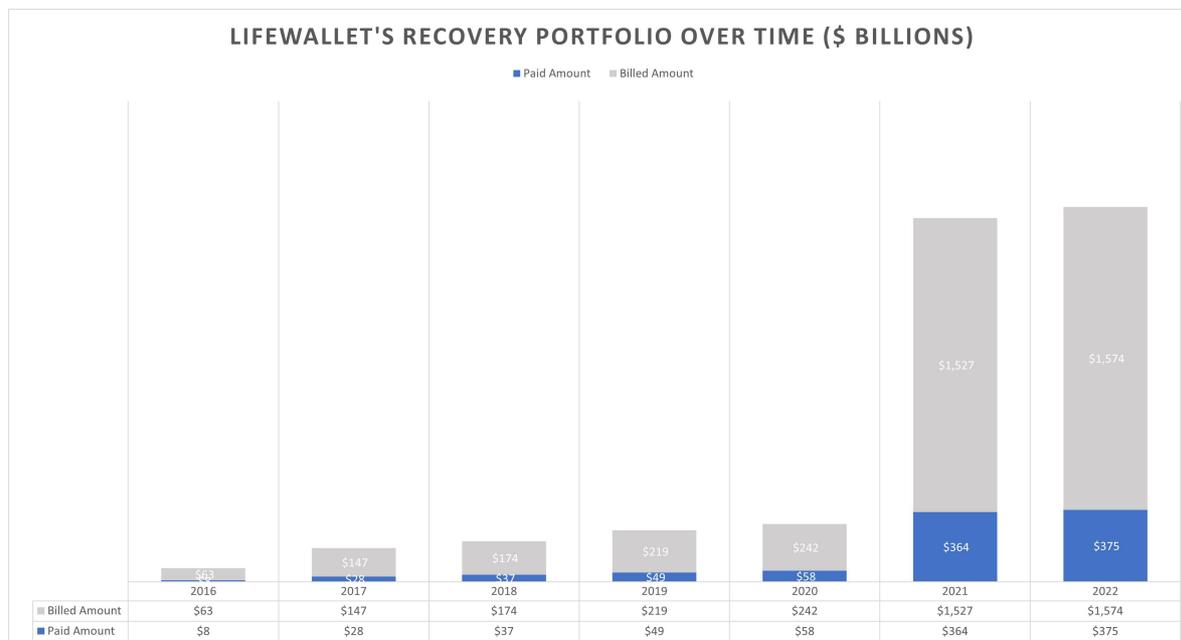

Scale of Current Portfolio

Our current portfolio has scaled significantly. As of December 31, 2022, we have been assigned recovery rights on Claims valued at approximately \$1,574 billion in Billed Amount (and approximately \$375 billion in Paid Amount), of which approximately \$89.6 billion is PVPRC.

We are typically entitled to 100% of recoveries pursuant to our Claims cost recovery agreements (“CCRA”). From those recoveries, we are typically contractually obligated to pay 50% of recoveries to the Assignor, plus attorneys’ fees and costs associated with pursuit of the recoveries. In certain cases, we have purchased the Assignor’s rights to recovery proceeds in advance of any collection; therefore, entitling the Company to retain 100% of the recovery proceeds, net of attorneys’ fees and costs. As of December 31, 2022, we were entitled to up to approximately 54% in the aggregate of the approximately \$89.6 billion in PVPRC. Our recoveries would constitute a portion of the approximately \$89.6 billion in PVPRC that may be recovered, after giving effect to our expenses, including any contingent fee payment payable to the Law Firm. See “Risk Factors—Risks Related to the Company’s Business and Industry.” This approximately \$89.6 billion in PVPRC was identified using our Algorithms which comb through historical paid Claims data and to identify potential recoveries. As of December 31, 2022, the approximately \$89.6 billion in PVPRC and approximately \$375 billion in Paid Amount included approximately \$5.5 billion and approximately \$24.4 billion in capitated payments, respectively. Such capitated amounts are typically based on a fixed amount per enrollee in a plan rather than amounts paid on a fee-for-service basis and, in calculating the equivalent of Paid Amount for purposes of measuring potential recoveries, in cases where payments were based on capitated amounts, MSP Recovery reviews capitated encounter data typically found in Medicare Part B payments. The Company has successfully recovered full amounts on these capitated payments in prior settlements.

The typical timeline for Claims being identified as potentially recoverable Claims to actual Claims recovery revenue can vary greatly depending on the complexity of the recovery strategy and litigation, as well as the status of each Claim in the recovery process. The Company monitors the penetration status of the Claims portfolio, which categories the status of cases based on their status in the

recovery process in the following categories: in development, recovery process initiated, data collected and matched, resolution discussions in process and other cases. Potentially recoverable Claims can take years to reach resolution based on a variety of factors.

Our Proprietary Data Analytics System

We believe our access to large volumes of data, sophisticated data analytics, and leading technology platforms provide a unique opportunity to discover and recover Claims. Our Algorithms comb through historical paid Claims data to identify potential recovery opportunities. As of December 31, 2022, we estimate a PVPRC of \$89.6 billion. Through data mining, we continue to identify new recovery opportunities.

Our Founders and Broad Team with Extensive Legal Experience

Experienced management gives us a competitive advantage. Our founder, John H. Ruiz, is recognized as one of America’s pre-eminent trial lawyers, named “2019’s DBR Florida Trailblazer” for groundbreaking work in integrating data analytics into the practice of law and for the impact it is having on healthcare recoveries. Over the course of a distinguished 30-year legal career, Mr. Ruiz has gained national recognition in class action, mass tort litigation, multi-district litigation (“MDL”) consolidated cases, medical malpractice, products liability, personal injury, real estate, and aviation disaster cases. Our Chief Legal Officer, Frank C. Quesada, has extensive experience in healthcare litigation, including numerous legal wins in state and federal court, at the trial and appellate levels.

Due to our team’s extensive knowledge of the MSP Laws, and decades of experience in data analytics within the medical industry, we believe we are well positioned to recover monies owed to our Assignors under the MSP Laws, as well as other state and federal laws. We use our proprietary software and a highly trained staff including IT personnel, accountants, statisticians, physicians, data analysts and attorneys to maximize the recovery of Claims already paid.

Growth Strategy

Expansion of Assignor Claims. CMS has projected that health spending will continue to grow at an average rate of 5.4% a year between 2019 and 2028. We anticipate that this trend will be reflected in our own growth. We plan to expand our Assignor base by implementing new strategies to secure new Assignors and continue receiving assignments of Claims from our existing Assignors. These strategies will include a platform to educate potential Assignors about our company, making strategic business partnerships, potential mergers, acquisitions of personnel, as well as other marketing strategies.

Further Development of our Chase to Pay Services. The Company is currently developing the Chase to Pay model. This model will allow payers and providers to identify the proper primary payer in real time, at the point of care. Our plan is to develop these services to form a source of revenue that does not require the acquisition costs and recovery sharing associated with our Claims recovery business.

Continued Development of our Data Analytics System. We will also continue to develop our proprietary system and anticipate shifting to AI and machine learning to better enhance our recovery potential. The development of our system will allow us to be more efficient in the services we provide our Assignors, as well as being able to attract more Assignors.

Monetizing Existing Software Applications. We intend to offer certain of our software applications, including our Claims to Med application as separate products. The Claims to Med application translates the codified component of procedural codes (“CPT codes”) from medical Claims data and medical bills into medical records that are consistent with Claims records. This allows patients, providers, attorneys, corporations, and the general public to better understand their medical history.

Our Services

Claims Recovery

As part of our Claims recovery business, we pursue a number of types of recoveries, including:

Contractual Cases

When Medicare or an MAO, as a secondary payer, makes a payment on behalf of a beneficiary for injuries related to the use, maintenance, or operation of a vehicle, that payment may be recoverable from a no-fault insurer, as a primary payer. No-fault coverage does not require an assessment of liability, and thus, when a covered medical expense is incurred, the insurer must accept primary payer responsibility. The no-fault insurer’s failure to pay or reimburse Medicare and MAOs constitutes a breach of the beneficiary’s no-fault coverage, and a violation of the MSP Laws.

Settlement Cases

The MSP Act allows Medicare beneficiaries, providers and MAOs to seek reimbursement from any entity or person that has settled a dispute and failed to pay or reimburse Medicare and MAOs for an enrollee’s medical expenses related to that dispute. We review our Assignor’s Claims data and compare these records with the CMS database and court dockets to determine if any of our Assignor’s enrollees have been involved in a dispute that resulted in a settlement.

Product Liability

Defective or dangerous products cause thousands of injuries every year. Many product liability cases arise from instances in which an implantable medical device causes an adverse reaction due to a design or manufacturing defect. These adverse reactions may range from minor rashes to cancer and subsequent death. Where Medicare or an MAO has paid an enrollee’s medical expenses for these injuries, we can pursue recoveries.

Antitrust-Pharmaceutical

Antitrust laws, including the Sherman Antitrust Act of 1890 (the “Sherman Act”) and the Clayton Antitrust Act of 1914 (the “Clayton Act”) and analogous state unfair competition laws prohibit business practices that unreasonably deprive consumers of the benefits of competition, resulting in higher prices for products and services. The Sherman Act also outlaws all contracts, combinations, and conspiracies that unreasonably restrain interstate and foreign trade.

Our antitrust cases typically derive from one of the two following scenarios: (1) either a group of manufacturers who make similar products decide to raise product prices collectively irrespective of market fluctuations; or (2) a manufacturer of a branded pharmaceutical enters into a “pay for delay” agreement with a generic drug manufacturer so that the generic drug manufacturer delays the market launch of a cheaper competing drug. We bring antitrust Claims on behalf of our Assignors under both scenarios pursuant to the Sherman Act, the Clayton Act and state unfair competition laws.

False Claims Act

The False Claims Act (the “FCA”) is widely regarded as an effective tool in combating waste, fraud and abuse against the federal government. The FCA prohibits the submission of false or fraudulent Claims for payment from the government. The FCA, which imposes civil penalties, fees, and treble damages for fraudulent claims, permits private individuals to file qui tam suits on behalf of the federal government.

Mass Tort and Private Lien Resolution Programs

When a defendant in an MDL settles its cases with the plaintiffs, the issues can be resolved through a Master Settlement Agreement (“MSA”), which settles all pending lawsuits and provides that the defendant(s) agrees to set aside funds to settle the MDL related cases involving various conditions.

MSAs govern the terms of the settlement and provide for the resolution of all liens against the settlement proceeds. A lien resolution administrator assists in resolving all liens that are asserted by government payers or private payers against settlement funds and ensures that all such liens are resolved prior to settlement payments being disbursed to the settling claimants.

An MSA typically provides for a Private Lien Resolution Agreement (the “PLRP Agreement”) whereby the lien resolution administrator and our entities (the “MSP Group”) establish an efficient procedure to resolve MSP Group’s Claims and liens accordingly.

Upon payment of MSP Group’s liens as provided in the PLRP Agreement, MSP Group’s reimbursement Claims against recoveries by claimants as defined in the MSA are resolved, and all potential liabilities related to such liens in favor of MSP Group are

released. The only liens subject to resolution are those liens that qualify for a settlement payment pursuant to the MSA. No other Claims owned or otherwise held by the MSP Group are encompassed in the PLRP Agreement.

MSP Group conducts an analysis of the claimants in the MDL settlement and identifies liens belonging to MSP Group arising from medical care and treatment provided to claimants for which MSP Group has a legal right of recovery. A lien administrator provides the list of claimants to MSP Group. MSP Group then provides the Claims data supporting MSP Group’s liens to the lien administrator, which includes the specific Billed and Paid Amount of MSP Group’s liens. The lien administrator reviews and verifies MSP Group’s data and confirms that the Claims included in the liens are reimbursable.

Our Claims Portfolio

As of December 31, 2022, we have received assignments to recovery rights for more than 160 Assignors in the Medicare, Medicaid, and commercial Insurance segments, associated with approximately \$1.573 trillion in Billed Amount of health care Claims. We have been assigned Claims from all 50 states, as well as Puerto Rico. Each dot in the following graphic represents a ZIP code for which the Company maintains data.

We typically acquire recovery rights by entering into a CCRA with an Assignor, pursuant to which the Assignor assigns all right, title, and interest in and to its Claims recovery and reimbursement rights to the Company, or to an affiliated entity, partner, or investor, in exchange for (a) deferred compensation, typically structured as 50% of any net recovery earned by and paid to us, or (b) an upfront lump sum payment. Some of these CCRA’s are “limited recovery” agreements, meaning that they are limited in time or scope as to what is assigned to us. For example, certain of our CCRA’s relate specifically to claims against manufacturers, distributors, and producers of Actos, pioglitazone, metformin, glimepiride, or Duetact. Additionally, certain other CCRA’s relate specifically to healthcare services rendered and paid for during a specified timeframe. In general, our CCRA’s allow the Company to recover historical Claims. Under some of the CCRA’s, the Company has been assigned historical Claims and the Assignor has agreed to continue assigning Claims data. The Company currently expects to generate a substantial portion of total revenue from current CCRA’s through recoveries on historical Claims under our Recovery Model. The Company believes as it builds out the Chase to Pay platform and recovery model, a significant portion of the Company’s revenue from these CCRA’s will be derived through the Chase to Pay model by recovering on Claims as they occur.

In the cases where we acquire recovery rights for an upfront lump sum payment, instead of a CCRA, we typically enter into a Claims Purchase and Assignment Agreement (“CPAA”). Under a typical CPAA, an entity assigns all right, title, and interest in and to its Claims recovery and reimbursement rights to us (or our affiliated entity, partner or investor) in exchange for an upfront lump sum payment. In these arrangements, we (or our affiliated entity, partner or investor) would typically own 100% of all future net recoveries from those purchased Claims. Often times the CPAA includes a provision to continue acquiring future Claims from the Assignor.

MSP Lien Resolver

We intend to further develop and expand the offering for our MSP Lien Resolver. MSP Lien Resolver is a disruptive new product that helps identify, quantify, and resolve outstanding liens. Key areas of functionality for MSP Lien Resolver include modules for related lien notices, Claims history, Claims dispute and negotiation, and case settlement and payment. MSP Lien Resolver benefits us because the additional proprietary data enhances overall data quality and efficacy. This product also deepens relationships with attorneys and outside information providers.

Sales and Marketing

Our sales force is comprised of internal and external sales professionals. Our sales force identifies potential Assignors and manages relationships with existing Assignors. The sales force is incentivized via a recovery-based strategy. Once we have received recoveries for Claims related to an Assignor, the applicable sales professional is compensated. This mechanism ensures low fixed costs while offering a potentially generous commission model.

Among other things, our marketing strategies generate new Assignor leads, by educating investors and Assignors about our Company.

Licensing and Regulation

We are subject to federal and state laws and regulations governing privacy, security and breaches of patient information and the conduct of certain electronic health care transactions, including, HIPAA and other health information privacy and security requirements. Some of our Assignors with which we have or may establish business relationships, are “Covered Entities” that are regulated under HIPAA. We also are a “Business Associate” of our Assignors; as such, we must comply with HIPAA regulations. To provide our Covered Entity Assignors with services that involve the use or disclosure of protected health information, HIPAA requires us to enter into Business Associate agreements with our Assignors.

In addition to HIPAA, we may be subject to other U.S. federal and state laws relating to the collection, dissemination, use of and access to, personal information. While we believe that we are in material compliance with such laws and regulations, failure to comply with these laws could expose us to lawsuits, data security incidents, regulatory enforcement or fines.

Intellectual Property and R&D

We rely on trade secret laws. We use a combination of confidential agreements and licenses with our Assignors, employees, vendors, and other parties. We also rely on other security measures to control the access to our confidential information, software, and other intellectual property.

Our research and development team uses proprietary software and a highly trained staff including I.T. personnel, accountants, statisticians, physicians, data analysts and attorneys to search through numerous data sources. We will continue the investment of resources into our proprietary systems.

Our intellectual property licensing agreements grant, during the term of the agreement, a non-exclusive, non-transferable, non-assignable, irrevocable, worldwide, fully paid-up license under our software and technology to use, perform, import, export, and all other rights pursuant to our software and technology solely in connection with the parties’ assigned Claims and the transactions contemplated in the agreements between the parties. Nothing in these agreements affect our ownership or control in our software and technology. Except for the license, all of our other rights with respect to our software and technology are reserved.

Competition

We believe we do not have any direct competitors. Other entities in the industry act as vendors and pursue reactive recoveries, while we aggressively pursue recoveries on our own behalf, using various state and federal laws. Although somewhat different in approach, we compete with in-house recovery departments, collection and financial services companies and other companies. Some of these entities are Cotiviti Holdings, Inc., MultiPlan Corporation, Encore Capital Group, Inovalon Holdings, Inc., Optum, Inc., Verisk Health, Inc., McKesson Corporation, Change Healthcare Corporation, HMS Holdings Corp., The Rawlings Group, Equian, LLC, Trover Solutions, Inc. and other, smaller companies.

Human Capital

Our employees and culture are critical components to our success and growth as a company. As of December 31, 2022, we had approximately 100 employees. None of our employees are covered by collective bargaining agreements or represented by a labor union. We believe that the relationships we have with our employees are positive.

In addition, we employ specialized contract or part-time employees on a temporary basis, which include highly trained IT personnel, accountants, statisticians, physicians, data analysts and attorneys to maximize the recovery of Claims. We have historically been able to transition many of these top performers from contract or part-time to full time employment.

We strive to attract, develop, and retain the best talent by providing competitive pay and benefits, continuous growth and development, and a diverse and inclusive workplace. Our human capital resource objectives include not only acquiring the best talent but also motivating those that drive our business forward. We aim to achieve these objectives using generous compensation programs and offering a one-of-a-kind employee experience.

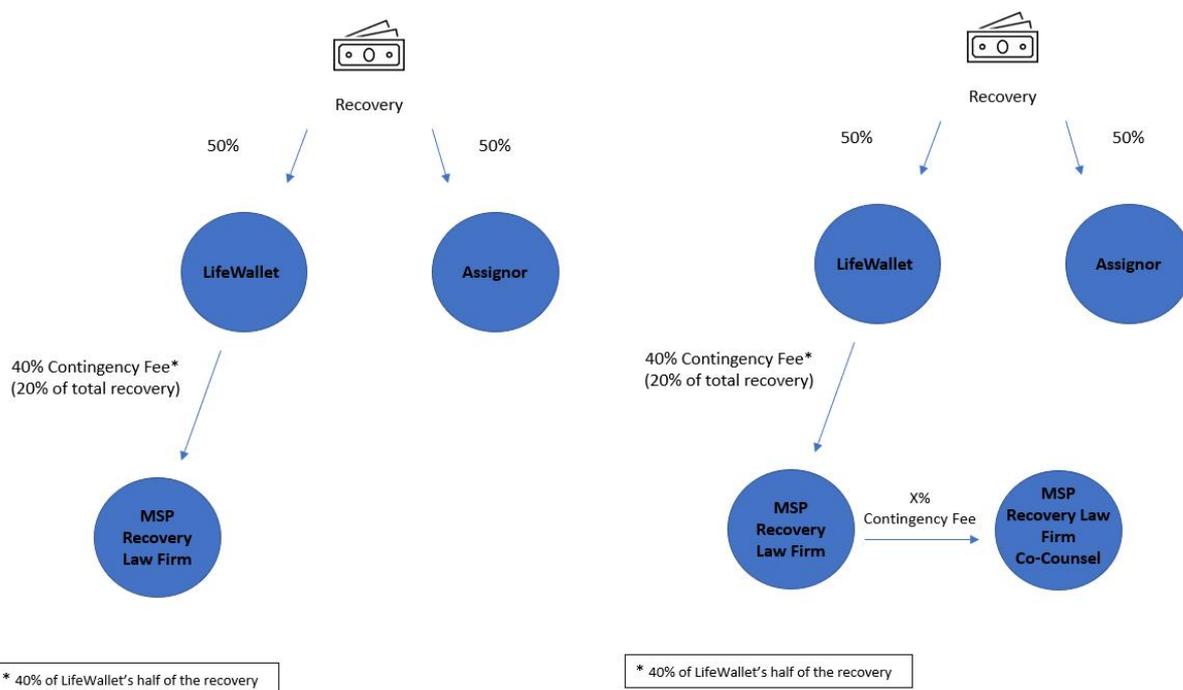

To better develop and incentivize our employees, we regularly provide employee feedback and recognition. We have an annual bonus program, and we utilize spot bonuses in order to continue to drive our employees to find opportunities and innovate our business.

Fee Sharing Arrangements

We engage with each Assignor independently. As stated above, typically our Assignors irrevocably assign to us broad recovery rights to the Claims assigned. Generally, the assignment agreements provide for the Assignor to receive 50% of the Net Proceeds of any recoveries from the Claims assigned. The “Net Proceeds” of any assigned Claim is defined as the gross amount recovered on an assigned Claim, minus any costs directly traceable to such assigned Claim(s) for which recovery was made. In some instances, we may purchase outright an Assignor’s recovery rights; in this instance, we are entitled to the entire recovery.

We enter into legal services agreements with the Law Firm and the various entities that hold Claims. In this relationship, the Company (and other Claims holding entities) is the plaintiff and the Law Firm serves as its counsel. The Law Firm is engaged to act as exclusive lead counsel to represent MSP Recovery and each of its subsidiaries and affiliates (or other applicable entity) as it pertains to the Assigned Claims, on a contingency basis. The Law Firm engages outside litigation counsel from around the nation as co-counsel and these arrangements are made directly between the Law Firm and other counsel. For the services provided, the Law Firm is typically entitled 40% of our 50% portion of the Gross Proceeds (i.e., 20% of the total Gross Proceeds). This contingency fee can change in the future. The Law Firm is also entitled to attorneys’ fees that are awarded pursuant to any fee shifting statute, by agreement, or court award.

The below is an illustration of how the recovery proceeds arrangement typically works when co-counsel is (and is not) involved:

Seasonality

Seasonality does not have a material impact on our business.

Other Information about MSP Recovery, Inc. d/b/a LifeWallet

We make available free of charge through our website, www.msprecovery.com, our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and all amendments to those reports as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC. In addition, our website includes other items related to corporate governance matters, including, among other things, our corporate governance principles, charters of various committees of the Board of Directors, and our code of conduct applicable to all employees, officers and directors. We intend to disclose on our internet website any amendments to or waivers from our code of business conduct and ethics as well as any amendments to its corporate governance principles or the charters of various committees of the Board of Directors. Copies of these documents may be obtained, free of charge, from our website. The SEC also maintains an internet site that contains reports, proxy and information statements and other information regarding issuers that file periodic and other reports electronically with the SEC. The address of that site is www.sec.gov. The information available on or through our website is not a part of this Annual Report and should not be relied upon.

Forward-Looking Statements

Certain of the statements contained in this Annual Report on Form 10-K (this "Annual Report") are forward-looking and constitute forward-looking statements within the meaning of Section 27A of the Securities Act, and Section 21E of the Exchange Act. Forward-looking statements may generally be identified by the use of words such as "anticipate," "believe," "could," "expect," "intend," "plan," "predict," "may," "should," and "will" or, in each case, their negative, or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts, including, for example, guidance for 2023 portfolio recovery and revenue. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur in the future. As a result, these statements are not guarantees of future performance or results and actual events may differ materially from those expressed in or suggested by the forward-looking statements. Although we believe that our expectations are based on reasonable assumptions within the bounds of our knowledge of our industry, business and operations, we cannot guarantee that actual results will not differ materially from our expectations. In evaluating such forward-looking statements, you should specifically consider various factors, including the risks outlined under "Risk Factors." Any forward-looking statement made by LifeWallet herein speaks only as of the date made. The discussion of risks and uncertainties set forth in this Annual Report is not necessarily a complete or exhaustive list of all risks facing the Company at any particular point in time. New risks and uncertainties come up from time to time, and it is not possible for management to predictor identify all such events or to assess either the impact of all such risk factors on our business or the extent to which any individual risk factor, combination of factors, or new or altered factors, may cause results to differ materially from those contained in any forward-looking statement. LifeWallet has no obligation, and does not intend, to update any forward-looking statements after the date hereof for any reason, even if new information becomes available in the future, except as required by federal securities laws. Factors that could cause these differences include, but are not limited to, LifeWallet's ability to capitalize on its assignment agreements and recover monies that were paid by the assignors; the inherent uncertainty surrounding settlement negotiations and/or litigation, including with respect to both the amount and timing of any such results; the validity of the assignments of Claims to LifeWallet; the ability to successfully expand the scope of our Claims or obtain new data and Claims from LifeWallet's existing assignor base or otherwise; LifeWallet's ability to innovate and develop new solutions, and whether those solutions will be adopted by LifeWallet's existing and potential assignors; negative publicity concerning healthcare data analytics and payment accuracy; compliance with the listing standards of The Nasdaq Capital Market; and those other factors listed under "Risk Factors" below and elsewhere in this Annual Report and other reports filed by the Company with the SEC. Unless the context requires otherwise or unless otherwise noted, all references in this Annual Report to "LifeWallet," "MSP Recovery," "MSP," "the Company," "we," "us," or "our" are to MSP Recovery, Inc., d/b/a LifeWallet, a Delaware corporation.

Item 1A. Risk Factors.

An investment in our securities involves a high degree of risk. You should carefully consider the following risk factors, together with all of the other information included in this Form 10-K before making an investment decision. The occurrence of one or more of the events or circumstances described in these risk factors, alone or in combination with other events or circumstances may have an adverse effect on our business, cash flows, financial condition, and results of operations. You should also carefully consider the following risk factors in addition to the other information included in this Form 10-K, including matters addressed in the section entitled "Cautionary Note Regarding Forward-Looking Statements." We may face additional risks and uncertainties that are not presently known to us or that we currently deem immaterial, which may also impair our business or financial condition. The following discussion should be read in conjunction with the financial statements and notes to the financial statements included herein.

Risk Factors Summary

The following is a summary of some of the Company's most important risks and uncertainties that could materially adversely affect our business, financial condition, and results of operations. You should read this summary together with the more detailed description of each risk factor. Additional discussion of the risks summarized in this Risk Factors Summary, and other risks that we face, can be found below under the heading "Risk Factors" and should be carefully considered, together with other information in this Form 10-K and our other filings with the SEC, before making an investment in our securities.

Risks Related to the Company's Business and Industry:

- We have a history of net losses and no substantial revenue to date, and we may not achieve recoveries, generate significant revenue or achieve profitability.
- We have a limited history of actual recoveries to date, and there are risks associated with estimating the amount of revenue that we recognize from the recovery.
- Litigation outcomes are inherently risky, and we depend upon the due care of lawyers and the court system. Unfavorable court rulings, delays, damages limitations, and our ability to collect on judgments in our favor could adversely affect our business.

- Counterparties in our lawsuits employ dilatory tactics that delay the resolution of litigation or settlement negotiations, which increases the costs associated with recoveries and substantially delays the outcome of our cases and any associated revenue recognition.
- Our fee sharing arrangement with the Law Firm materially reduces our recoveries.
- Assignors may pursue recovery on Claims directly or may use recovery agents other than us in connection with the Assignor's efforts to recover on Claims.
- Our business and future growth depend on our ability to successfully expand the volume of our healthcare Claims and obtain data from new Assignors and healthcare Claims from our existing Assignor base.
- The positions we will typically acquire in connection with our acquisition of Claims are unsecured and may be effectively subordinated to other obligations and are at risk to fraud on the part of the Assignor of the Claim.
- Healthcare spending fluctuations, simplification of the healthcare delivery and reimbursement system, programmatic changes to the scope of benefits and limitations to payment integrity initiatives could reduce the need for our data-driven solutions.
- If our existing Assignors prematurely terminate their agreement with us or if either party materially breaches an agreement, and we can no longer receive future assignments of healthcare Claims recoveries, it could have a material adverse effect on our business, financial condition, and results of operations.
- We have long sales and implementation cycles for many of our data-driven solutions and may fail to close sales after expending time and resources, or experience delays in implementing the solutions.
- If our Assignors' risk agreements change, it can have a material adverse effect on our business, financial condition, and results of operations.
- Our use and disclosure of individually identifiable information, including health information, is subject to federal and state privacy and security regulations, and our failure to comply with those regulations or adequately secure the information we hold could result in significant liability or reputational harm.
- If we fail to innovate and develop new solutions, or if these new solutions are not adopted by existing and potential Assignors or other users, it could have a material adverse effect on our business, financial condition and results of operations.
- Changes in the United States healthcare environment, or in laws relating to healthcare programs and policies, and steps we take in anticipation of such changes, particularly as they relate to the Affordable Care Act and Medicare and Medicaid programs, could have a material adverse effect on our business, financial condition and results of operations.
- A significant portion of our Claims comes from a limited number of Assignors who have relationships with key existing payers, and the loss of one or more of these Assignors or disruptions in Assignor-payer relationships, could have a material adverse effect on our business, financial condition and results of operations.
- The data healthcare analytics and healthcare payment market are relatively new and unpenetrated, and may not develop, develop more slowly than we expect, or sustain negative publicity which may adversely affect our business.
- We face significant competition, and we expect competition to increase.
- Failure to adequately protect the confidentiality of our trade secrets, know-how, proprietary applications, business processes other proprietary information and trademarks could adversely affect the value of our technology and products.
- Our qui tam litigation may be subject to government intervention and dismissal pursuant to 31 U.S.C. § 3730(2)(A).
- We are subject to extensive government regulation. Any violation of the laws and regulations applicable to us or a negative audit or investigation finding could have a material adverse effect on our business.
- Our business depends on effective information processing systems that are compliant with current HIPAA transaction and code set standards and the integrity of the data in, and operations of, our information systems, as well as those of other entities that provide us with data or receive data from us.
- In the event we fail to maintain our Security Organization Control 2, HITRUST, or other certifications, we could be in breach of our obligations under our contracts, fines and other penalties could result and we may suffer reputational harm and damage to our business.
- We may make acquisitions of businesses or Claim recovery interests that prove unsuccessful, and any mergers, acquisitions, dispositions or joint venture activities may change our business and financial results and introduce new risks.

- We have a substantial amount of indebtedness and payment obligations, and together with any future indebtedness or payment obligations, could adversely affect our ability to operate our business.
- Failure to obtain or maintain ongoing financing to fund operations could negatively impact our business.
- Adverse judgments or settlements in litigation, regulatory or other dispute resolution proceedings could have a material adverse effect on our business, financial condition and results of operations.
- If we fail to accurately calculate the Paid Amount and Paid Value of Potential Recoverable Claims, it can have a material adverse effect on our business, results of operations, financial condition, and cash flows.
- Failure of our software vendors, utility providers and network providers to perform as expected, changes in our relationships with them, or losing access to data sources may adversely affect our business.
- We may be sued by third parties for alleged infringement of their proprietary rights.
- Changes in, or interpretations of, tax rules and regulations may adversely affect our effective tax rates.
- We will be required to pay the Tax Receivable Agreement (“TRA”) Parties (as defined in the TRA) for most of the benefits relating to, among other things, an increase in tax attributes as a result of the Company’s direct and indirect allocable share of existing tax basis acquired in the Business Combination, and the Company’s increase in its allocable share of existing tax basis and anticipated tax basis adjustments we receive in connection with sales or exchanges of Up-C Units after the Business Combination.
- Our success is dependent upon the efforts of our key personnel. The loss of key personnel could negatively impact the operations and profitability of the Company and its financial condition could suffer as a result.
- We might be unable to successfully recruit and retain qualified employees.
- General economic, political and market forces and dislocations beyond our control could reduce demand for our solutions and our overall business may suffer from an economic downturn.
- COVID-19 or another pandemic, epidemic, or outbreak of an infectious disease may have an adverse effect on our business, the nature and extent of which are highly uncertain and unpredictable.
- We are concentrated in certain geographic regions, which makes us sensitive to regulatory, economic, environmental, and competitive conditions in those regions.

Risks Related to Our Securities:

- We are controlled by the Members, including John H. Ruiz and Frank C. Quesada, whose interests may conflict with our interests and the interests of other stockholders. Further, our status as a “controlled company” on Nasdaq removes certain corporate governance protections.
- Our stockholders will experience substantial dilution as a consequence of, among other transactions, any further issuance of common stock.
- We may not be able to comply with Nasdaq’s continued listing standards, which could cause de-listing and reduce liquidity.
- Our common stock may be delisted from The Nasdaq Capital Market if we fail to comply with continued listing standards.
- We may be required to take write-downs or write-offs, restructuring, and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.
- We may be unable to obtain additional financing to fund the operations and growth of the Company.
- Anti-takeover provisions contained in our Charter and bylaws, as well as provisions of Delaware law, could impair a takeover attempt.
- The Charter contains a provision renouncing our interest and expectancy in certain corporate opportunities.

Risks Related to Ownership of our Common Stock:

- The market price of our common stock may be significantly volatile.
- We may redeem unexpired Public Warrants and New Warrants prior to their exercise at a time that is disadvantageous to warrant holders, thereby making such warrants worthless.

- Our stockholders may experience significant dilution as a result of future equity offerings or issuances and exercise of outstanding options and warrants.
- Warrants have become exercisable for our Class A Common Stock, which has increase the number of shares eligible for future resale in the public market and may result in dilution to our stockholders.
- The Company’s management has limited experience in operating a public company.
- Failure to establish and maintain effective internal controls could have a material adverse effect on the accuracy and timing of our financial reporting in future periods.

Risks Related to the Company’s Business and Industry

In this section “we,” “us,” “our,” and other similar terms refer to MSP Recovery, Inc. d/b/a LifeWallet and its subsidiaries prior to the Business Combination and to the Company following the Business Combination.

We have a history of net losses and no substantial revenue to date, and we may not achieve recoveries, generate significant revenue, or achieve profitability. Our relatively limited operating history makes it difficult to evaluate our current business and future prospects and increases the risk of your investment.

Our relatively limited operating history makes it difficult to evaluate our current business and plan for our future growth. The Company started in 2014 with its very first assignment from a health plan in Miami, Florida. To date, we have achieved no substantial revenue and limited actual recoveries from our assigned Claims, and there is no guarantee that we will achieve recoveries, revenue, or profitability as we have projected. We have encountered and will continue to encounter significant risks and uncertainties frequently experienced by new and growing companies in rapidly changing industries, such as determining appropriate investments for our limited resources, competition from other data analytics companies, acquiring and retaining Assignors, hiring, integrating, training and retaining skilled personnel, unforeseen expenses, challenges in forecasting accuracy and successfully integrating new strategies. If we are unable to achieve actual recoveries, increase our Assignor base, successfully manage our recovery efforts from third-party payers or successfully expand, our revenue and our ability to achieve and sustain profitability would be impaired. If our assumptions regarding these and other similar risks and uncertainties, which we use to plan our business, are incorrect or change as we gain more experience operating our business or due to changes in our industry, or if we do not address these challenges successfully, our operating and financial results could differ materially from our expectations and our business could suffer.

We have a limited history of actual recoveries to date, and there are risks associated with estimating the amount of revenue that we recognize from the recovery. If our estimates of revenue are materially inaccurate, it would impact the timing and the amount of our revenue recognition and have a material adverse effect on our business, results of operations, financial condition and cash flows.

We have a limited track record of generating actual recoveries and related revenue from the Claims we have purchased or otherwise been assigned. There are risks associated with estimating the value of future recoveries and revenues that we may achieve under our assigned Claims. Our estimates and projections depend on significant assumptions and involve significant risks which could cause our actual results to vary materially.

Examples of material assumptions we make include, but are not limited to:

- Our assessment that the assigned Claims are potentially recoverable Claims;
- The achievement of multiples above the PVPRC; and
- The length (and cost) of litigation required to achieve recoveries.

Any of these assumptions may prove over time to be materially inaccurate. If our estimates of revenues are materially inaccurate, it could impact the timing and the amount of our revenue recognition and have a material adverse impact on our business, results of operations, financial condition and cash flows.

Under most of our agreements with Assignors, we assume the risk of failure to recover on the assigned Claims, and if we fail to make recoveries with respect to the assigned Claims receivables and therefore, are unable to generate recovery proceeds greater than or equal to the amounts paid by us to purchase the assigned Claims, it can adversely affect our business.

In many instances, we pay our Assignors an upfront purchase price for assignment of their healthcare Claims recoveries. Accordingly, there is a risk that we may not successfully recapture the upfront purchase price if we fail to make recoveries with respect to the assigned Claims. Further, our ability to identify and recover on future Claims includes risks such as:

- underperformance relative to our expectations and the price paid for the Claims;
- unanticipated demands on our management and operational resources;
- failure to successfully recover on legal Claims;

- difficulty in integrating personnel, operations, and systems;
- maintaining current customers and securing future customers of the combined businesses;
- assumption of liabilities; and
- litigation-related charges.

Finally, our potential ability to achieve recovery revenues are based largely on the Paid Value of Potentially Recoverable Claims of our portfolio and our ability to discover, quantify, and settle the gap between Billed Amount and Paid Amount on a large scale. If we fail to accurately calculate the Paid Amount or the Paid Value of Potential Recoverable Claims, the Recovery Multiple or our recovery rights are not appropriately perfected, these factors may have a material adverse effect on our business, results of operations, financial condition, and cash flows.

Litigation outcomes are inherently risky; unfavorable court rulings, delays, damages calculations, or other limitations can adversely affect our recovery efforts, our potential to generate revenue, and our overall business.

It is difficult to predict litigation outcomes, particularly complex litigation of the type that forms the basis of our business. If we do not succeed in the litigation, if the damages awarded in our favor are less than what we expected, or if it is not possible to successfully enforce a favorable judgment, we could suffer a variety of adverse consequences, including the complete loss of potential revenue expected from that matter and, in some jurisdictions, liability for the adverse costs of the successful party to the litigation. Unfavorable litigation outcomes could, individually or in the aggregate, have a material adverse effect on our business, revenue, results of operations, and financial condition.

Typically, we must file actions in court to recover monies related to those paid by our Assignors and a substantial amount of our recoveries are dependent on the courts. Because we rely on the courts to adjudicate recoveries, we can be subject to adverse court rulings, significant delays, damages calculations or other limitations, each of which can negatively impact our recovery efforts, potential to generate revenue, and financial condition of our business.

For example, from time to time, the courts dismiss our cases, or Claims pursued in our cases, with or without prejudice. When dismissal is without prejudice, we can refile the action. Accordingly, we retain the ability to bring those Claims in a recovery action. When dismissal is with prejudice, we cannot refile the action. Accordingly, we lose the ability to pursue such Claims. We cannot guarantee that we will not receive adverse rulings in court. Historically, we have received adverse rulings such as:

- Dismissal for failure to file within the applicable statute of limitations. For example, on August 10, 2022, the United States Court of Appeals, Eleventh Circuit held that four-year statute of limitations period for civil actions arising under an Act of Congress enacted after December 1, 1990 applies to certain claims brought under the Medicare Secondary Payer private cause of action, and that the limitations period begins to run on the date that the cause of action accrued. This opinion may render certain Claims held by the Company unrecoverable and may substantially reduce PVPRC and BVPRC as calculated. As our cases were filed at different times and in various jurisdictions, and prior to data matching with a defendant we are not able to accurately calculate the entirety of damages specific to a given defendant, we cannot calculate with certainty the impact of this ruling at this time. Although this opinion is binding only on courts in the Eleventh Circuit, if the application of this statute of limitations as determined by the Eleventh Circuit was applied to all Claims assigned to us, we estimate that the effect would be a reduction of PVPRC by approximately \$8.86 billion. As set forth in our Risk Factors, PVPRC is based on a variety of factors. As such, this estimate is subject to change based on the variety of legal claims being litigated and statute of limitations tolling theories that apply.
- Dismissal because an assignment did not include the Claim that was brought in court (or such assignment was found to be invalid).
- Dismissal for lack of standing to assert Claims.
- Dismissal for lack of personal jurisdiction.
- Dismissal for pleading deficiencies.

Additionally, in certain of our cases, our recoveries may be limited as a function of courts' damages calculations. Adverse court rulings could also occur from:

- Our assignment agreements with Assignors being deemed invalid by courts. We receive assignments of healthcare Claims from our Assignors via irrevocable assignments, which allow use to pursue those Claims that our Assignors originally owned. Enforceability of our assignment agreements is often challenged by defendants and if a court determines an assignment agreement is invalid (due to a technical deficiency or regulatory prohibition or otherwise) we will lose the ability to pursue those Claims.

- Our damages calculations include medical expenses paid by our Assignors that courts may deem unreasonable, unrelated, or unnecessary, and could lead to lower than anticipated recoveries.
- Our Claims may be subject to different interpretations of the applicable statutes of limitations.

For example, in certain antitrust matters, recoveries may be limited to the difference between the price that a drug manufacturer charged for the drug and the price of the drug absent the relevant anticompetitive action. The list above is not exhaustive of unfavorable rulings, damages calculations or other limitations which we may or have encountered.

We generate, and expect to generate, a significant portion of our revenue by collecting on settlements and/or judgments that are granted by courts in lawsuits filed against insurers, tortfeasors, and other liable parties. A decrease in the willingness of courts to grant these judgments, a change in the requirements for filing these cases or obtaining these judgments, or a decrease in our ability to collect on these judgments could have an adverse effect on our revenue, operating results, and the financial condition of our business. As we increase our use of the legal channels for collections, our short-term margins may decrease as a result of an increase in upfront court costs and costs related to counterclaims. We may not be able to collect on certain aged Claims because of applicable statutes of limitations, and we may be subject to adverse effects of regulatory changes.

Our recoveries may also be delayed due to inconsistent rulings on different cases which creates delays in our recovery efforts, or court and administrative closing resulting from the COVID-19 pandemic. We can be subject to many other unfavorable rulings, damages calculations or limitations which are not listed above. Such unfavorable rulings, damages calculations or other limitations can negatively affect our business and our recovery efforts.

Our litigation often involves complex, novel legal theories with little or no precedent on which courts can rely, which may adversely affect our ability to generate revenue and negatively impact our business.

The lawsuits we file in pursuit of recoveries often involve causes of action that are entirely novel, or novel as applied to the facts alleged in our complaints. For example, while the MSP Law was enacted in 1980, its use by an assignee to pursue recoveries on its own behalf is novel. As such, courts deciding litigated issues in our cases often have limited binding precedent on which to base an opinion, and often review our cases as a first impression. As a result, our cases may be delayed as courts require more time to analyze the legal issues, and outcomes are difficult to accurately predict.

We may employ rarely used causes of action, such as Florida's equitable pure bill of recovery. LifeWallet has brought numerous pure bill of discovery cases against medical device and drug manufacturers and insurance companies, seeking to identify the proper party defendant or the appropriate theory on which to base relief. As these cases do not seek money damages, success in these cases may lead to information that can be used to further pursue recoveries, but not money damages that can be recognized as revenue. These cases, in and of themselves, are an expense to LifeWallet, and may negatively impact our business if, for any reason, they fail to yield actionable results.

Our counterparties likewise often assert defenses that require complex, jurisdiction specific analysis. Litigation of these issues is often time consuming, delaying potential recoveries, and costly. The success of these defenses is difficult to predict and could result in partial or the entire dismissal of a given case, reducing or eliminating potential recoveries, and any associated recognition of revenue.

Our lawsuits are brought in a diverse range of judicial venues across many jurisdictions, which may result in different outcomes on similar issues, adversely affect our recovery efforts, and limit our ability to generate revenue.

Favorable opinions from state and federal appellate courts are binding only in the jurisdiction where the opinion was published. Accordingly, appellate opinions upholding our legal position may be relied on within the issuing jurisdiction but are, at most, persuasive to other courts. Appellate courts can disagree, and we may obtain an unfavorable opinion on similar issues where another appellate court ruled in our favor. As such, we may expend substantial resources pursuing appeals to establish the validity of a legal basis for recovery, which may prove unsuccessful, thus limiting our ability to generate revenue and negatively impact our business.

Counterparties in our lawsuits employ dilatory tactics that delay the resolution of litigation or settlement negotiations, which increases the costs associated with recoveries and substantially delays the outcome of our cases and any associated revenue recognition.

Our counterparties employ strategies to delay proceedings and the ultimate resolution of our cases. Dilatory tactics include, but are not limited to, frivolous court filings, extended and improper discovery objections and disputes, delayed negotiations for data matching protocols, and protracted settlement negotiations that may or may not yield a settlement. While these delays do not adversely affect the value of the underlying assets, and in some case statutory interest continues to accrue, the costs associated with recoveries increase substantially, and our ability to successfully resolve our cases may be limited. As a result, our ability to recognize revenue is delayed and our ultimate recovery may be diminished as a result.

Our fee sharing arrangement with the Law Firm materially reduces our recoveries.

We enter into legal services agreements with the Law Firm and the various entities that hold Claims. The Law Firm is engaged to act as counsel to represent MSP Recovery and each of its subsidiaries and affiliates (or other applicable entity) on a contingency basis as it pertains to the assigned Claims. The Law Firm engages outside litigation counsel from around the U.S. as co-counsel and

these arrangements are made directly between the Law Firm and other counsel. For the services provided, the Law Firm typically collects a fee equal to 40% of our 50% portion of the Net Proceeds (i.e., 20% of the total Net Proceeds), which is paid from our portion of the Net Proceeds. Co-counsel is paid from the Law Firm's portion of the Net Proceeds. The Law Firm is also entitled to attorney's fees that are awarded to the Law Firm pursuant to any fee shifting statute, by agreement, or court award. Any increase in attorneys' fees and costs would reduce our potential net recoveries. For more information about our fee sharing arrangement, see "Business —Scale of Current Portfolio" and "—Fee Sharing Arrangements."

Assignors may pursue recovery on Claims directly or may use recovery agents other than us in connection with the Assignor's efforts to recover on Claims.

With respect to the Assignors of the assigned Claims, some of our agreements exclude from the assignment of Claims those Claims that are assigned to or being pursued by other recovery vendors of the Assignor at the time of the assignment. We have identified instances where the Assignor did not filter its data provided to us to account for such exclusions. This resulted in some Claims being identified by us for purposes of our recovery estimates. This also has resulted in other recovery agents of the Assignor making collections on Claims that we previously believed were assigned to us. Although we endeavor to seek appropriate clarification from Assignors to properly identify Claims that are being pursued by other recovery vendors, due to the nature and volume of data, it may not be possible to identify with precision all such Claims. While we do not believe that there is any overlap with other recovery vendors with respect to assigned Claims to be material, there can be no assurance as to the ultimate impact on our recoveries or our business.

If lawyers who we rely on to litigate Claims and defenses do not exercise due skill and care, or the interests of their clients do not align with the interests of our Assignors, there may be a material adverse effect on the value of our assets.

We are particularly reliant on lawyers to litigate Claims and defenses with due skill and care. If they are unable or unwilling to do this for any reason, it is likely to have a material adverse effect on the value of our assets. We may have limited experience or no prior dealings with such lawyers and there can be no guarantee that the outcome of a case will be in line with our or the lawyers' assessment of the case or that such lawyers will perform with the expected skill and care.

Our business and future growth depend on our ability to successfully expand the volume of our healthcare Claims and obtain data from new Assignors and healthcare Claims from our existing Assignor base.

We expect a significant portion of our future revenue growth to come from expanding the volume of Claims we are assigned; this includes obtaining Claims and data from new Assignors as well as our existing Assignors. Our efforts to do so may not be successful. If we are unable to successfully expand the scope of healthcare Claims assigned from potential and existing Assignors, it could have a material adverse effect on our growth and on our business, financial condition, and results of operations.

The positions we will typically acquire in connection with our acquisition of Claims are unsecured and may be effectively subordinated to other obligations and are at risk to fraud on the part of the Assignor of the Claim.

The types of Claims we invest in are typically unsecured, and therefore will be subordinated to existing or future secured obligations and may be subordinated to other unsecured obligations of the parties against which we seek recoveries. The repayment of these Claims and rights is subject to significant uncertainties. The holders of other obligations may have priority over us to collect amounts due to them and therefore would be entitled to be paid in full before assets would be available for distribution to us.

Further, the possibility of material misrepresentations or omissions on the part of an Assignor, underlying beneficiary or other counterparty (e.g., some Assignors may set out to defraud investors like us). For example, an Assignor may misrepresent the quality, validity or existence of a Claim or other information provided to us. There is no assurance we will detect such fraud and any inaccuracy or incompleteness, if undetected, may adversely affect the valuation of one or more Claims and adversely affect our business and performance. Under certain circumstances, recoveries may be reclaimed if any such payment or distribution is later determined to have been a fraudulent conveyance.

Internal improvements to healthcare Claims and retail billing processes by our Assignors could reduce the need for, and revenue generated by, our solutions, which could have a material adverse effect on our business, financial condition and results of operations.

We offer solutions that help our Assignors enhance payment accuracy in an increasingly complex environment, including through our Chase to Pay platform. Over time, our work may increase compliance amongst third-party payers. If such processes continue to improve, demand for our solutions could be reduced. With enough time and investment, many of our Assignors may be able to reduce or resolve recurring payment process complexities and resulting payment inaccuracies. As the skills, experience and resources of such technology, systems and personnel improve, they may be able to identify payment inaccuracies before using our services, which would reduce the payment inaccuracies identified by our solutions and our ability to generate revenue, which could have a material adverse effect on our business, financial condition and results of operations.

Healthcare spending fluctuations, simplification of the healthcare delivery and reimbursement system, programmatic changes to the scope of benefits and limitations to payment integrity initiatives could reduce the need for our data-driven solutions, which could have a material adverse effect on our business, financial condition and results of operations.

Our solutions improve our Assignors' ability to accurately pay healthcare Claims and prevent or recover inaccurate payments, which often are a result of complexities in the healthcare Claims payment system. Although the healthcare benefit and payment systems continue to grow in complexity due to factors such as increased regulation and increased healthcare enrollment, the need for and user adoption of our solutions and/or the scope and profitability of the solutions that we provide to our Assignors could be negatively affected by, among other things:

- simplification of the U.S. healthcare delivery and reimbursement systems, either through shifts in the commercial healthcare marketplace or through legislative or regulatory changes at the federal or state level;
- reductions in the scope of private sector or government healthcare benefits (for example, decisions to eliminate coverage of certain services);
- the transition of healthcare beneficiaries from fee-for-service plans to value-based plans;
- the adoption of healthcare plans with significantly higher deductibles;
- limits placed on payment integrity initiatives, including the Medicare RAC program; and
- lower than projected growth in private health insurance or the various Medicare and Medicaid programs, including Medicare Advantage.

Any of these developments could have a material adverse effect on our business, financial condition and results of operations.

If our existing Assignors prematurely terminate their agreement with us or if either party materially breaches an agreement, and we can no longer receive future assignments of healthcare Claims recoveries, it could have a material adverse effect on our business, financial condition, and results of operations.

We expect in the future to derive a significant portion of our revenue from our existing Assignors and, accordingly, we are reliant on ongoing transfer and usage of data, and associated assignments, of Claims from existing Assignors. As a result, maintaining these relationships is critical to our future growth and our business, financial condition and results of operations. We may experience significantly more difficulty than we anticipate in maintaining our existing Assignor agreements. Factors that may affect our ability to continue providing our services under such agreements for our services and our ability to sell additional solutions include:

- the price, performance, and functionality of our solutions;
- the availability, price, performance, and functionality of competing solutions;
- our Assignors' perceived ability to review Claims accurately using their internal resources;
- our ability to develop complementary solutions;
- our continued ability to access the data necessary to enable us to effectively develop and deliver new solutions to Assignors;
- the stability and security of our platform;
- changes in healthcare laws, regulations, or trends; and
- the business environment of our Assignors.

Pursuant to the Claims recovery and assignment agreements with our Assignors, the Assignors may choose to discontinue one or more services under an existing contract, may exercise flexibilities within their contracts to adjust service volumes, and may breach or terminate the contract prior to its agreed upon completion date. A material breach by either party to the agreement may also result in the termination of receiving future Claims. Any such occurrences could reduce our revenue from these Assignors. Although a cancellation or termination of a contract does not revoke the original assignment from our Assignors in many instances because such assignment was irrevocable, termination still affects future transfers of data and future assignment of Claims. Accordingly, such cancellations or terminations can constrain our growth and result in a decrease in revenue, which could have a material adverse effect on our business, financial condition and results of operations.

If an Assignor prematurely terminates its agreement with us, we may be precluded from accessing that Assignor's data and/or be forced to destroy data in our position from that Assignor, which may substantially impair our ability to recover on that Assignor's Claims.

We enter into Claims Cost Recovery Agreements ("CCRA") and Business Associate Agreements ("BAA") with our Assignors. Pursuant to the CCRA's with our Assignors, our Assignors typically agree to provide the Company with historical claims data as well

as the most updated claims data that the Assignor's systems can provide and provide ongoing data transfers and agreed upon intervals. If, for any reason, our CCRA with an Assignor is terminated, our BAA with that Assignor requires us to return and/or destroy all Protected Health Information, which may substantially impair our ability to recover on that Assignor's Claims.

If we are unable to develop new Assignor relationships, it could have a material adverse effect on our business, financial condition, and results of operations.

As part of our strategy, we seek to develop new Assignor relationships, principally among healthcare payers and providers. Our ability to develop new relationships depends on a variety of factors, including the quality and performance of our solutions, as well as the ability to market and sell our solutions effectively and differentiate ourselves from our competitors. We may not be successful in developing new Assignor relationships. If we are unable to develop new Assignor relationships, it could have a material adverse effect on our business, financial condition, and results of operations.

In some events, we may act as a servicing agent for another party. If one of these parties terminates their agreement with us or if either party materially breaches an agreement, it could have a material adverse effect on our business, financial condition and results of operations.

Sometimes, we may provide our services as a servicing agent to third parties. These services include, but are not limited to, identifying, processing, prosecuting and recovering monies related to recoverable Claims. As a servicing agent, we will act as an independent contractor on behalf of a contracting party who owns the rights to certain recoverable Claims. If a party terminates such servicing agreement with us, or if either party is in default of any servicing agreement, it could have a material adverse effect on our business, financial condition and results of operations.

We have long sales and implementation cycles for many of our data-driven solutions and may fail to close sales after expending time and resources, or experience delays in implementing the solutions, which could have a material adverse effect on our business, financial condition and results of operations.

Potential customers generally perform a thorough evaluation of available payment accuracy solutions and require us to expend time, effort, and money educating them as to the value of our solutions prior to entering into a contract with them. We may expend significant funds and management resources during the sales cycle and ultimately fail to close the sale. Our sales cycle may be extended due to our potential customer's budgetary constraints or for other reasons. In addition, following a successful sale, the implementation of our systems frequently involves a lengthy process, as we onboard the new customer's healthcare data into our proprietary systems. If we are unsuccessful in closing sales after expending funds and management resources or if we experience delays in such sales or in implementing our solutions, it could have a material adverse effect on our business, financial condition and results of operations.

If our Assignors' risk agreements change, it can have a material adverse effect on our business, financial condition, and results of operations.

Many of our Assignors are First-Tier entities, as defined in 42 CFR § 422.2. A First-Tier entity is a party that enters into a written arrangement, acceptable to CMS, with an MAO or applicant to provide administrative services or healthcare services for a Medicare eligible individual under the Medicare Advantage program. These entities enter into risk agreements with Downstream Entities, as defined under 42 CFR § 422.2. If these agreements change or include any restrictions on the assignability of Claims, it can have a material adverse effect on our recoveries, business, financial condition, and results of operations.

Our use and disclosure of individually identifiable information, including health information, is subject to federal and state privacy and security regulations, and our failure to comply with those regulations or adequately secure the information we hold could result in significant liability or reputational harm.

State and federal laws and regulations, including HIPAA, govern the collection, dissemination, use, disclosure, creation, receipt, maintenance, transmission, privacy, confidentiality, security, availability and integrity of individually identifiable information, including protected health information ("PHI"). HIPAA establishes basic national privacy and security standards for protection of PHI by covered entities such as our Assignors, and the business associates with whom such entities contract for services, including us. As a business associate, we are also directly liable for compliance with HIPAA. In addition to HIPAA, we must adhere to state patient confidentiality and other laws that are not preempted by HIPAA, including those that are more stringent than HIPAA.

In the event of a breach of our obligations under HIPAA or other state laws, we could be subject to enforcement actions by the U.S. Department for Health and Human Services Office for Civil Rights and state regulators and lawsuits, including class action lawsuits, by private plaintiffs. Mandatory penalties for HIPAA violations can be significant and OCR and state regulators may require businesses to enter into settlement or resolution agreements and corrective action plans that impose ongoing compliance requirements. If a person knowingly or intentionally obtains or discloses PHI in violation of HIPAA requirements, criminal penalties may also be imposed. In addition, state Attorneys General are authorized to bring civil actions under HIPAA or relevant state laws. Courts can award damages, costs and attorneys' fees related to violations of HIPAA or state laws in such cases. While we maintain safeguards that we believe are reasonable and appropriate to protect the privacy and security of PHI and other personally identifiable information consistent with applicable law and our contractual obligations, we cannot provide assurance regarding how these laws, regulations,

and contracts will be interpreted, enforced or applied to our operations; our systems may be vulnerable to physical break-ins, viruses, hackers, and other potential sources of security breaches or incidents. In addition, we may not be able to prevent incidents of inappropriate use or disclosure or unauthorized access to or acquisition.

We obtain and process a large amount of sensitive data. Our systems and networks may be subject to cyber-security breaches and other disruptions that could compromise our information. Any real or perceived improper use of, disclosure of, or access to such data could harm our reputation as a trusted brand, as well as have a material adverse effect on our business, financial condition and results of operations.

We rely on information technology networks and systems to process and store electronic information. We collect and store sensitive data, including personally identifiable information of our consumers, on our information technology networks. Despite the implementation of security measures, our information technology networks and systems have been, and in the future may be, vulnerable to disruptions and shutdowns due to attacks by hackers or breaches due to malfeasance by contractors, employees and others who have access to our networks and systems. The occurrence of any of these cyber security events could compromise our networks and the information stored on our networks could be accessed. Any such access could disrupt our operations, adversely affect the willingness of sellers to sell to us or result in legal Claims, liability, reputational damage or regulatory penalties under laws protecting the privacy of personal information, any of which could adversely affect our business, financial condition and operating results.

In addition, our operations are spread across the United States and Puerto Rico and we rely heavily on technology to communicate internally and efficiently perform our services. We have implemented measures that are designed to mitigate the potential adverse effects of a disruption, relocation or change in operating environment; however, we cannot provide assurance that the situations we plan for and the amount of insurance coverage that we maintain will be adequate in any particular case. In addition, despite system redundancy and security measures, our systems and operations are vulnerable to damage or interruption from, among other sources:

- power loss, transmission cable cuts and telecommunications failures;
- damage or interruption caused by fire, earthquakes and other natural disasters;
- attacks by hackers or nefarious actors;
- human error;
- computer viruses and other malware or software defects; and
- physical break-ins, sabotage, intentional acts of vandalism, terrorist attacks and other events beyond our control.

If we encounter a business interruption, if we fail to effectively maintain our information systems, if it takes longer than we anticipate to complete required upgrades, enhancements or integrations or if our business continuity plans and business interruption insurance do not effectively compensate on a timely basis, we could suffer operational disruptions, disputes with Assignors, civil or criminal penalties, regulatory problems, increases in administrative expenses, loss of our ability to produce timely and accurate financial and other reports or other adverse consequences, any of which could have a material adverse effect on our business, financial condition and results of operations.

Because of the large amount of data that we collect and manage, it is possible that hardware failures or errors in our systems could result in data loss or corruption or cause the information that we collect to be incomplete or contain inaccuracies that our partners regard as significant. If our data were found to be inaccurate or unreliable due to fraud or other error, or if we, or any of the third-party service providers we engage, were to fail to maintain information systems and data integrity effectively, we could experience operational disruptions that may hinder our ability to provide services, establish appropriate pricing for services, retain and attract Assignors, establish reserves, report financial results timely and accurately and maintain regulatory compliance, among other things. Additionally, as Assignors maintain their own supporting documentation, data and records, it is possible that they may provide us with erroneous or inaccurate data. The occurrence of any of these events could cause our solutions to be perceived as vulnerable, cause our Assignors to lose confidence in our solutions, negatively affect our ability to attract new Assignors and cause existing Assignors to terminate or not renew our solutions. If the information is lost, improperly disclosed or threatened to be disclosed, we could incur significant liability and be subject to regulatory scrutiny and penalties. Furthermore, we could be forced to expend significant resources in response to a security breach, including investigating the cause of the breach, repairing system damage, increasing cyber-security protection costs by deploying additional personnel and protection technologies, notifying and providing credit monitoring to affected individuals, paying regulatory fines and litigating and resolving legal Claims and regulatory actions, all of which could increase our expenses and divert the attention of our management and key personnel away from our business operations.

In addition, if our own confidential business information were improperly disclosed, our business could be materially adversely affected. A core aspect of our business is the reliability and security of our technology platform. Any perceived or actual breach of security could have a significant impact on our reputation as a trusted brand, cause us to lose existing Assignors, prevent us from

obtaining new Assignors, require us to expend significant funds to remedy problems caused by breaches and to implement measures to prevent further breaches and expose us to legal risk and potential liability. Any security breach at a third-party vendor providing services to us could have similar effects. Any breach or disruption of any systems or networks on which we rely could have a material adverse effect on our business, financial condition and results of operations.

Our information technology strategy and execution are critical to our continued success. We expect to continue to invest in long-term solutions that will enable us to continue being a differentiator in the market and to protect against cybersecurity risks and threats. Our success is dependent, in large part, on maintaining the effectiveness of existing technology systems and continuing to deliver and enhance technology systems that support our business processes in a cost-efficient and resource-efficient manner. Increasing regulatory and legislative changes will place additional demands on our information technology infrastructure that could have a direct impact on resources available for other projects tied to our strategic initiatives. In addition, recent trends toward greater patient engagement in health care require new and enhanced technologies, including more sophisticated applications for mobile devices. Connectivity among technologies is becoming increasingly important. We must also develop new systems to meet current market standards and keep pace with continuing changes in information processing technology, evolving industry and regulatory standards and patient needs. Failure to do so may present compliance challenges and impede our ability to deliver services in a competitive manner. Further, because system development projects are long-term in nature, they may be more costly than expected to complete and may not deliver the expected benefits upon completion. Our failure to effectively invest in, implement improvements to and properly maintain the uninterrupted operation and data integrity of our information technology and other business systems could adversely affect our results of operations, financial position and cash flow.

If we fail to innovate and develop new solutions, or if these new solutions are not adopted by existing and potential Assignors or other users, it could have a material adverse effect on our business, financial condition and results of operations.

Our results of operations and continued growth will depend on our ability to successfully develop and market new solutions that our existing and potential Assignors or other users are willing to adopt. For example, as part of our “Chase to Pay” model, we launched LifeWallet in January 2022, a platform designed to organize and facilitate access to users’ medical records. We cannot provide assurance that our new or modified solutions will be responsive to Assignor or users preferences or industry changes, or that the product and service development initiatives we prioritize will yield the gains that we anticipate, if any.

If we are unable to predict market preferences or if our industry changes, or if we are unable to modify our solutions on a timely basis, we may lose Assignors or fail to attract new ones. If existing Assignors are not willing to adopt new solutions, or if potential Assignors or other users do not value such new solutions, it could have a material adverse effect on our business, financial condition and results of operations.

We expect to make substantial investments in and changes to our operational platforms, systems and applications to compete effectively and keep up with technological advances. We may also face difficulties in integrating any upgraded platforms into our current technology infrastructure. In addition, significant technological changes could render our existing solutions obsolete. Although we have invested, and will continue to invest, significant resources in developing and enhancing our solutions and platforms, any failure to keep up with technological advances or to integrate upgraded operational platforms and solutions into our existing technology infrastructure could have a material adverse effect on our business, financial condition and results of operations.

Certain of our activities present the potential for identity theft or similar illegal behavior by our employees or contractors with respect to third parties, which could have a material adverse effect on our business, financial condition and results of operations.

Our solutions involve the use and disclosure of personal information that in some cases could be used to impersonate third parties or otherwise improperly gain access to their data or funds.

If any of our employees or contractors take, convert, or misuse such information, or we experience a data breach creating a risk of identity theft, we could be liable for damages and our business reputation could be damaged. In addition, we could be perceived to have facilitated or participated in illegal misappropriation of documents or data and, therefore, be subject to civil or criminal liability. In addition, federal and state regulators may take the position that a data breach or misdirection of data constitutes an unfair or deceptive act or trade practice. We also may be required to notify individuals affected by any data breaches. Further, a data breach or similar incident could impact the ability of our Assignors that are creditors to comply with the federal “red flags” rules, which require the implementation of identity theft prevention programs to detect, prevent and mitigate identity theft in connection with Assignor accounts, which could be costly. If data utilized in our solutions are misappropriated for the purposes of identity theft or similar illegal behavior, it could have a material adverse effect on our reputation, business, financial condition and results of operations.

If we fail to comply with applicable privacy, security and data laws, regulations and standards, including with respect to third-party service providers that utilize sensitive personal information on our behalf, it could have a material adverse effect on our reputation, business, financial condition and results of operations.

We have Assignors throughout the United States and our solutions may contain healthcare information of patients located across all 50 states and Puerto Rico. Therefore, we may be subject to the privacy laws of each such jurisdiction, which may vary and, in some cases, can impose more restrictive requirements than federal law. Where state laws are more protective, we have to comply with the

stricter provisions. In addition to fines and penalties imposed upon violators, some of these state laws also afford private rights of action to individuals who believe their personal information has been misused. California's patient privacy laws, for example, provide for penalties of up to \$250,000 and permit injured parties to sue for damages. The interplay of federal and state laws may be subject to varying interpretations by courts and government agencies, creating complex compliance issues for us and our Assignors and potentially exposing us to additional expense, adverse publicity and liability. Further, as regulatory focus on privacy issues continues to increase and laws and regulations concerning the protection of personal information expand and become more complex, these potential risks to our business could intensify. Changes in laws or regulations associated with the enhanced protection of certain types of sensitive data, such as PHI or PII, along with increased customer demands for enhanced data security infrastructure, could greatly increase our cost of providing our services, decrease demand for our services, reduce our revenue and/or subject us to additional liabilities.

The following legal and regulatory developments also could have a material adverse effect on our business, financial condition and results of operations:

- amendment, enactment, or interpretation of laws and regulations that restrict the access and use of personal information and reduce the supply of data available to Assignors;
- changes in cultural and consumer attitudes to favor further restrictions on information collection and sharing, which may lead to regulations that prevent full utilization of our solutions;
- failure of our solutions to comply with current laws and regulations; and
- failure of our solutions to adapt to changes in the regulatory environment in an efficient, cost-effective manner.

Changes in the United States healthcare environment, or in laws relating to healthcare programs and policies, and steps we take in anticipation of such changes or a failure to comply with such laws, particularly as they relate to the Affordable Care Act and Medicare and Medicaid programs, could have a material adverse effect on our business, financial condition, and results of operations.

Approximately 93% of our expected recoveries arise from Claims being brought under the Medicare Secondary Payer Act private cause of action (Section 1862(b)(3)(A) of the Social Security Act (42 U.S.C. § 1395y(b)(3)(A))). This law allows us to pursue recoveries against primary payers for reimbursement of medical expenses that our Assignors paid for when primary payers (i.e., liability insurers) were responsible for payment. While we believe we have been successful at both the federal and state level in establishing a legal basis for our recoveries, changes to the laws on which we base our recoveries, particularly the Medicare Secondary Payer Act, can adversely affect our business.

For example, on May 16, 2023, Senators Tim Scott (R-SC) and Maggie Hassan (D-NH) and Representatives Brad Schneider (D-IL) and Gus Bilirakis (R-FL) introduced the Repair Abuses of MSP Payments Act (S.1607/H.R.3388) (the "RAMP Act") in the U.S. Senate and the U.S. House of Representatives, respectively, seeking to amend the private cause of action under the Medicare Secondary Payer Act, by striking "primary plan" and inserting "group health plan" (as defined in paragraph 42 U.S.C. § 1395y(b)(1)(A)(v)).

The Medicare Secondary Payer Act's private cause of action—a fundamental component of how the Company is able to calculate damages— incentivizes private parties, such as MSP Recovery, to pursue reimbursement of conditional payments by rewarding them with double damages. If the Medicare Secondary Payer Act is changed, or if the RAMP Act were enacted to apply retroactively, it could significantly reduce the Company's potential recoveries and have a material adverse effect on its business, financial condition, and results of operations.

The healthcare industry in the United States is subject to a multitude of changing political, economic and regulatory influences that affect every aspect of our healthcare system. The Patient Protection and Affordable Care Act, as amended by the Health Care and Education Affordability Reconciliation Act (the "Affordable Care Act"), made major changes in how healthcare is delivered and reimbursed, and generally increased access to health insurance benefits to the uninsured and underinsured population of the United States. Among other things, the Affordable Care Act increased the number of individuals with Medicaid and private insurance coverage, implemented reimbursement policies that tie payment to quality, facilitated the creation of accountable care organizations that may use capitation and other alternative payment methodologies, strengthened enforcement of fraud and abuse laws and encouraged the use of information technology. However, many of these changes require implementing regulations that have not yet been drafted or have been released only as proposed rules. In addition, there have been and continue to be a number of legislative and regulatory initiatives to contain healthcare costs, reduce federal and state government spending on healthcare products and services and limit or restrict the scope of the Medicare RAC program and other program integrity initiatives.

Future changes to the Affordable Care Act and to the Medicare and Medicaid programs and other federal or state healthcare reform measures may lower reimbursement rates, establish new payment models, increase or decrease government involvement in healthcare, decrease the Medicare RAC program and otherwise change the operating environment for us and our Assignors. If efforts to waive, modify or otherwise change the Affordable Care Act, in whole or in part, are successful, if we are unable to adapt our solutions to meet changing requirements or expand service delivery into new areas, or the demand for our solutions is reduced as a

result of healthcare organizations' reactions to changed circumstances and financial pressures, it could have a material adverse effect on our business, financial condition and results of operations.

Healthcare organizations may react to such changed circumstances and financial pressures, including those surrounding the implementation of the Affordable Care Act, by taking actions such as curtailing or deferring their retention of service providers, which could reduce the demand for our data driven solutions and, in turn, have a material adverse effect on our business, financial condition and results of operations.

A significant portion of our Claims comes from a limited number of Assignors who have relationships with key existing payers, and the loss of one or more of these Assignors or disruptions in Assignor-payer relationships could have a material adverse effect on our business, financial condition and results of operations.

We have acquired a significant portion of our Claims from and entered into agreements for new services with a limited number of large Assignors. These Assignors assign these Claims with an irrevocable assignment from the Assignor to us each with different and/or staggered terms. In addition, we also rely on our reputation and recommendations from key Assignors to promote our solutions to potential new Assignors.

Further, our ability to pursue a significant portion of our Claims depends on our arrangements pursuant to which we are granted access to health care data, which may be terminated upon the occurrence of certain events. See “- We use various data sources in our business and if we lose access to those data sources it could have a material adverse effect on our business, financial condition, and results of operations.” Accordingly, if any of these Assignors fail to renew or terminate their existing agreements with us, it could have a material adverse effect on our business, financial condition and results of operations.

Our revenues and operations are dependent upon a limited number of key existing payers and our Assignors' continued relationship with those payers, and disruptions in those relationships (including renegotiation, non-renewal or termination of capitation agreements) or the inability of such payers to maintain their contracts with the Centers for Medicare and Medicaid Services, or CMS, could adversely affect our business.

Our operations are dependent on a concentrated number of payers with whom our Assignors contract to provide services. The loss of these contracts for our Assignors could have a material adverse effect on our business, results of operations, financial condition and cash flows. The sudden loss of any of our Assignors' payer partners or the renegotiation of any of our Assignors' payer contracts could adversely affect our operating results.

Moreover, our inability to maintain agreements with our Assignors with respect to their health care Claims recovery rights and data or to negotiate favorable terms for those agreements in the future could result in the loss of revenue and could have a material adverse effect on our profitability and business.

The data healthcare analytics and healthcare payment markets are relatively new and unpenetrated, and may not develop, develop more slowly than we expect, or sustain negative publicity which may adversely affect our business.

The data healthcare analytics and healthcare payment accuracy markets are relatively new and the overall market opportunity remains relatively unpenetrated. It is uncertain whether this market will achieve and sustain high levels of demand, client acceptance and market adoption. Our success will depend to a substantial extent on the willingness of our Assignors to use, and to increase the frequency and extent of their utilization of our solutions, as well as on our ability to demonstrate the value of data-driven solutions and payment accuracy solutions to healthcare payers and government agencies. If our Assignors or other potential customers do not perceive the benefits of our data-driven solutions, then our market may not continue to develop, or it may develop more slowly than we expect. If any of these events occurs, it could have a material adverse effect on our business, financial condition and results of operations.

Negative publicity concerning the data healthcare analytics and healthcare payment accuracy industry or patient confidentiality and privacy could limit the future growth of the healthcare payment accuracy market.

Our data-driven solutions help prevent and recover improper payments made to healthcare providers. As a result, healthcare providers, insurers, third-party payers and others have criticized the healthcare payment accuracy industry and have hired lobbyists to discredit the reported success that payment accuracy solutions have had in improving the accuracy of payments. Further, negative publicity regarding patient confidentiality and privacy could limit market acceptance of our healthcare solutions. Many consumer advocates, privacy advocates and government regulators believe that the existing laws and regulations do not adequately protect privacy. They have become increasingly concerned with the use of personal information. As a result, they are lobbying for further restrictions on the dissemination or commercial use of personal information to the public and private sectors. If healthcare providers, privacy advocates and others are successful in creating negative publicity for the healthcare payment accuracy industry, government and private healthcare payers could hesitate to contract with payment accuracy providers, such as us, which could have a material adverse effect on our reputation, business, financial condition and results of operations.

We face significant competition, and we expect competition to increase.

Competition among providers of healthcare payment accuracy solutions to U.S. healthcare insurance companies is strong and we may encounter additional competition as new competitors enter this area.

Our current healthcare solutions competitors include:

- other payment accuracy vendors, including vendors focused on discrete aspects of the healthcare payment accuracy process;
- fraud, waste, and abuse Claim edit and predictive analysis companies;
- primary Claims processors;
- numerous regional utilization management companies;
- in-house payment accuracy capabilities;
- Medicare RACs; and
- Healthcare consulting firms and other third-party liability service providers.

We may not be able to compete successfully against existing or new competitors. In addition, we may be forced to increase the consideration we provide for assigned Claims or lower our pricing, or the demand for our data-driven solutions may decrease as a result of increased competition. Further, a failure to be responsive to our existing and potential Assignors' needs could hinder our ability to maintain or expand our Assignor base, hire and retain new employees, pursue new business opportunities, complete future acquisitions and operate our business effectively. Any inability to compete effectively could have a material adverse effect on our business, financial condition and results of operations.

If we are unable to protect our proprietary technology, information, processes and know-how, the value of our solutions may be diminished, which could have a material adverse effect on our business, financial condition and results of operations.

We rely significantly on proprietary technology, information, processes and know-how that are not subject to patent or copyright protection. We seek to protect this information through trade secret or confidentiality agreements with our employees, consultants, subcontractors or other parties, as well as through other security measures. These agreements and security measures may be inadequate to deter misappropriation of intellectual property and may be insufficient to protect our proprietary information. Misappropriation of our intellectual property by third parties, or any disclosure or dissemination of our business intelligence, queries, Algorithms and other similar information by any means, could undermine competitive advantages we currently derive or may derive therefrom. Any of these situations could result in our expending significant time and incurring expense to enforce our intellectual property rights. Although we have taken measures to protect our proprietary rights, others may compete with our business by offering solutions or services that are substantially similar to ours. If the protection of our proprietary rights is inadequate to prevent unauthorized use or appropriation by third parties or our employees, the value of our solutions, brand and other intangible assets may be diminished and competitors may be able to more effectively offer solutions that have the same or similar functionality as our solutions, which could have a material adverse effect on our business, financial condition and results of operations.

Our success depends on our ability to protect our intellectual property rights.

Our success depends in part on our ability to protect our proprietary software, confidential information and know-how, technology and other intellectual property and intellectual property rights. To do so, we rely generally on copyright, trademark and trade secret laws, confidentiality and invention assignment agreements with employees and third parties, and license and other agreements with consultants, vendors and Assignors. There can be no assurance that employees, consultants, vendors and Assignors have executed such agreements or have not breached or will not breach their agreements with us, that we will have adequate remedies for any breach, or that our trade secrets will not otherwise become known or independently developed by competitors. Additionally, we monitor our use of open-source software to avoid uses that would require us to disclose our proprietary source code or violate applicable open source licenses, but if we engaged in such uses inadvertently, we could be required to take remedial action or release certain of our proprietary source code. These scenarios could have a material adverse effect on our business, financial condition and results of operations. In addition, despite the protections we place on our intellectual property, a third party could, without authorization, copy or otherwise obtain and use our products or technology, or develop similar technology. In addition, agreement terms that address non-competition are difficult to enforce in many jurisdictions and might not be enforceable in certain cases.

As we begin to pursue patents, we might not be able to obtain meaningful patent protection for our technology. In addition, if any patents are issued in the future, they might not provide us with any competitive advantages or might be successfully challenged by third parties.

We rely on unpatented proprietary technology. It is possible that others will independently develop the same or similar technology or otherwise obtain access to our unpatented technology. To protect our trade secrets and other proprietary information, we require employees, consultants, advisors and collaborators to enter into confidentiality agreements. We cannot assure you that these

agreements will provide meaningful protection for our trade secrets, know-how, or other proprietary information in the event of any unauthorized use, misappropriation, or disclosure of such trade secrets, know-how, or other proprietary information. Further, the theft or unauthorized use or publication of our trade secrets and other confidential business information could reduce the differentiation of our services and harm our business, and the value of our investment in development or business acquisitions could be reduced and third parties might make claims against us related to losses of their confidential or proprietary information.

We rely on our trademarks, service marks, trade names and brand names to distinguish our services from the services of our competitors and have registered or applied to register many of these trademarks. We cannot assure you that our trademark applications will be approved. Third parties may also oppose our trademark applications or otherwise challenge our use of the trademarks. In the event that our trademarks are successfully challenged, we could be forced to rebrand our services, which could result in loss of brand recognition and could require us to devote resources advertising and marketing new brands. Further, we cannot assure you that competitors will not infringe our trademarks or that we will have adequate resources to enforce our trademarks. Additionally, if we expand our focus to the international payment accuracy market, there is no guarantee that our trademarks, service marks, trade names and brand names will be adequately protected.

Our ability to obtain, protect, and enforce our intellectual property rights is subject to uncertainty as to the scope of protection, registrability, patentability, validity and enforceability of our intellectual property rights in each applicable jurisdiction, as well as the risk of general litigation or third-party oppositions.

Existing U.S. federal and state intellectual property laws offer only limited protection. Moreover, if we expand our business into markets outside of the United States, our intellectual property rights may not receive the same degree of protection as they would in the United States because of the differences in foreign trademark and other laws concerning proprietary rights. Governments may adopt regulations, and government agencies or courts may render decisions, requiring compulsory licensing of intellectual property rights. When we seek to enforce our intellectual property rights, we may be subject to claims that the intellectual property rights are invalid or unenforceable. Litigation may be necessary in the future to enforce our intellectual property rights and to protect our trade secrets. Litigation brought to protect and enforce our intellectual property rights could be costly, time consuming and distracting to management and could result in the impairment or loss of portions of our intellectual property rights. Furthermore, our efforts to enforce our intellectual property rights may be met with defenses, counterclaims and countersuits attacking the validity and enforceability of our intellectual property rights. Our inability to protect our proprietary technology against unauthorized copying or use, as well as any costly litigation or diversion of our management's attention and resources, could delay further sales or the implementation of our solutions, impair the functionality of our solutions, delay introductions of new solutions, result in our substituting inferior or more costly technologies into our solutions, or have a material adverse effect on our business, financial condition and results of operations.

Our qui tam litigation may be subject to Government Intervention and Dismissal pursuant to 31 U.S.C. § 3730(c)(2)(A).

We file qui tam ("whistleblower") actions on behalf of the United States government ("Federal Government") under the False Claims Act, 31 U.S.C. § 3729 et seq. These actions give the Federal Government the opportunity to intervene and participate in the action. The False Claims Act authorizes the Attorney General to dismiss a qui tam action over the relator's objection. The action can be dismissed if the Federal Government determines their best interests are not served with the litigation. This can be the case if the litigation does not advance their interests, preserve their limited resources or avoid adverse precedent.

The Federal Government may dismiss an action notwithstanding the objections of the relator if the relator has received notice from the Federal Government and the person is afforded an opportunity to be heard on the Federal Government's motion to dismiss. Courts have stated that the Federal Government has an "unfettered" right to dismiss a qui tam action. *Swift v. United States*, 318 F.3d 250, 252 (D.C. Cir. 2003). Federal Government intervention as well as dismissal pursuant to 31 U.S.C. § 3730(c)(2)(A), can negatively affect our business and our recovery efforts.

We are subject to extensive government regulation. Any violation of the laws and regulations applicable to us or a negative audit or investigation finding could have a material adverse effect on our business.

Much of our business is regulated by the Federal Government and the states in which we operate. The laws and regulations governing our operations generally are intended to benefit and protect individual citizens, including government program beneficiaries, health plan members and providers, rather than stockholders. The government agencies administering these laws and regulations have broad latitude to enforce them. These laws and regulations regulate how we do business, what services we offer and how we interact with our Assignors, providers, other healthcare payers and the public. Increased involvement by us in analytic or audit work that can have an impact on the eligibility of individuals for medical coverage or specific benefits could increase the likelihood and incidence of us being subjected to scrutiny or legal actions by parties other than our Assignors, based on alleged mistakes or deficiencies in our work, with significant resulting costs and strain on our resources.

In addition, because we may receive payments from federal and state governmental agencies, we may become subject to various laws, including the Federal False Claims Act and similar state statutes, which permit government law enforcement agencies to institute suits against us for violations and, in some cases, to seek double or treble damages, penalties and assessments. In addition, private

citizens, acting as whistleblowers, can sue on behalf of the Federal Government under the “qui tam” provisions of the Federal False Claims Act and similar statutory provisions in many states.

The expansion of our operations into new products and services may further expose us to requirements and potential liabilities under additional statutes and legislative schemes that previously have not been relevant to our business, such as banking statutes, that may both increase demands on our resources for compliance activities and subject us to potential penalties for noncompliance with statutory and regulatory standards.

If the government discovers improper or illegal activities in the course of audits or investigations, we may be subject to various civil and criminal penalties and administrative sanctions, which may include termination of contracts, forfeiture of profits, suspension of payments, fines and suspensions and debarment from doing business with the government. Such risks, particularly under the Federal False Claims Act and similar state fraud statutes, have increased in recent years due to legislative changes that have (among other amendments) expanded the definition of a false claim to include, potentially, any unreimbursed overpayment received from, or other monetary debt owed to, a government agency. If we are found to be in violation of any applicable law or regulation, or if we receive an adverse review, audit or investigation, any resulting negative publicity, penalties or sanctions could have an adverse effect on our reputation in the industry, impair our ability to compete for new contracts and have a material adverse effect on our business, financial condition and results of operations.

We are also subject to laws, regulations and rules enacted by national, regional and local governments and Nasdaq. In particular, we are required to comply with certain SEC, Nasdaq and other legal or regulatory requirements. Compliance with, and monitoring of, applicable laws, regulations and rules may be difficult, time-consuming and costly. Those laws, regulations or rules and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws, regulations or rules, as interpreted and applied, could have a material adverse effect on our business and results of operations.

Our business depends on effective information processing systems that are compliant with current HIPAA transaction and code set standards and the integrity of the data in, and operations of, our information systems, as well as those of other entities that provide us with data or receive data from us.

Our ability to conduct our operations and accurately report our financial results depends on the integrity of the data in our information systems and the integrity of the processes performed by those systems. These information systems and applications require continual maintenance, upgrading and enhancement to meet our operational needs, satisfy Assignor requests and handle and enable our expansion and growth. Despite our testing and quality control measures, we cannot be certain that errors or system deficiencies will not be found, and that remediation can be done in a timeframe that is acceptable to our Assignors or that Assignor relationships will not be impaired by the occurrence of errors or the need for remediation. In addition, implementation of upgrades and enhancements may cost more, take longer or require more testing than originally expected. Given the large amount of data we collect and manage, it is possible that hardware failures, errors or technical deficiencies in our systems could result in data loss or corruption or cause the information that we collect, utilize or disseminate to be incomplete or contain inaccuracies that our Assignors regard as significant.

Moreover, because we submit high volumes of monetary Claims to third parties, the efficiency and effectiveness of our own operations are to some degree dependent on the Claims processing systems of these third parties and their compliance with any new transaction and code set standards. Since October 1, 2015, health plans, commercial payers and healthcare providers have been required to transition to the new ICD-10 coding system, which greatly expands the number and detail of diagnosis codes used for inpatient, outpatient and physician Claims. The transition to the new transaction and code set standard is expensive, time-consuming and may initially result in disruptions or delays as we and other stakeholders make necessary system adjustments to be fully compliant and capable of exchanging data.

In addition, we may experience delays in processing Claims and therefore earning our fees if the third parties with whom we work are not in full compliance with these new standards in the required timeframe. Claims processing systems failures, incapacities or deficiencies internal to these third parties could significantly delay or obstruct our ability to recover money, and thereby interfere with our performance and our ability to generate revenue in the timeframe we anticipate, which in turn could have a material adverse effect on our business, financial condition and results of operations.

In the event we fail to maintain our Security Organization Control 2, HITRUST or other certifications, we could be in breach of our obligations under our contracts; fines and other penalties could result, we may suffer reputational harm, and our business could be damaged, limiting our ability to generate revenue.

In addition to government regulations and securities laws, we are subject to self-regulatory standards and industry certifications that may legally or contractually apply to us. These include Security Organization Control 2 (“SOC 2”), with which we are currently compliant. In the event we fail to maintain our SOC 2 compliance or fail to receive recertification from HITRUST, we could be in breach of our obligations under Assignor and other contracts, fines, and other penalties could result, and we may suffer reputational harm and damage to our business. Further, our Assignors may expect us to comply with more stringent privacy and data security

requirements than those imposed by laws, regulations, or self-regulatory requirements, and we may be obligated contractually to comply with additional or different standards relating to our handling or protection of data.

Any failure or perceived failure by us to comply with federal or state laws or regulations, industry standards or other legal obligations, or any actual or suspected privacy or security incident, whether or not resulting in unauthorized access to, or acquisition, release or transfer of personally identifiable information ("PII") or other data, may result in governmental enforcement actions and prosecutions, private litigation, fines and penalties or adverse publicity and could cause our Assignors to lose trust in us, which could have an adverse effect on our reputation and business. We may be unable to make such changes and modifications in a commercially reasonable manner or at all, and our ability to pursue recoveries could be limited. Any of these developments could harm our business, financial condition and results of operations. Privacy and data security concerns, whether valid or invalid, may inhibit retention of our systems by existing Assignors or onboarding onto or, in the case of our Chase to Pay services, adoption of our systems by new Assignors. For more information on Chase to Pay services, please see the section entitled "Business - Chase to Pay."

Costs associated with, and our ability to obtain and maintain adequate insurance, could adversely affect our profitability and financial condition.

We hold a number of insurance policies, including directors' and officers' liability insurance, business interruption insurance, property insurance and workers' compensation insurance. If the costs of maintaining adequate insurance coverage should increase significantly in the future, our operating results could be materially adversely affected. Likewise, if any of our current insurance coverage should become unavailable to us or become economically impractical, we would be required to operate our business without indemnity from commercial insurance providers. Similarly, if we exhaust our current insurance coverage for any given policy period, we would be required to operate our business without indemnity from commercial insurance providers for any Claims made that are attributable to that policy period.

Our services could become subject to new, revised or enhanced regulatory requirements in the future, which could result in increased costs, could delay or prevent our introduction of new solutions, or could impair the function or value of our existing solutions, which could have a material adverse effect on our business, financial condition and results of operations.

The healthcare industry is highly regulated at the federal, state and local levels, and is subject to changing legislative, regulatory, political and other influences. As has been the trend in recent years, it is reasonable to assume that there will continue to be increased government oversight and regulation of the healthcare industry in the future. Changes to existing laws and regulations, or the enactment of new federal and state laws and regulations affecting the healthcare industry, could create unexpected liabilities for us, could cause us or our Assignors to incur additional costs and could restrict our or our Assignors' operations. Many healthcare laws are complex, subject to frequent change and dependent on interpretation and enforcement decisions from government agencies with broad discretion. We cannot assure our stockholders as to the ultimate content, timing or effect of any new healthcare legislation or regulations, nor is it possible at this time to estimate the impact of potential new legislation or regulations on our business. In addition, federal and state legislatures periodically have considered programs to reform or amend the U.S. healthcare system at both the federal and state level, such as the enactment of the Affordable Care Act. It is possible that the changes to the Medicare, Medicaid or other governmental healthcare program reimbursements may serve as precedent to possible changes in other payers' reimbursement policies in a manner adverse to us. Similarly, changes in private payer reimbursements could lead to adverse changes in Medicare, Medicaid and other governmental healthcare programs, which could have a material adverse effect on our business, financial condition and results of operations. Our failure to anticipate accurately the application of these laws and similar or future laws and regulations, or our failure to comply with them, could create liability for us, result in adverse publicity and have a material adverse effect on our business, financial condition and results of operations.

While we believe that we have structured our agreements and operations in material compliance with applicable healthcare laws and regulations, there can be no assurance that we will be able to successfully address changes in the current regulatory environment. We believe that our business operations materially comply with applicable healthcare laws and regulations. However, some of the healthcare laws and regulations applicable to us are subject to limited or evolving interpretations, and a review of our business or operations by a court, law enforcement, or a regulatory authority might result in a determination that could have a material adverse effect on us. Furthermore, the healthcare laws and regulations applicable to us may be amended or interpreted in a manner that could have a material adverse effect on our business, prospects, results of operations and financial condition.

Our services may become subject to new or enhanced regulatory requirements and we may be required to change or adapt our services in order to comply with these regulations. If we fail to successfully implement a new regulatory framework, it could adversely affect our ability to offer services deemed critical by our Assignors, which could have a material adverse effect on our business, financial condition and results of operations. New or enhanced regulatory requirements may render our solutions obsolete or prevent us from performing certain services. Further, new or enhanced regulatory requirements could impose additional costs on us, thereby making existing solutions unprofitable, and could make the introduction of new solutions more costly or time consuming than we anticipate, which could have a material adverse effect on our business, financial condition and results of operations.

Failing to accurately estimate our contract pricing may have a material adverse effect on our business.

Our Assignor contracts are generally recovery-based. We receive a fee for such contracts based on the monies identified and ultimately recovered. Our ability to earn a profit on a performance-based agreement requires that we accurately estimate the costs involved and outcomes likely to be achieved and assess the probability of completing multiple tasks and transactions within the contracted time period.

We derive a relatively small portion of our revenue on a “fee-for-service” basis whereby billing is based upon a flat fee or a fee per hour. To earn a profit on these contracts, we must accurately estimate costs involved and assess the probability of achieving certain milestones within the contracted time period. If we do not accurately estimate the costs and timing for completing projects, or if we encounter increased or unexpected costs, delays, failures, liabilities, or risks, including those outside of our control, our contracts could prove unprofitable for us or yield lower profit margins than anticipated. Although we believe that we have recorded adequate provisions in our financial statements for losses on our fee-for-service contracts where applicable, as required under GAAP, we cannot provide assurance that our contract provisions will be adequate to cover all actual future losses. The inability to accurately estimate the factors upon which we base our contract pricing could have a material adverse effect on business, financial condition and results of operations.

If we fail to cost-effectively develop widespread brand awareness and maintain our reputation, or if we fail to achieve and maintain market acceptance, our business could suffer.

We believe that maintaining and enhancing our reputation and brand recognition is critical to our relationships with our Assignors and ability to attract new Assignors. The promotion of our brand may require us to make substantial investments and we anticipate that, as our market becomes increasingly competitive, these marketing initiatives may become increasingly difficult and expensive. Our marketing activities may not be successful or yield increased revenue and to the extent that these activities yield increased revenue, the increased revenue may not offset the expenses we incur and our results of operations could be harmed. In addition, any factor that diminishes our reputation or that of our management, including failing to meet expectations, or any adverse publicity or litigation involving or surrounding us, could make it substantially more difficult for us to attract new Assignors. In addition, negative publicity resulting from any adverse government audit could injure our reputation. If we do not successfully maintain and enhance our reputation and brand recognition, our business may not grow and we could lose our relationships with Assignors, which would harm our business, results of operations and financial condition.

The registered or unregistered trademarks or trade names that we own or license may be challenged, infringed, circumvented, declared generic, lapsed or determined to be infringing on or dilutive of other marks. We may not be able to protect our rights in these trademarks and trade names, which we need in order to build name recognition with Assignors, payers and other partners. In addition, third parties may in the future file for registration of trademarks similar or identical to our trademarks. If they succeed in registering or developing common law rights in such trademarks, and if we are not successful in challenging such third-party rights, we may not be able to use these trademarks to promote our business in certain relevant jurisdictions. If we are unable to establish name recognition based on our trademarks and trade names, we may not be able to compete effectively and our brand recognition, reputation and results of operations may be adversely affected.

Our ability to execute on business plans, maintain high levels of service, or adequately address competitive challenges will be negatively impacted if we fail to properly manage our growth, which could have a material adverse effect on our business, financial condition and results of operations.

In recent years, our size and the scope of our business operations have expanded rapidly, and we expect that we will continue to grow and expand into new areas within the healthcare industry; however, such growth and expansion has resulted in nominal revenue to date and carries costs and risks that, if not properly managed, could have a material adverse effect on our business, financial condition and results of operations. To effectively manage our business plans, we must continue to improve our operations, while remaining competitive. We must also be flexible and responsive to our Assignors’ needs and to changes in the political, economic and regulatory environment in which we operate. The greater size and complexity of our expanding business puts additional strain on our administrative, operational and financial resources and makes the determination of optimal resource allocation more difficult. A failure to anticipate or properly address the demands that our growth and diversification may have on our resources and existing infrastructure may result in unanticipated costs and inefficiencies and could adversely impact our ability to execute on our business plans and growth goals, which could have a material adverse effect on our business, financial condition and results of operations.

We may require significant capital expenditures and the allocation of valuable management resources to grow and change in these areas. We must effectively increase our headcount and continue to effectively train and manage our employees. We will need to continue to hire, train and manage additional qualified information technology, operations and marketing staff, and improve and maintain our technology and information systems to properly manage our growth. If our new hires perform poorly, or if we are unsuccessful in hiring, training, managing and integrating these new employees, or if we are not successful in retaining our existing employees, our business may be adversely affected. We will be unable to manage our business effectively if we are unable to alleviate the strain on resources caused by growth in a timely and successful manner. If we fail to effectively manage our anticipated growth and change, the quality of our services may suffer, which could negatively affect our brand and reputation and harm our ability to attract and retain Assignors and employees.

We have encountered and will continue to encounter risks and difficulties frequently experienced by growing companies in rapidly changing industries, including increasing expenses as we continue to grow our business. We expect our operating expenses to increase significantly over the next several years as we continue to hire additional personnel, expand our operations and infrastructure, and continue to expand to reach more Assignors. In addition to the expected costs to grow our business, we also expect to incur additional legal, accounting, investor relations and other expenses as a newly public company. These investments may be more costly than we expect, and if we do not achieve the benefits anticipated from these investments, or if the realization of these benefits is delayed, they may not result in increased revenue or growth in our business. If our growth rate were to decline significantly or become negative, it could adversely affect our financial condition and results of operations. If we are not able to achieve or maintain positive cash flow in the long term, we may require additional financing, which may not be available on favorable terms or at all and/or which could be dilutive to our stockholders. Our failure to achieve or maintain profitability could negatively impact the value of our common stock.

We may require additional financing to fund our operations or growth. The failure to secure additional financing on acceptable terms and conditions or at all could have a material adverse effect on our continued development or growth. Our access to, and the availability of, financing will be impacted by many factors, including, but not limited to, our financial performance, our credit ratings, our then current level of indebtedness, the liquidity of the overall capital markets and the state of the U.S. and global economy. None of our officers, directors or stockholders will be obligated to provide any financing to us.

We may not be able to obtain additional capital to continue the development of our business.

There can be no assurance that our future proposed operations and Claims recovery will be implemented successfully or that we will ever have profits. If we are unable to successfully recover on Claims and continue pursuing recoveries, holders of our common stock may lose their entire investment. We face all of the risks inherent in a new business and a new public company, including the expenses, difficulties, complications and delays frequently encountered in connection with conducting operations, including the need for significant additional capital requirements and management's potential underestimation of initial and ongoing costs. In evaluating our business and future prospects, these difficulties should be considered. If we are not effective in addressing these risks, we would not be able to implement our business strategy and our results of operations would be adversely affected. To date, the Company's sources of liquidity to fund working capital have been through funds from servicing agreements, member contributions and investments from other third parties. Our ability to obtain necessary financing may be impaired by factors such as the health of and access to capital markets, our limited track record, or a future doubt about our ability to continue as a going concern.

Failure to properly manage our growth or obtain additional financing to fund growth could negatively impact our business.

In order to implement our business plan and achieve and favorable results, we expect to expand our business operations and hire additional sales and support personnel. We may not have sufficient resources to do so. If we hire additional personnel and invest in additional infrastructure, we may not be effective in expanding our operations and our systems, procedures or controls may not be adequate to support any such expansion. Failure to properly manage our growth could have a material adverse effect on our business and our operating results. Failure to obtain financing, or obtain financing on favorable terms, could have a material adverse effect on future operating prospects, could require us to significantly reduce operations, and could result in a decrease in our stock price.

We may make acquisitions of businesses or Claim recovery interests that prove unsuccessful, and any mergers, acquisitions, dispositions or joint venture activities may change our business and financial results and introduce new risks.

From time to time, we may make acquisitions of, or otherwise invest in, other companies that could complement our business, including the acquisition of entities in diverse geographic regions and entities offering greater access to businesses and markets that we do not currently serve. The acquisitions we make may be unprofitable or may take some time to achieve profitability. In addition, we may not successfully operate the businesses that we acquire, or may not successfully integrate these businesses with our own, which may result in our inability to maintain our goals, objectives, standards, controls, policies, culture, or profitability. Through acquisitions, we may enter markets in which we have limited or no experience. Any acquisition may result in a potentially dilutive issuance of equity securities, and the incurrence of additional debt which could reduce our profitability. We also pursue dispositions and joint ventures from time to time. Any such transactions could change our business lines, geographic reach, financial results or capital structure. Our company could be larger or smaller after any such transactions and may have a different investment profile.

We may also invest in certain Claim recovery interests, as well as assignor interests in Claims with the intent to expand our portfolio of recoverable Claims and add to our potential revenue streams by selling these Claims at a higher rate than that paid by the Company. These purchases may prove unprofitable or may take some time to achieve profitability. These purchases may also adversely affect our liquidity and cash positions if we use our cash in order to purchase new Claims, or if we finance such purchase with debt that we are ultimately not able to repay. If we do not realize the anticipated benefits of any such acquisition, it would have a material effect on our business, financial condition and results of operations.

We have a substantial amount of indebtedness and payment obligations, and together with any future indebtedness or payment obligations, could adversely affect our ability to operate our business.

We have substantial amounts of indebtedness and payment obligations and we may incur substantial additional indebtedness or payment obligations in order to finance acquisitions of additional Claims assets or otherwise in connection with financing our operations, and such increased leverage could adversely affect our business.

For example, on March 29, 2023, we entered into a membership interest purchase agreement with Hazel Holdings I LLC (together with its affiliates, "Hazel"), which was funded partially by a purchase money loan between Hazel, as lender, and the Company, as borrower, in the amount of \$250 million, which has increased our indebtedness and obligation to pay interest, and an Amended and Restated Credit Agreement with affiliates of Hazel with respect to an aggregate \$80 million loan credit facility, which has also increased our indebtedness and obligations to pay interest. In addition, pursuant to the Master Transaction Agreement, dated March 9, 2022 (as amended, the "Virage MTA"), we have payment obligations to Virage in the amount of \$825.0 million as of March 31, 2023.

The terms of any of our existing or future indebtedness or payment obligations may restrict or otherwise negatively impact our ability to grow and manage our business. In addition, we may not have the ability to refinance or pay such amounts when due if we do not begin generating revenue. The amount of our indebtedness and payment obligations could limit our ability to obtain further financing and limit our ability to pursue our operational and strategic goals and opportunities, and adversely affect our liquidity position if the Claims we purchase do not generate proceeds at the rate we expect, if at all. The increased leverage, potential lack of access to financing and increased expenses could have a material adverse effect on our financial condition, results of operations and cash flows.

Failure to obtain or maintain ongoing financing to fund operations would negatively impact our business.

On March 29, 2023, the Company entered into an Amended and Restated Credit Agreement with affiliates of Hazel, as the lender and administrative agent with respect to an aggregate \$80 million term loan credit facility consisting of a Term Loan A commitment to fund up to \$30 million (in multiple installments) in proceeds and a Term Loan B commitment to fund up to \$18 million (in multiple installments) in proceeds, in each case, after taking into account an original issue discount (collectively, the "Working Capital Credit Facility"). This Working Capital Credit Facility, our continued source of funding for operations, is contingent on compliance with certain covenants, which we may not meet. If we fail to meet comply with these covenants, continued funding may cease, substantially impairing our ability to continue our operations, including the pursuit of recoveries. On May 11, 2023 and June 13, 2023, Hazel notified us that it would not disburse additional funds under the Working Capital Credit Facility until the Company satisfies certain funding conditions, including the filing of this Annual Report on Form 10-K. The parties subsequently agreed that \$5.5 million will be funded under Term Loan A in accordance with the terms of the Working Capital Credit Facility subsequent to the filing of this 2022 Form 10-K and receipt of funding notices, deeming funding conditions satisfied or waived. Following such funding, the Term Loan A commitment would be terminated, with total funding of \$20.5 million. In addition, the parties agreed to increase the Term Loan B commitment from \$18 million to \$27.5 million, which will be funded in multiple installments and in accordance with the terms of the Working Capital Credit Facility. A failure to obtain or maintain financing to fund operations would require us to significantly reduce operations and would have a material adverse effect on future operating prospects.

Adverse judgments or settlements in litigation, regulatory or other dispute resolution proceedings could have a material adverse effect on our business, financial condition and results of operations.

We are currently party to, and may in the future become party to, lawsuits and other claims against us that arise from time to time in the ordinary course of our business. These may include lawsuits and claims related to, for example, contracts, subcontracts, protection of confidential information or trade secrets, wage and benefits, employment of our workforce or compliance with any of a wide array of state and federal statutes, rules and regulations that pertain to different aspects of our business. We also may be required to initiate expensive litigation or other proceedings to protect our business interests. In addition, because of the payments we may receive from potential future government Assignors, we may become subject to unexpected inquiries, investigations, legal actions or enforcement proceedings pursuant to the False Claims Act, healthcare fraud, waste and abuse laws or similar legislation. Any investigations, settlements or adverse judgments stemming from such legal disputes or other claims may result in significant monetary damages or injunctive relief against us, as well as reputational injury that could adversely affect us. In addition, litigation and other legal claims are subject to inherent uncertainties and management's view of currently pending legal matters may change in the future. Those uncertainties include, but are not limited to, costs of litigation, unpredictable judicial or jury decisions and the differing laws and judicial proclivities regarding damage awards among the states in which we operate. Unexpected outcomes in such legal proceedings, or changes in management's evaluation or predictions of the likely outcomes of such proceedings (possibly resulting in changes in established reserves) could have a material adverse effect on our business, financial condition and results of operations.

If we are unable to successfully identify and recover on future Claims, our results of operations could be adversely affected.

As a part of our business plan, we have acquired the right to pursue recoveries and we intend to continue to pursue acquiring additional Claims to support our business strategy. These recoveries can involve a number of risks and challenges, any of which could cause significant operating inefficiencies and adversely affect our growth and profitability. Such risks and challenges include:

- underperformance relative to our expectations and the price paid for the Claims;
- unanticipated demands on our management and operational resources;
- failure to successfully recover on legal Claims;
- difficulty in integrating personnel, operations, and systems;
- maintaining current customers and securing future customers of the combined businesses;
- assumption of liabilities; and
- litigation-related charges.

The profits of Claims may take considerable time to recover and certain recoveries may fall short of expected returns. If our recoveries are not successful, we may record impairment charges. Our ability to grow our capital will depend upon our success at identifying and recovering legal Claims, which requires substantial judgment in assessing their values, strengths, weaknesses, liabilities, and potential profitability, as well as the availability of capital.

If we fail to accurately calculate the Paid Amount and Paid Value of Potential Recoverable Claims, it can have a material adverse effect on our business, results of operations, financial condition, and cash flows.

Typically, we identify recoverable Claims using our proprietary Algorithms which comb through historical paid Claims data and search for potential recoveries. Our potential ability to achieve recovery revenues are based largely on the Paid Value of Potentially Recoverable Claims of our portfolio and our ability to discover, quantify and settle the gap between Billed Amount and Paid Amount on a large scale. If we fail to accurately calculate the Paid Amount or the Paid Value of Potential Recoverable Claims, the Recovery Multiple or the recovery rights we are entitled to may not be appropriately captured, which may have a material adverse effect on our business, results of operations, financial condition and cash flows.

Failure of our software vendors, utility providers and network providers to perform as expected, changes in our relationships with them, or losing access to data sources may adversely affect our business.

Our ability to service our Assignors and deliver and implement solutions requires that we work with certain third-party providers, including software vendors, utility providers and network providers, and depends on such third parties meeting our expectations in both timeliness and quality. We might incur significant additional liabilities if the services provided by these third parties do not meet our expectations, if they terminate or refuse to renew their relationships with us or if they were to offer their services to us on less advantageous terms, which could have a material adverse effect on our business, financial condition and results of operations. In addition, while there are backup systems in many of our operating facilities, an extended outage of utility or network services supplied by these vendors or providers could impair our ability to deliver our solutions, which could have a material adverse effect on our business, financial condition and results of operations.

Our ability to service our Assignors and deliver and implement solutions requires that we use several data sources when identifying recoveries. If we were to lose access to those data sources, including as a result of any termination of our data access arrangements, it could have a material adverse effect on our business, financial condition and results of operations.

We may be sued by third parties for alleged infringement of their proprietary rights.

Our success depends also in part on us not infringing the intellectual property rights of others. Our competitors, as well as a number of other entities and individuals, may own or claim to own intellectual property relating to our industry. In the future, such third parties may claim that we are infringing their intellectual property rights, and we may be found to be infringing such rights. Any claims or litigation could cause us to incur significant expenses and, if successfully asserted against us, could require that we pay substantial damages or ongoing royalty payments, prevent us from offering our services, or require that we comply with other unfavorable terms. Even if we were to prevail in such a dispute, any litigation could be costly and time-consuming and divert the attention of our management and key personnel from our business operations.

Changes in, or interpretations of, tax rules and regulations may adversely affect our effective tax rates.

We have operations throughout the United States and in Puerto Rico. Accordingly, we are subject to taxation in many jurisdictions with increasingly complex tax laws, the application of which can be uncertain.

Unanticipated changes in our tax rates could affect our future financial condition and results of operations. Our future effective tax rates could be unfavorably affected by changes in the tax rates in jurisdictions where our income is earned and taxed, by changes in, or our interpretation of, tax rules and regulations in the jurisdictions in which we do business, by increases in expenses not

deductible for tax purposes including impairments of goodwill, by changes in GAAP or other applicable accounting standards or by changes in the valuation of our deferred tax assets and liabilities.

In addition, we are subject to the continual examination of our income tax returns by the U.S. Internal Revenue Service ("IRS") and other domestic and international tax authorities. Tax authorities in various jurisdictions may disagree with and subsequently challenge the amount of profits taxed in their state or country, which may result in increased tax liability, including accrued interest and penalties, which would cause our tax expense to increase. There can be no assurance that the final determination of any of these examinations will not have a material adverse effect on our financial condition and results of operations.

We will be required to pay the Tax Receivable Agreement ("TRA") Parties (as defined in the TRA) for most of the benefits relating to, among other things, an increase in tax attributes as a result of the Company's direct and indirect allocable share of existing tax basis acquired in the Business Combination, and the Company's increase in its allocable share of existing tax basis and anticipated tax basis adjustments we receive in connection with sales or exchanges of Up-C Units after the Business Combination.

In connection with the Business Combination, we entered into a TRA with the TRA Parties (as defined in the TRA) that provides for the payment by the Company to such TRA Parties of 85% of the benefits, if any, that the Company is deemed to realize (calculated using certain assumptions) as a result of: (i) the Company's direct and indirect allocable share of existing tax basis acquired in the Business Combination, (ii) increases in the Company's allocable share of existing tax basis and tax basis adjustments that will increase the tax basis of the tangible and intangible assets of Opco as a result of the Business Combination and as a result of sales or exchanges of Up-C Units for cash or shares of the Company's Class A common stock, and (iii) certain other tax benefits related to entering into the TRA, including tax benefits attributable to payments under the TRA. These increases in existing tax basis and tax basis adjustments generated over time may reduce the amount of tax that the Company would otherwise be required to pay in the future, although the IRS may challenge all or part of the validity of that tax basis, and a court could sustain such a challenge. Actual tax benefits realized by the Company may differ from tax benefits calculated under the TRA as a result of the use of certain assumptions in the TRA, including the use of an assumed weighted-average state and local income tax rate to calculate tax benefits. The payment obligation under the TRA is an obligation of the Company and not of Opco. While the amount of existing tax basis, the anticipated tax basis adjustments and the actual amount and utilization of tax attributes, as well as the amount and timing of any payments under the TRA, will vary depending upon a number of factors, including the timing of exchanges of Up-C Units for shares of the Company common stock, the applicable tax rate, the price of shares of the Company's Class A common stock at the time of exchanges, the extent to which such exchanges are taxable and the amount and timing of our income, we expect that as a result of the size of the transfers and increases in the tax basis of the tangible and intangible assets of Opco and our possible utilization of tax attributes, including existing tax basis acquired at the time of the Business Combination, the payments that the Company may make under the TRA will be substantial. The payments under the TRA are not conditioned on the exchanging holders of Opco Units or other TRA Parties continuing to hold ownership interests in us. To the extent payments are due to the TRA Parties under the TRA, the payments are generally required to be made within five business days after the tax benefit schedule (which sets forth the Company's realized tax benefits covered by the TRA for the relevant taxable year) is finalized. The Company is required to deliver such a tax benefit schedule to the TRA Parties' Representative (as defined in the TRA), for its review, within ninety calendar days after the due date (including extensions) of the Company's federal corporate income tax return for the relevant taxable year.

Payments under the TRA may be accelerated and/or significantly exceed the actual tax benefits the Company realizes under the TRA and such accelerations may impair our ability to consummate change of control transactions.

The Company's payment obligations under the TRA will be accelerated in the event of certain changes of control or its election to terminate the TRA early. The accelerated payments will relate to all relevant tax attributes then allocable to the Company in the case of an acceleration upon a change of control and to all relevant tax attributes allocable or that would be allocable to the Company (in the case of an election by the Company to terminate the TRA early, assuming all Up-C Units were then exchanged). The accelerated payments required in such circumstances will be calculated by reference to the present value (at a specified discount rate determined by reference to LIBOR) of all future payments that holders of Up-C Units or other recipients would have been entitled to receive under the TRA, and such accelerated payments and any other future payments under the TRA will utilize certain valuation assumptions, including that the Company will have sufficient taxable income to fully utilize the deductions arising from the increased tax deductions and tax basis and other benefits related to entering into the TRA. In addition, recipients of payments under the TRA will not reimburse us for any payments previously made under the TRA if such tax basis and the Company's utilization of certain tax attributes is successfully challenged by the IRS (although any such detriment would be taken into account in future payments under the TRA). The Company's ability to achieve benefits from any existing tax basis, tax basis adjustments or other tax attributes, and the payments to be made under the TRA, will depend upon a number of factors, including the timing and amount of our future income. As a result, even in the absence of a change of control or an election to terminate the TRA, payments under the TRA could be in excess of 85% of the Company's actual cash tax benefits.

Accordingly, it is possible that the actual cash tax benefits realized by the Company may be significantly less than the corresponding TRA payments or that payments under the TRA may be made years in advance of the actual realization, if any, of the anticipated future tax benefits. There may be a material negative effect on our liquidity if the payments under the TRA exceed the actual cash tax benefits that the Company realizes in respect of the tax attributes subject to the TRA and/or distributions to the Company by Opco are not sufficient to permit the Company to make payments under the TRA after it has paid taxes and other

expenses. We may need to incur additional indebtedness to finance payments under the TRA to the extent our cash resources are insufficient to meet our obligations under the TRA as a result of timing discrepancies or otherwise, and these obligations could have the effect of delaying, deferring or preventing certain mergers, asset sales, other forms of business combinations or other changes of control.

The acceleration of payments under the Tax Receivable Agreement in the case of certain changes of control may impair our ability to consummate change of control transactions or negatively impact the value of our Company common stock.

In the case of a “Change of Control” under the TRA (which is defined to include, among other things, a 50% change in control of the Company, the approval of a complete plan of liquidation or dissolution of the Company, or the disposition of all or substantially all of the Company’s direct or indirect assets), payments under the TRA will be accelerated and may significantly exceed the actual benefits the Company realizes in respect of the tax attributes subject to the TRA. We expect that the payments that we may make under the TRA (the calculation of which is described in the immediately preceding risk factor) in the event of a change of control will be substantial. As a result, our accelerated payment obligations and/or the assumptions adopted under the TRA in the case of a change of control may impair our ability to consummate change of control transactions or negatively impact the value received by owners of our Company common stock in a change of control transaction.

Our success is dependent upon the efforts of our key personnel. The loss of key personnel could negatively impact the operations and profitability of the Company and its financial condition could suffer as a result.

It is possible that we will lose some key personnel, the loss of which could negatively impact the operations and profitability of the Company. We anticipate that some or all of the management of the Company will remain in place.

The Company’s success depends to a significant degree upon the continued contributions of senior management, certain of whom would be difficult to replace. Departure by certain of the Company’s officers could have a material adverse effect on the Company’s business, financial condition or operating results. The Company does not maintain key-man life insurance on any of its officers. The services of such personnel may not continue to be available to the Company.

Our business is dependent on our ability to attract and retain qualified employees.

Our ability to operate our business and provide our solutions is dependent on our ability to recruit, employ, train and retain the skilled personnel who have relevant experience in the healthcare and data analytics industries as well as information technology professionals who can design, implement, operate and maintain complex information technology systems. For example, certain of our employees in our company must either have or rapidly develop a significant amount of technical knowledge with regard to medical insurance coding and procedures. In addition, certain of our retrospective data-driven solutions rely on a team of trained registered nurses or medical coding professionals to review medical information and provide feedback with respect to the medical appropriateness of care provided. Innovative, experienced and technologically proficient professionals, qualified nurses and experienced medical coding professionals are in great demand and are likely to remain a limited resource. Our ability to recruit and retain such individuals depends on a number of factors, including the competitive demands for employees having, or able to rapidly develop, the specialized skills we need and the level and structure of compensation required to hire and retain such employees. We may not be able to recruit or retain the personnel necessary to efficiently operate and support our business. Even if our recruitment and retention strategies are successful, our labor costs may increase significantly. In addition, our internal training programs may not be successful in providing inexperienced personnel with the specialized skills required to perform their duties. If we are unable to hire, train and retain sufficient personnel with the requisite skills without significantly increasing our labor costs, it could have a material adverse effect on our business, financial condition and results of operations.

General economic, political and market forces and dislocations beyond our control could reduce demand for our solutions and our overall business, may suffer from an economic downturn.

The demand for our data-driven solutions may be impacted by factors that are beyond our control, including macroeconomic, political and market conditions, the availability of short-term and long-term funding and capital, the level and volatility of interest rates, currency exchange rates and inflation. The United States economy recently experienced periods of contraction and both the future domestic and global economic environments may continue to be less favorable than those of prior years. Any one or more of these factors may contribute to reduced activity and prices in the securities markets generally and could result in a reduction in demand for our solutions, which could have a material adverse effect on our business, results of operations and financial condition.

COVID-19 or another pandemic, epidemic, or outbreak of an infectious disease may have an adverse effect on our business, the nature and extent of which are highly uncertain and unpredictable.

The severity, magnitude and duration of the ongoing COVID-19 pandemic is uncertain and rapidly changing. As of the date of this Form 10-K, the extent to which the COVID-19 pandemic may impact our business, results of operations and financial condition remains uncertain. Furthermore, because of our business model, the full impact of the COVID-19 pandemic may not be fully reflected in our results of operations and overall financial condition until future periods.

We are concentrated in certain geographic regions, which makes us sensitive to regulatory, economic, environmental and competitive conditions in those regions.

Due to the concentration of our operations in Florida, our business may be adversely affected by economic conditions that disproportionately affect Florida as compared to other states. In addition, our exposure to many of the risks described herein are not mitigated by a diversification of geographic focus.

Moreover, regions in and around the southeastern United States commonly experience hurricanes and other extreme weather conditions. As a result, our offices, especially those in Florida and Puerto Rico, are susceptible to physical damage and business interruption from an active hurricane season or a single severe storm. Moreover, global climate change could increase the intensity of individual hurricanes or the number of hurricanes that occur each year. Even if our facilities are not directly damaged, we may experience considerable disruptions in our operations due to property damage or electrical outages experienced in storm-affected areas by our employees. Additionally, long-term adverse weather conditions, whether caused by global climate change or otherwise, could cause an outmigration of people from the communities where our offices are located. If any of the circumstances described above occurred, there could be a harmful effect on our business and our results of operations could be adversely affected.

We depend on our senior management team and other key employees, and the loss of one or more of these employees or an inability to attract and retain other highly skilled employees could harm our business.

Our success depends largely upon the continued services of our senior management team and other key employees. We rely on our leadership team in the areas of operations, information technology and security, marketing, compliance and general and administrative functions. From time to time, there may be changes in our executive management team resulting from the hiring or departure of executives, which could disrupt our business. The loss (including as a result of a COVID-19 infection) of one or more of the members of our senior management team, or other key employees, could harm our business. In particular, the loss of the services of our founder and Chief Executive Officer, John H. Ruiz, could significantly delay or prevent the achievement of our strategic objectives. Changes in our executive management team may also cause disruptions in, and harm to, our business.

Our overall business results may suffer from an economic downturn.

During periods of high unemployment, governmental entities often experience budget deficits as a result of increased costs and lower than expected tax collections. These budget deficits affect federal, state and local government entities and may result in reductions in spending for health and human service programs, including Medicare, Medicaid and similar programs, which represent significant payer sources for our Assignors.

Risks Related to Our Securities

In this section, “we,” “us,” “our,” and other similar terms refer to MSP Recovery, Inc. d/b/a LifeWallet and its subsidiaries prior to the Business Combination and to the Company following the Business Combination.

We are controlled by the Members, including John H. Ruiz and Frank C. Quesada, whose interests may conflict with our interests and the interests of other stockholders. Further, our status as a “controlled company” on Nasdaq removes certain corporate governance protections.

The Members (or their designees) hold all of our issued and outstanding Class V Common Stock, which control approximately 97.7% of the combined voting power of our common stock, and John H. Ruiz and Frank C. Quesada, as a group, control approximately 97.8% of the combined voting power of our common stock. They effectively have the ability to determine all corporate actions requiring stockholder approval, including the election and removal of directors, any amendment to our certificate of incorporation or bylaws, or the approval of any merger or other significant corporate transaction, including a sale of substantially all of our assets. This could have the effect of delaying or preventing a change in control or otherwise discouraging a potential acquirer from attempting to obtain control of the Company, which could cause the market price of our Class A Common Stock to decline or prevent stockholders from realizing a premium over the market price for Class A Common Stock. The Members’ interests may conflict with our interests as a company or the interests of our other stockholders.

Our stockholders will experience substantial dilution as a consequence of, among other transactions, any future issuances of common stock.

The Company currently has an aggregate of 3,084,305 Public Warrants outstanding and no Private Warrants outstanding, which have become exercisable as of 10 days after closing of the Business Combination, on a cashless basis with an exercise price of \$0.0001.

In addition, there are outstanding or designated Up-C Units that may be exchanged for 3,106,616,119 shares of Common Stock.

In addition, the Company will have the ability to issue up to 98,736,750 shares of Class A Common Stock pursuant to awards under the Incentive Plan. The shares of Class A Common Stock reserved for future issuance under the Incentive Plan will become eligible for sale in the public market once those shares are issued, subject to provisions relating to various vesting agreements, lock-up agreements and, in some cases, limitations on volume and manner of sale applicable to affiliates under Rule 144, as applicable. The aggregate number of shares that may be issued pursuant to awards under the Incentive Plan will be subject to an annual increase on

January 1 of each calendar year (commencing with January 1, 2023 and ending on and including January 1, 2031) equal to the lesser of (i) a number of shares equal to 3% of the total number of shares actually issued and outstanding on the last day of the preceding fiscal year or (ii) a number of shares as determined by the Board. The Company filed one or more registration statements on Form S-8 under the Securities Act to register shares of Class A Common Stock or securities convertible into or exchangeable for shares of Class A Common Stock issued pursuant to the Incentive Plan. Any such Form S-8 registration statements will automatically become effective upon filing. Accordingly, shares registered under such registration statements will be available for sale in the open market.

Depending upon market liquidity at the time, sales of shares of our Class A Common Stock under the Yorkville Purchase Agreement may cause the trading price of our Class A Common Stock to decline. After Yorkville has acquired shares under the Yorkville Purchase Agreement, it may sell all, some or none of those shares. Sales to Yorkville by us pursuant to the Yorkville Purchase Agreement may result in substantial dilution to the interests of other holders of our Class A Common Stock. The sale of a substantial number of shares of our Class A Common Stock to Yorkville, or anticipation of such sales, could make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise wish to effect sales. However, we have the right to control the timing and amount of any sales of our shares to Yorkville, and the Yorkville Purchase Agreement may be terminated by us at any time at our discretion without penalty.

The sale of substantial amounts of shares of our Common Stock or warrants, or the perception that such sales could occur, could cause the prevailing market price of shares of our Common Stock and warrants to decline significantly. These sales, or the possibility that these sales may occur, also might make it more difficult for us to sell equity securities in the future at a time and at a price that we deem appropriate. We believe the likelihood that warrant holders will exercise their warrants is dependent upon the market price of our Common Stock.

We qualify as a “controlled company” within the meaning of the Nasdaq listing standards and, as a result, our stockholders may not have certain corporate governance protections that are available to stockholders of companies that are not controlled companies.

So long as more than 50% of the voting power for the election of directors is held by an individual, a group or another company, we will qualify as a “controlled company” under the Nasdaq listing requirements. Mr. Ruiz controls more than a majority of the voting power of our outstanding capital stock. As a result, we qualify as a “controlled company” under the Nasdaq listing standards and will not be subject to the requirements that would otherwise require us to have: (i) a majority of “independent directors,” as defined under the listing standards of Nasdaq; (ii) a nominating and corporate governance committee comprised solely of independent directors; and (iii) a compensation committee comprised solely of independent directors. In addition, the Members, including John H. Ruiz and Frank C. Quesada have the ability to control matters requiring stockholder approval, including the election and removal of directors, any amendment to our certificate of incorporation or bylaws, or the approval of any merger or other significant corporate transaction, including a sale of substantially all of our assets. See “We are controlled by the Members, including John H. Ruiz and Frank C. Quesada, whose interests may conflict with our interests and the interests of other stockholders.”

The Members, including John H. Ruiz and Frank C. Quesada (together, the “MSP Principals”), may have their interest in us diluted due to future equity issuances, repurchases under the LLC Agreement from the MSP Principals in connection with the exercise of New Warrants or Members or their designees selling shares of Class A Common Stock, in each case, which could result in a loss of the “controlled company” exemption under the Nasdaq listing rules. We would then be required to comply with those provisions of the Nasdaq listing requirements.

There can be no assurance that we will be able to comply with the continued listing standards of Nasdaq.

Our Class A Common Stock, Public Warrants and New Warrants are currently listed on Nasdaq. If Nasdaq delists our Class A Common Stock, Public Warrants or New Warrants from trading on its exchange for failure to meet the listing standards, we and our stockholders could face significant material adverse consequences including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that the Class A Common Stock is a “penny stock” which will require brokers trading in the Class A Common Stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as “covered securities.” To the extent our Class A Common Stock, Public Warrants and New Warrants are listed on Nasdaq, they are covered securities. Although the states are preempted from regulating the sale of our securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case.

Failure to meet the continued listing requirements of Nasdaq could result in the delisting of our common stock, thus negatively impacting the price value of our common stock and negatively impacting our ability to raise additional capital.

On April 18, 2023, we received a notification letter from the Listing Qualifications Department of the Nasdaq Stock Market LLC (“Nasdaq”) stating the Company was not in compliance with the requirements of Nasdaq Listing Rule 5250(c)(1) (the “Reporting Rule”) as a result of not having timely filed this Annual Report on Form 10-K (the “2022 Form 10-K”) with the SEC. In addition, on May 18, 2023, we received a written notice from Nasdaq stating that the Company was not in compliance with Nasdaq’s continued listing requirements under the Reporting Rule as a result our failure to file our Quarterly Report on Form 10-Q for the quarter ended March 31, 2023 in a timely manner (the “First Quarter Form 10-Q”). Under the Nasdaq rules, the Company had 60 calendar days, or until June 20, 2023, to file the 2022 Form 10-K and First Quarter Form 10-Q or to submit to Nasdaq a plan to regain compliance with the Nasdaq Listing Rules.

On April 24, 2023, we received notice from Nasdaq that the closing bid price for our common stock had been below \$1.00 per share for the previous 30 consecutive business days, and that we are therefore not in compliance with the minimum bid price requirement for continued inclusion on Nasdaq under Nasdaq Listing Rule 5450(a)(1) (the “Minimum Bid Requirement”). The notice indicates that we will have 180 calendar days, or until October 23, 2023, to regain compliance with this requirement. We can regain compliance with the \$1.00 minimum bid listing requirement if the closing bid price of our common stock is at least \$1.00 per share for a minimum of 10 consecutive business days during the 180-day compliance period. If we do not regain compliance during such 180-day compliance period, the Company may be eligible for an additional 180 calendar days, provided that the Company meets the continued listing requirement for market value of publicly held shares and all other applicable initial listing standards for Nasdaq, and provides a written notice of its intention to cure this deficiency during the second compliance period, including by effecting a reverse stock split, if necessary.

On June 20, 2023, the Company submitted a plan of compliance to achieve and sustain compliance with all Nasdaq Capital Market listing requirements, including the Reporting Rule and Minimum Bid Requirement. On July 7, Nasdaq notified the Company that it was granting an extension to file the 2022 Form 10-K and the First Quarter Form 10-Q on or before August 7, 2023. The Company intends file its First Quarter Form 10-Q on or before such date, and to actively monitor its bid price.

If we fail to achieve our plan of compliance or in the future we fail to comply with Nasdaq’s continued listing requirements, including the Reporting Rule and Minimum Bid Requirement, our common stock will be subject to delisting. In the event we receive notice that our common stock is being delisted, Nasdaq rules permit us to appeal any delisting determination by the Nasdaq staff to a Hearings Panel. If our common stock were to be delisted by Nasdaq, our common stock would be subject to rules that impose additional sales practice requirements on broker-dealers who sell our securities. The additional burdens imposed upon broker-dealers by these requirements could discourage broker-dealers from effecting transactions in our common stock. This would adversely affect the ability of investors to trade our common stock and would adversely affect the value of our common stock. These factors could contribute to lower prices and larger spreads in the bid and ask prices for our common stock. The delisting of our common stock from Nasdaq would also adversely affect our ability to complete future financings.

If our shares are delisted from Nasdaq and become subject to the penny stock rules, it would become more difficult to trade our shares.

The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than \$5.00, other than securities registered on certain national securities exchanges or authorized for quotation on certain automated quotation systems, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system. If we do retain a listing on Nasdaq and if the price of our common stock is less than \$5.00, our Common Stock will be deemed a penny stock. The penny stock rules require a broker-dealer, before a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document containing specified information. In addition, the penny stock rules require that before effecting any transaction in a penny stock not otherwise exempt from those rules, a broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive: (i) the purchaser’s written acknowledgment of the receipt of a risk disclosure statement; (ii) a written agreement to transactions involving penny stocks; and (iii) a signed and dated copy of a written suitability statement. These disclosure requirements may have the effect of reducing the trading activity in the secondary market for our common stock, and therefore stockholders may have difficulty selling their shares.

We may be required to take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and our stock price, which could cause you to lose some or all of your investment.

Although due diligence was conducted on MSP prior to the Business Combination, we cannot assure you that this diligence surfaced all material issues that may be present in MSP’s business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of MSP’s business and outside of our and MSP’s control will not later arise. As a result of these factors, we may be forced to write down or write off assets, restructure operations, or incur impairment or other charges that could result in losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may

be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about the Company or its securities. Accordingly, any of our stockholders could suffer a reduction in the value of their shares. Such stockholders are unlikely to have a remedy for such reduction in value.

Unanticipated changes in effective tax rates or adverse outcomes resulting from examination of our income or other tax returns could adversely affect our financial condition and results of operations.

We will be subject to federal and state income taxes in the United States and potentially in other jurisdictions. Our future effective tax rates could be subject to volatility or adversely affected by a number of factors, including:

- changes in the valuation of our deferred tax assets and liabilities;
- expected timing and amount of the release of any tax valuation allowances;
- tax effects of stock-based compensation;
- changes in tax laws, regulations, or interpretations thereof; or
- lower than anticipated future earnings in jurisdictions where we have lower statutory tax rates and higher than anticipated future earnings in jurisdictions where we have higher statutory tax rates.

In addition, we may be subject to audits of our income, sales and other transaction taxes by taxing authorities. Outcomes from these audits could have an adverse effect on our financial condition and results of operations.

We may be unable to obtain additional financing to fund the operations and growth of the Company.

We may require additional financing to fund the operations or growth of the Company. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the Company. None of our officers, directors or stockholders is required to provide any financing to us.

In some jurisdictions, our recoveries may be limited due to legal restrictions, which may have negative consequences for the value or enforcement of our contractual agreements with our counterparties, for our ability to do business in certain jurisdictions or for our cost of doing business.

There exist in various jurisdictions prohibitions or restrictions in connection with purchasing Claims from plaintiffs (known as maintenance, and a form of maintenance, called champerty), assignment of certain kinds of Claims, and/or participating in a lawyer's contingent fee interests. Such prohibitions and restrictions, to the extent they exist, are governed by the rules and regulations of each state and jurisdiction in the United States and vary in degrees of strength and enforcement in different states and federal jurisdictions. Some jurisdictions in the U.S. and other jurisdictions may not, for legal and professional ethics reasons, permit us to pursue certain recoveries, or the law and regulations in those jurisdictions may be uncertain, and accordingly we may not have the ability or the desire to pursue recoveries in these jurisdictions, thereby limiting the size of the potential market. If we, our counterparties or the lawyers handling the underlying matters were to be found to have violated the relevant prohibitions or restrictions in connection with certain matters, there could be a materially adverse effect on the value of the affected assets, our ability to enforce the relevant contractual agreements with our counterparties and the amounts we would be able to recover with respect to such matters, or our costs for such matters.

Anti-takeover provisions contained in our Charter and bylaws, as well as provisions of Delaware law, could impair a takeover attempt.

Our Second Amended and Restated Certificate of Incorporation (our "Charter") contains provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together, these provisions may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities. These provisions include:

- no cumulative voting in the election of directors, which limits the ability of minority stockholders to elect candidates to serve as a director of the Board;
- a classified board of directors with three-year staggered terms, which could delay the ability of stockholders to change the membership of a majority of the Board;
- the requirement that, at any time from and after the date on which the voting power of John H. Ruiz and his affiliates represent less than 50% of the voting power of all of the then outstanding shares entitled to vote ("Voting Rights Threshold Date"), directors elected by the stockholders generally entitled to vote may be removed from the Board solely for cause and only by affirmative vote of the holders of at least 66 2/3% of the voting power of the then outstanding shares entitled to vote, voting together as a single class;

- the exclusive right of the Board to fill newly created directorships and vacancies with respect to directors elected by the stockholders generally entitled to vote, which prevents stockholders from being able to fill vacancies on the Board;
- the prohibition on stockholder action by written consent from and after the Voting Rights Threshold Date, which forces stockholder action from and after the Voting Rights Threshold Date to be taken at an annual or special meeting of stockholders;
- the requirement that special meetings of stockholders may only be called by the Chairperson of the Board, the Chief Executive Officer of the Company or the Board, which may delay the ability of our stockholders to force consideration of a proposal or to take action, including the removal of directors;
- the requirement that, from and after the Voting Rights Threshold Date, amendments to certain provisions of the Charter and amendments to the Amended and Restated Bylaws must be approved by the affirmative vote of the holders of at least 66 2/3% in voting power of the then outstanding shares of the Company generally entitled to vote;
- our authorized but unissued shares of common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans; the existence of authorized but unissued and unreserved shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise;
- advance notice procedures set forth in the Amended and Restated Bylaws that stockholders must comply with in order to nominate candidates to the Board or to propose other matters to be acted upon at a meeting of stockholders, which may discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of the Company;
- an exclusive forum provision which provides that, unless the Company consents in writing to the selection of an alternative forum, (i) any derivative action brought on behalf of the Company, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer, or employee of the Company to the Company or the Company's stockholders, (iii) any action asserting a claim; and
- arising pursuant to any provision of the DGCL, the Charter or the Amended and Restated Bylaws, or (iv) any action asserting a claim governed by the internal affairs doctrine of the State of Delaware, in each case, will be required to be filed in the Court of Chancery of the State of Delaware (or, if the Court of Chancery of the State of Delaware lacks jurisdiction over any such action or proceeding, then a state court located within the State of Delaware or the federal district court for the District of Delaware).

The Charter contains a provision renouncing our interest and expectancy in certain corporate opportunities.

The Charter provides that the Company will have no interests or expectancy in, or being offered an opportunity to participate in any corporate opportunity, to the fullest extent permitted by applicable law, with respect to any lines of business or business activity or business venture conducted by any holder of common stock, any affiliate of such holder or any director, officer or stockholder of such holder or any affiliate thereof ("Relevant Persons") as of the date of the filing of the Charter with the Secretary of State of the State of Delaware or received by, presented to or originated by the Relevant Persons after the date of the filing of the Charter with the Secretary of State of the State of Delaware in such person's capacity as a Relevant Person (and not in his, her or its capacity as a director, officer or employee of the Company). These provisions of the Charter create the possibility that a corporate opportunity of ours may be used for the benefit of the Relevant Persons.

Risks Related to Ownership of Our Common Stock

In this section, unless otherwise noted or the context otherwise requires, "we," "us," and "our" refer to the Company.

The market price of our common stock may be significantly volatile.

The market price for our common stock may be significantly volatile and subject to wide fluctuations in response to factors including the following:

- actual or anticipated fluctuations in our quarterly or annual operating results;
- changes in financial or operational estimates or projections;
- conditions in markets generally;
- changes in legislation that may affect our business;
- changes in the economic performance or market valuations of companies similar to ours; and
- general economic or political conditions in the United States or elsewhere.

In addition, if we fail to reach an important recovery milestone or result by a publicly expected deadline, even if by only a small margin, there could be significant impact on the market price of our common stock. Additionally, as we approach the announcement of anticipated significant information and as we announce such information, we expect the price of our common stock to be particularly volatile, and negative results would have a substantial negative impact on the price of our common stock.

In some cases, following periods of volatility in the market price of a company's securities, stockholders have often instituted class action securities litigation against those companies. Such litigation, if instituted, could result in substantial costs and diversion of management attention and resources, which could significantly harm our business operations and reputation.

A market for our securities may not continue, which would adversely affect the liquidity and price of our securities.

The price of our securities may fluctuate significantly due to the market's reaction to the Business Combination and general market and economic conditions. An active trading market for our securities may never develop or, if developed, it may not be sustained. In addition, the price of our securities can vary due to general economic conditions and forecasts, our general business condition and the release of our financial reports. Additionally, if our securities are not listed on, or become delisted from, Nasdaq for any reason, and are quoted on the OTC Bulletin Board, an inter-dealer automated quotation system for equity securities that is not a national securities exchange, the liquidity and price of our securities may be more limited than if we were quoted or listed on Nasdaq or another national securities exchange. You may be unable to sell your securities unless a market can be established or sustained.

If the Business Combination's benefits do not meet the expectations of investors, stockholders, or financial analysts, the market price of our securities may decline.

If the benefits of the Business Combination do not meet the expectations of investors or securities analysts, the market price of the Company's securities may decline.

The trading price of our common stock is highly volatile and is subject to wide fluctuations in response to various factors, some of which are beyond our control, including limited trading volume. In addition to the factors discussed in this "Risk Factors" section and elsewhere in this annual report, these factors include:

- the valuation ascribed to MSP and the Company's Class A Common Stock in the Business Combination may not be indicative of the price of the Company that will prevail in the current trading market,
- research and reports that industry or securities analysts may publish about us, our business, our market, or our competitors,
- our dual class structure could make us ineligible for inclusion in certain indices, and as a result, mutual funds, exchange-traded funds and other investment vehicles that attempt to passively track those indices will not be investing in our stock,
- our status as an "emerging growth company" allows us exemptions from certain reporting requirements including: (i) the exemption from the auditor attestation requirements with respect to internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act of 2002 ("SOX"); (ii) the exemptions from say-on-pay, say-on-frequency and say-on-golden parachute voting requirements; (iii) reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements; and (iv) delayed adoption of certain accounting standards. The attractiveness of our Class A Common Stock as a result of these exemptions cannot be predicted.

In such circumstances, the trading price of our securities may not recover and may experience a further decline.

If securities analysts publish negative evaluations of our stock or stop publishing research or reports about our business, the price of our stock could decline.

The trading market for our common stock relies in part on the research and reports that industry or financial analysts publish about us or our business. We currently have limited research coverage by financial analysts. Securities analysts may discontinue coverage or downgrade their evaluation of our stock. If any of the analysts who continue to cover or cover us in the future downgrade their evaluation of our common stock or publishes inaccurate or unfavorable research about our business, our common stock price may decline. If additional analysts cease to cover our stock, we could lose visibility in the market for our stock, which in turn could cause our stock price to decline.

We cannot predict the impact our dual class capital structure may have on the market price of the shares of Class A Common Stock.

We cannot predict whether our dual class structure, combined with the concentrated control of the Company, will result in a lower or more volatile market price of the Class A Common Stock or in adverse publicity or other adverse consequences. For example, certain index providers have announced restrictions on including companies with multiple-class share structures in certain of their indices. Under any such announced policies or future policies, our dual class capital structure could make us ineligible for inclusion in certain indices, and as a result, mutual funds, exchange-traded funds and other investment vehicles that attempt to passively track those indices will not be investing in our stock. It is unclear what effect, if any, these policies will have on the

valuations of publicly traded companies excluded from such indices, but it is possible that they may depress valuations as compared to similar companies that are included. As a result, the market price of shares of Class A Common Stock could be adversely affected.

We may amend the terms of the Public Warrants in a manner that may be adverse to holders with the approval by the holders of at least 50% of the then-outstanding Public Warrants. As a result, the exercise price of a holder's Public Warrants could be increased, the exercise period could be shortened and the number of shares of our Common Stock purchasable upon exercise of a Public Warrant could be decreased, all without the approval of that warrant holder.

Our Public Warrants were issued in registered form under the Existing Warrant Agreement. The Existing Warrant Agreement provides that the terms of the Public Warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision or provide for the delivery of Alternative Issuance (as defined in the Existing Warrant Agreement) but requires the approval by the holders of at least 65% of the then-outstanding Public Warrants to make any other change, including any change that adversely affects the interests of the registered holders. Accordingly, we may amend the terms of the Public Warrants in a manner adverse to a holder if holders of at least 65% of the then-outstanding Public Warrants approve of such amendment. Although our ability to amend the terms of the Public Warrants with the consent of at least 65% of the then-outstanding Public Warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the Public Warrants, shorten the exercise period or decrease the number of shares of Class A Common Stock purchasable upon exercise of a Public Warrant.

We may redeem unexpired Public Warrants and New Warrants prior to their exercise at a time that is disadvantageous to warrant holders, thereby making such warrants worthless.

We have the ability to redeem outstanding Public Warrants and New Warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant; provided that the last reported sales price of our Class A Common Stock equals or exceeds \$18.00 per share (or as otherwise adjusted pursuant to the Existing Warrant Agreement or New Warrant Agreement, as applicable) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date on which we give proper notice of such redemption to the warrant holders and provided certain other conditions are met. During the most recent 60-day trading period, the price of our Class A Common Stock has remained below the threshold that would allow us to redeem the Public Warrants and New Warrants. If and when the Public Warrants and New Warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. Redemption of the outstanding Public Warrants and New Warrants could force the warrant holders: (i) to exercise their Public Warrants or New Warrants and pay the exercise price therefor at a time when it may be disadvantageous for them to do so; (ii) to sell their Public Warrants or New Warrants at the then-current market price when they might otherwise wish to hold their Public Warrants or New Warrants; or (iii) to accept the nominal redemption price which, at the time the outstanding New Warrants are called for redemption, is likely to be substantially less than the market value of their New Warrants. None of the Private Warrants will be redeemable by us so long as they are held by their initial purchasers or such initial purchasers' permitted transferees. Pursuant to the terms of the Existing Warrant Agreement, the exercise price of the Public Warrants and Private Warrants has decreased to \$0.0001 after giving effect to the issuance of the New Warrants. None of the Private Warrants will be redeemable by us so long as they are held by the Sponsor or its permitted transferees.

The Company has no obligation to notify holders of the Public Warrants or the New Warrants that they have become eligible for redemption. However, in the event the Company determined to redeem the Public Warrants or the New Warrants, holders of the Public Warrants and the New Warrants, as applicable, would be notified of such redemption as described in the Existing Warrant Agreement and the New Warrant Agreement, as applicable. Specifically, in the event that the Company elects to redeem all of the redeemable warrants as described above, the Company shall fix a date for the redemption (the "Redemption Date"). Notice of redemption shall be mailed by first class mail, postage prepaid, by the Company not less than 30 days prior to the Redemption Date to the registered holders of the redeemable warrants to be redeemed at their last addresses as they appear on the registration books. Any notice mailed in the manner provided in the Existing Warrant Agreement and the New Warrant Agreement shall be conclusively presumed to have been duly given whether or not the registered holder received such notice. In addition, beneficial owners of the redeemable warrants will be notified of such redemption via the Company's posting of the redemption notice to DTC.

Our stockholders may experience significant dilution as a result of future equity offerings or issuances and exercise of outstanding options and warrants.

In order to raise additional capital or pursue strategic transactions, we may in the future offer, issue or sell additional shares of our common stock or other securities convertible into or exchangeable for our common stock, including the issuance of common stock in relation to our Incentive Plan. Our stockholders may experience significant dilution as a result of future equity offerings, issuances, or the exercising of warrants. Investors purchasing shares or other securities in the future could have rights superior to existing stockholders. As of December 31, 2022, we have the following number of securities convertible into, or allowing the purchase of, our common stock, including 3,319,304 Public Warrants outstanding, outstanding Up-C units exchangeable for 3,147,979,494 shares of our Common Stock, and 98,736,750 shares of Class A Common Stock reserved for future issuance under our stock incentive plan.

Warrants have become exercisable for our Class A Common Stock, which has increased the number of shares eligible for future resale in the public market and may result in dilution to our stockholders.

We issued Public Warrants to purchase 11,500,000 shares of Class A Common Stock as part of our IPO and, on the IPO closing date, we issued Private Warrants to the Sponsor and Nomura to purchase in the aggregate 325,000 shares of our Class A Common Stock. In addition, the Company issued an aggregate of 1,028,046,326 New Warrants to the holders of the Company's Class A Common Stock as of the close of business on the Closing Date. Pursuant to the terms of the Existing Warrant Agreement, the exercise price of the Public Warrants and Private Warrants decreased to \$0.0001 per share after giving effect to the issuance of the New Warrants. Pursuant to the terms of the LLC Agreement, at least twice a month, to the extent any New Warrants have been exercised in accordance with their terms, the Company is required to purchase from the MSP Principals, proportionately, the number of Up-C Units or shares of Class A Common Stock owned by such MSP Principal equal to the Aggregate Exercise Price divided by the Warrant Exercise Price in exchange for the Aggregate Exercise Price. Notwithstanding the foregoing, the shares of Class A Common Stock issuable upon exercise of our warrants will result in dilution to the then existing holders of Class A Common Stock of the Company and increase the number of shares eligible for resale in the public market. Sales of substantial numbers of such shares in the public market could adversely affect the market price of our Class A Common Stock.

The Private Warrants are identical to the Public Warrants sold as part of the Public Units issued in our IPO except that, so long as they are held by the Sponsor, Nomura or their permitted transferees: (i) they will not be redeemable by us; (ii) they (including the Class A Common Stock issuable upon exercise of these warrants) may not, subject to certain limited exceptions, be transferred, assigned or sold by the Sponsor until 30 days after the completion of an initial business combination; (iii) they may be exercised by the holders on a net share (cashless) basis; and (iv) are subject to registration rights. The New Warrants will be issued in registered form under the New Warrant Agreement between the Company and Continental Stock Transfer & Trust Company. The New Warrant Agreement is filed as an exhibit to the registration statement and incorporated by reference herein.

The Company's management has limited experience in operating a public company.

The Company's executive officers have limited experience in the management of a publicly traded company. The Company's management team may not successfully or effectively manage its transition to a public company that will be subject to significant regulatory oversight and reporting obligations under federal securities laws. Their limited experience in dealing with the increasingly complex laws pertaining to public companies could be a significant disadvantage in that it is likely that an increasing amount of their time may be devoted to these activities which will result in less time being devoted to the management and growth of the Company. The Company may not have adequate personnel with the appropriate level of knowledge, experience, and training in the accounting policies, practices or internal controls over financial reporting required of publicly traded companies. The development and implementation of the standards and controls necessary for the Company to achieve the level of accounting standards required of a publicly traded company may require costs greater than expected. It is possible that the Company will be required to expand its employee base and hire additional employees to support its operations as a public company, which will increase its operating costs in future periods.

The provision of our Charter requiring exclusive forum in the courts in the State of Delaware for certain types of lawsuits may have the effect of discouraging lawsuits against our directors and officers.

The Charter requires that, unless the Company consents in writing to the selection of an alternative forum, (i) any derivative action brought on behalf of the Company; (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer, or employee of the Company to the Company or the Company's stockholders; (iii) any action asserting a claim arising pursuant to any provision of the DGCL, the Charter or Amended and Restated Bylaws; or (iv) any action asserting a claim governed by the internal affairs doctrine of the State of Delaware, in each case, is to be filed in the Court of Chancery of the State of Delaware (or, if the Court of Chancery of the State of Delaware lacks jurisdiction over any such action or proceeding, then a state court located within the State of Delaware or the federal district court for the District of Delaware). The exclusive forum provision described above does not apply to actions arising under the Securities Act or the Exchange Act. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder, and Section 22 of the Securities Act creates concurrent jurisdiction for federal and state courts over all suits brought to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder. The Charter provides that the federal district courts of the United States of America will, to the fullest extent permitted by law, be the sole and exclusive forum for resolving any complaint asserting a cause of action arising under the federal securities laws, including the Securities Act and the rules and regulations thereunder. Our decision to adopt such a federal forum provision followed a decision by the Supreme Court of the State of Delaware holding that such provisions are facially valid under Delaware law. While there can be no assurance that federal or state courts will follow the holding of the Delaware Supreme Court or determine that our federal forum provision should be enforced in a particular case, application of our federal forum provision means that suits brought by our stockholders to enforce any duty or liability created by the Securities Act or the rules and regulations thereunder must be brought in federal court and cannot be brought in state court. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all claims brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder. Accordingly, actions by our stockholders to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder must be brought in federal court. Our stockholders will not be deemed to have waived our compliance with the federal securities laws and the regulations promulgated thereunder.

Although we believe that these exclusive forum provisions benefit us by providing greater consistency in the application of Delaware law, the exclusive forum provisions may limit a stockholder's ability to bring a claim in a judicial forum that it finds favorable in disputes with us or any of our directors, officers or stockholders, which may discourage lawsuits with respect to such claims. Further, in the event a court finds the exclusive forum provision contained in the Charter to be unenforceable or inapplicable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

The JOBS Act permits "emerging growth companies" like us to take advantage of certain exemptions from various reporting requirements applicable to other public companies that are not emerging growth companies.

We currently qualify as an "emerging growth company" as defined in Section 2(a)(19) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 ("JOBS Act"). As such, we take advantage of certain exemptions from various reporting requirements applicable to other public companies that are not emerging growth companies for as long as we continue to be an emerging growth company, including: (i) the exemption from the auditor attestation requirements with respect to internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act of 2002 ("SOX"); (ii) the exemptions from say-on-pay, say-on-frequency and say-on-golden parachute voting requirements; and (iii) reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements. As a result, our stockholders may not have access to certain information they deem important. We will remain an emerging growth company until the earliest of (i) the last day of the fiscal year: (a) following August 18, 2025, the fifth anniversary of our IPO; (b) in which we have total annual gross revenue of at least \$1.07 billion; or (c) in which we are deemed to be a large accelerated filer, which means the market value of our Class A Common Stock that is held by non-affiliates exceeds \$700 million as of the last business day of our prior second fiscal quarter, and the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

In addition, Section 107 of the JOBS Act provides that an emerging growth company can take advantage of the exemption from complying with new or revised accounting standards provided in Section 7(a)(2)(B) of the Securities Act as long as it is an emerging growth company. An emerging growth company can therefore delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies, but any such election to opt out is irrevocable. We have elected to avail ourselves of such extended transition period, which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

We cannot predict if investors will find our Class A Common Stock less attractive because we rely on these exemptions. If some investors find our Class A Common Stock less attractive as a result, there may be a less active trading market for our Class A Common Stock and our stock price may be more volatile.

Failure to establish and maintain effective internal controls could have a material adverse effect on the accuracy and timing of our financial reporting in future periods.

As a publicly traded company, we are subject to the Exchange Act and the Sarbanes-Oxley Act of 2002 ("Sarbanes-Oxley Act" or "SOX"). The Sarbanes-Oxley Act requires that we maintain effective disclosure controls and procedures and internal control over financial reporting. The standards required for a public company under Section 404 of SOX are significantly more stringent than those required of MSP as a privately held company. Further, as an emerging growth company, our independent registered public accounting firm is not required to formally attest to the effectiveness of our internal controls over financial reporting pursuant to Section 404 of SOX until the date we are no longer an emerging growth company. Our independent registered public accounting firm may issue a report that is adverse in the event that it is not satisfied with the level at which the controls of the Company are documented, designed or operating.

As noted within "Part II, Item 9A Controls and Procedures" of this Annual Report on Form 10-K, we reported material weaknesses in internal control related to the following items:

- We did not have sufficient controls related to the accounting for complex transactions.
- We did not have sufficient controls over the human resources and payroll processes. Specifically:
 - o Insufficient design of controls as the outsourced system used for payroll did not have appropriate audit and we did not have appropriate compensating controls or documented segregation of duties over the system used for payroll;
 - o Insufficient implementation of controls resulting in a lack of an effective control environment over payroll entries;

- o Insufficient design and implementation of controls within our human resources business process; and,
- o Insufficient implementation of controls resulting in a lack of proper documentation over approval of bonus payments.
- Insufficient design of controls as we did not have appropriate segregation of duties and review controls over disbursements.

On April 16, 2023, a special committee of the Board of Directors was formed to review matters related to the preparation and filing of this Annual Report on Form 10-K. On June 13, 2023, the special committee finalized its review. The findings and recommendations of the special committee are set forth in “Part II, Item 9A Controls and Procedures” of this Annual Report on Form 10-K. The special committee identified deficiencies in our internal controls which we consider material weaknesses. The material weaknesses relate to failures to develop or maintain an effective system of internal disclosure controls for the timely disclosure of material communications from external sources to the Company’s management and Board of Directors for review and evaluation.

A special committee of the board of directors made unanimous recommendations to enhance and improve the public company reporting capabilities of the Company, including but not limited to:

- The implementation of certain management training,
- The hiring of a director of internal audit, and
- Enhancements to the Company’s internal communication process, as well as increased reporting to the Audit Committee of Board of Directors.

We consider these recommendations to be indicative of material weaknesses related to a failure to develop or maintain an effective system of internal disclosure controls for the timely disclosure of material communications from external sources to the Company’s management and Board of Directors for review and evaluation. Specifically, the material weaknesses we identified were as follows:

- We did not have sufficient controls related to training personnel to understand their respective roles and responsibilities.
- We did not have sufficient monitoring activities, including a director of internal audit.
- We did not have sufficient lines of communication internally and to the Board of Directors, and therefore did not maintain a sufficient control environment with respect to oversight of the Board of Directors.

Any failure to maintain effective internal controls, including the recommendations of the special committee, could adversely impact our ability to report our financial results on a timely and accurate basis, or may result in a restatement of our financial statements for prior periods. Any such failures could have a material adverse effect on our financial results and investor confidence and the market for our common stock. For a discussion of our internal controls over financial reporting and a description of management’s plan for remediation of the material weaknesses, see “Part II, Item 9A Controls and Procedures” of this Annual Report on Form 10-K. Completion of the remediation plan does not provide assurance that our remediation or other controls will continue to operate properly.

Our internal control over financial reporting may not be effective and our independent registered public accounting firm may not be able to certify as to their effectiveness, which could have a significant and adverse effect on our business and reputation.

As a public company, we are required to comply with the SEC’s rules implementing Sections 302 and 404 of SOX, which require management to certify financial and other information in our quarterly and annual reports and provide an annual management report on the effectiveness of internal control over financial reporting. To comply with the requirements of being a public company, the Company may be required to provide the management report on internal controls commencing with the annual report for fiscal year ended December 31, 2023, and we may need to undertake various actions, such as implementing additional internal controls and procedures and hiring additional accounting or internal audit staff. The standards required for a public company under Section 404 of SOX are significantly more stringent than those required as a privately held company. Further, as an emerging growth company, our independent registered public accounting firm is not required to formally attest to the effectiveness of our internal controls over financial reporting pursuant to Section 404 of SOX until the date we are no longer an emerging growth company. Our independent registered public accounting firm may issue a report that is adverse in the event that it is not satisfied with the level at which the controls of the Company are documented, designed or operating.

Testing and maintaining these controls can divert our management’s attention from other matters that are important to the operation of our business. If we identify material weaknesses in the internal control over financial reporting of the Company or are unable to comply with the requirements of Section 404 of SOX or assert that our internal control over financial reporting is effective, or if our independent registered public accounting firm is unable to express an opinion as to the effectiveness of our internal controls over financial reporting when we no longer qualify as an emerging growth company, investors may lose confidence in the accuracy and completeness of our financial reports and the market price of our common stock could be negatively affected and we could become subject to investigations by the SEC or other regulatory authorities, which could require additional financial and management resources.

The restatement of our prior quarterly financial statements may affect investor confidence and raise reputational issues and may subject us to additional risks and uncertainties, including increased professional costs and the increased possibility of legal proceedings and regulatory inquiries.

As discussed in the Explanatory Note preceding Part I, Item I above and in Note 18 to our consolidated financial statements included elsewhere in this Annual Report on Form 10-K, we determined to restate our unaudited condensed consolidated financial statements as of and for the periods ended June 30, 2022 and September 30, 2022 after we identified errors in the accounting for the indemnification asset, various intangible assets, and rights to cash flows and consolidation of an entity in connection with the our business combination. As a result of this error and the resulting restatement of our unaudited condensed consolidated financial statements for the impacted periods, we have incurred, and may continue to incur, unanticipated costs for accounting and legal fees in connection with or related to the restatement and have become subject to a number of additional risks and uncertainties, including the increased possibility of litigation and regulatory inquiries. Any of the foregoing may affect investor confidence in the accuracy of our financial disclosures and may raise reputational risks for our business, both of which could harm our business and financial results.

Matters relating to or arising from the special committee of the Board of Directors' investigation, including governmental investigations, regulatory proceedings, litigation matters, and potential additional expenses, may adversely affect our business and results of operations.

On April 16, 2023, a special committee of the Board of Directors was formed to review matters related to the preparation and filing of this Annual Report on Form 10-K. On June 13, 2023, the special committee finalized its review. The findings and recommendations of the special committee are set forth in "Part II, Item 9A Controls and Procedures" of this Annual Report on Form 10-K.

We have incurred significant expenses related to legal, accounting, and other professional services in connection with the special committee review and related matters. The expenses incurred, and expected to be incurred, have adversely affected, and could continue to adversely affect, our business, financial condition, and results of operations or cash flows.

In addition, the resulting impact of our delayed filing of periodic reports on the confidence of investors, employees, and customers, and the diversion of the attention of the management team that has occurred, and is expected to continue, has adversely affected, and could continue to adversely affect, our business, financial condition and results of operations or cash flows.

As a result of the matters reported above, we are exposed to greater risks associated with litigation, regulatory proceedings and government enforcement actions. Any future investigations or additional lawsuits may adversely affect our business, financial condition, results of operations and cash flows.

The Company's stockholders may be held liable for claims by third parties against the Company to the extent of distributions received by them.

If the Company is forced to file a bankruptcy case or an involuntary bankruptcy case is filed against the Company which is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy court could seek to recover all amounts received by the Company's stockholders. Furthermore, because the Company distributed the proceeds held in the Public Shares to the Company's Public Stockholders in connection with the Closing, this may be viewed or interpreted as giving preference to the Company's Public Stockholders over any potential creditors with respect to access to or distributions from the Company's assets. Furthermore, the LCAP Board may be viewed as having breached their fiduciary duties to the Company's creditors and/or may have acted in bad faith, and thereby exposing itself and the Company to claims of punitive damages, by paying Public Stockholders from the Trust Account prior to addressing the claims of creditors. The Company cannot assure you that claims will not be brought against it for these reasons.

Risks Related to the Yorkville Purchase Agreement

In this section "we," "us," "our," and other similar terms refer to MSP Recovery, Inc. d/b/a LifeWallet and its subsidiaries prior to the Business Combination and to the Company following the Business Combination.

On January 6, 2023, we entered into the Yorkville Purchase Agreement with YA II PN, Ltd., a Cayman Island exempted company ("Yorkville"), pursuant to which Yorkville committed to purchase up to \$1 billion in shares of Common Stock, subject to certain limitations and conditions set forth in the Yorkville Purchase Agreement. Our shares of Common Stock that may be issued under the Yorkville Purchase Agreement may be sold by us to Yorkville at our discretion from time to time over the 36-month period commencing on the date the registration statement became effective. No registration statement for the Yorkville Purchase Agreement is currently effective and no sales may be made under the Purchase Agreement until it becomes effective.

We generally have the right to control the timing and amount of any sales of our shares of Common Stock to Yorkville under the Yorkville Purchase Agreement. Sales of our shares of Common Stock, if any, to Yorkville under the Yorkville Purchase Agreement will depend upon market conditions and other factors to be determined by us. We may ultimately decide to sell to Yorkville all, some or none of the shares of Common Stock that may be available for us to sell to Yorkville pursuant to the Yorkville Purchase Agreement.

Because the purchase price per share to be paid by Yorkville for the shares of Common Stock that we may elect to sell to Yorkville under the Yorkville Purchase Agreement, if any, will fluctuate based on the market prices of our shares of Common Stock at the time we elect to sell shares to Yorkville pursuant to the Yorkville Purchase Agreement, if any, it is not possible for us to predict, as of the date of this Form 10-K and prior to any such sales, the number of shares of Common Stock that we will sell to Yorkville under the Yorkville Purchase Agreement, the purchase price per share that Yorkville will pay for shares purchased from us under the Yorkville Purchase Agreement, or the aggregate gross proceeds that we will receive from those purchases by Yorkville under the Yorkville Purchase Agreement.

Although the Yorkville Purchase Agreement provides that, during the term of the agreement and subject to issuance and effective registration of the shares, we may, in our discretion, from time to time direct Yorkville to purchase our shares of Common Stock from us in one or more purchases under the agreement, for a maximum aggregate purchase price of up to \$1,000,000,000, the Yorkville Purchase Agreement is subject to a cap of 650,000,000 shares of Common Stock. Assuming all of the 120,000,000 shares remaining to be sold to Yorkville were sold, per the terms of the Yorkville Purchase Agreement, at a 2.0% discount to the last closing sale price of our shares of Common Stock as reported on NASDAQ on December 30, 2022, or \$1.60 per share (inclusive of such discount), we would not receive aggregate gross proceeds from the sale of such shares to Yorkville equal to Yorkville's \$1,000,000,000 total aggregate purchase commitment under the Yorkville Purchase Agreement. However, because the market prices of our shares of Common Stock may fluctuate from time to time and, as a result, the actual purchase prices to be paid by Yorkville for our shares of Common Stock that we direct it to purchase under the Yorkville Purchase Agreement, if any, also may fluctuate because they will be based on such fluctuating market prices of our shares of Common Stock, it is possible that we would need to issue and sell more than 650,000,000 shares of Common Stock to Yorkville under the Yorkville Purchase Agreement in order to receive aggregate gross proceeds equal to Yorkville's \$1,000,000,000 total aggregate purchase commitment under the Yorkville Purchase Agreement.

The number of our shares of Common Stock ultimately offered for sale by Yorkville is dependent upon the number of shares of Common Stock, if any, we ultimately elect to sell to Yorkville under the Yorkville Purchase Agreement.

Investors who buy shares at different times will likely pay different prices.

Pursuant to the Yorkville Purchase Agreement, we will have discretion, subject to market demand, to vary the timing, prices, and numbers of shares sold to Yorkville. If and when we do elect to sell our shares of Common Stock to Yorkville pursuant to the Yorkville Purchase Agreement, after Yorkville has acquired such shares, Yorkville may resell all, some or none of such shares at any time or from time to time in its discretion and at different prices. As a result, investors who purchase shares from Yorkville at different times will likely pay different prices for those shares, and so may experience different levels of dilution and in some cases substantial dilution and different outcomes in their investment results. Investors may experience a decline in the value of the shares they purchase from Yorkville as a result of future sales made by us to Yorkville at prices lower than the prices such investors paid for their shares. In addition, if we sell a substantial number of shares to Yorkville under the Yorkville Purchase Agreement, or if investors expect that we will do so, the actual sales of shares or the mere existence of our arrangement with Yorkville may make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise wish to affect such sales.

Item 1B. Unresolved Staff Comments.

Not applicable.

Item 2. Properties.

We lease our corporate headquarters and maintain our executive offices in an office building in Miami, Florida, which is located at 2701 S. Le Jeune Road, 10th Floor, Coral Gables, FL 33134. We also lease office space in Puerto Rico. We believe that our existing facilities are adequate for our current and planned levels of operation.

Item 3. Legal Proceedings.

From time to time, we may become involved in legal proceedings or be subject to claims arising in the ordinary course of our business. We are not currently party to any material legal proceedings. Regardless of outcome, such proceedings or claims can have an adverse impact on us because of defense and settlement costs, diversion of resources and other factors and there can be no assurances that favorable outcomes will be obtained.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market for our Common Stock and Warrants

Our common stock and warrants are traded on The Nasdaq Stock Market under the symbols “LIFW”, “LIFWW” and “LIFWZ,” respectively.

Record Holders

As of June 30, 2023, there were approximately 42 stockholders of record of our common stock, 8 stockholders of record of our redeemable warrants, each whole warrant exercisable for one share of Class A common stock at an exercise price of \$11.50 per share and 1 stockholder of record of our redeemable warrants, each whole warrant exercisable for one share of Class A common stock at an exercise price of \$0.0001 per share. The actual number of stockholders may be greater than this number of record stockholders and includes stockholders who are beneficial owners but whose shares are held in street name by brokers and other nominees. This number of stockholders of record also does not include stockholders whose shares may be held in trust by other entities.

Dividend Policy

We have never declared or paid any cash dividends on our common stock. We currently anticipate that we will retain all of our future earnings for use in the operation of our business and to fund future growth and do not anticipate paying any cash dividends in the foreseeable future. Any future determination to declare cash dividends will be made at the discretion of our Board of Directors, subject to applicable law, and will depend on our financial condition, results of operations, capital requirements, general business conditions and other factors that our Board of Directors may deem relevant.

Unregistered Sales of Equity Securities

None.

Issuer Purchases of Equity Securities

None.

Item 6. [Reserved]

MSP RECOVERY INC.'S d/b/a LIFEWALLET'S MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provides information that LifeWallet's management believes is relevant to an assessment and understanding of LifeWallet's consolidated results of operations and financial condition. The discussion should be read together with "Selected Historical Combined and Consolidated Financial and Operating Data of MSP" and the historical audited annual combined and consolidated financial statements as of and for the years ended December 31, 2021 and 2020 included in the S-1 Registration Statement filed on January 20, 2023 with the SEC, and our consolidated financial statements and the related notes and other information included elsewhere in this Annual Report on Form 10-K (the "Form 10-K"). Unless the context otherwise requires, all references in this subsection to "We," "the Company" or "MSP" refers to the business of the MSP Companies prior to the consummation of the Business Combination, which will be the business of the Company and its subsidiaries following the consummation of the Business Combination. This discussion may contain forward-looking statements based upon LifeWallet's current expectations, estimates and projections that involve risks and uncertainties. Actual results could differ materially from those anticipated in these forward-looking statements due to, among other considerations, the matters discussed under "Risk Factors" and "Cautionary Note Regarding Forward-Looking Statements."

Our Business

We are a leading healthcare recoveries and data analytics company. Our business model includes two principal lines of business, Claims Recovery and LifeWallet. We focus on the Medicare, Medicaid and commercial insurance spaces. We are disrupting the antiquated healthcare reimbursement system, using data and analytics to identify and recover improper payments made by Medicare, Medicaid, and Commercial Health Insurers.

Medicare and Medicaid are payers of last resort. Too often, they end up being the first and only payers, because the responsible payer is not identified or billed. Because Medicare and Medicaid pay a far lower rate than what other insurers are often billed, this costs the healthcare system (and the supporting taxpayers) tens of billions of dollars a year in improper billing and lost recoveries. By discovering, quantifying and settling the billed-to-paid gap on a large-scale basis, MSP is positioned to generate meaningful annual recovery revenue at high profit margins.

Our access to large volumes of data, sophisticated data analytics and a leading technology platform provide a unique opportunity to discover and recover Claims. We have developed Algorithms to identify waste, fraud and abuse in the Medicare, Medicaid, and Commercial Health Insurance segments. Our deep team of data scientists and medical professionals analyze historical medical Claims data to identify recoverable opportunities. Once these potential recoveries are reviewed by our team, they are aggregated and pursued. Through federal statutory law and a series of legal cases and precedents, we believe we have an established basis for future recoveries.

We differ from our competitors because we receive our recovery rights through irrevocable assignments of Claims. When we are assigned these rights, we take on a risk that our competitors do not. Rather than provide services under a third-party vendor services contract, we receive the rights to certain recovery proceeds from our Assignors' Claims (and, in many cases, actually take assignment of the Claims themselves, which allow us to step into the Assignors' shoes). In the instances where we take Claims by assignment, we have total control over the direction of the litigation. We, or our affiliated entities, are the plaintiff in any action filed and have total control over the direction of the lawsuit. By receiving Claims through assignment, we can pursue additional recoveries under numerous legal theories that our competitors cannot. In the cases where we take Claims by assignment, we typically agree that 50% of the recoveries generated by those Claims is paid to the applicable Assignor. In the cases where we do not take Claims by assignment, we typically would still be entitled to receive 50% of the recoveries generated by those Claims, subject to certain expenses. Although we typically own assigned Claims, for a significant portion of assigned Claims our ability to pursue recoveries depends on our ongoing access to data through data access rights granted to us. In these cases, termination of such health care data access would substantially impair our ability to generate recoveries on those Claims.

Our current Claims portfolio has scaled significantly. We are entitled to a portion of any recovery rights associated with approximately \$1,574 billion in Billed Amount (and approximately \$375 billion in Paid Amount), which contains approximately \$89.6 billion in Paid Value of Potentially Recoverable Claims, as of December 31, 2022. We are typically entitled to 50% of recovery rights pursuant to our CCRA's but in certain cases we have also purchased from our Assignors, from time to time, rights to 100% of the recovery. We believe it would take any competitor a long time to amass the portfolio of Claims rights currently owned by us due to, among things, the volume of our Claims data retained and strength of our data analytics, which we believe are key to attracting counterparties willing to assign Claims to us.

Our Business Model

Recovery Model

In our current business model, we receive irrevocable assignments of health Claims recovery rights through Claims Cost Recovery Agreements ("CCRA") from a variety of sources including, but not limited to, MAOs, MSOs, HMOs, Hospitals, and other at risk

entities. Prior to executing a CCRA, we utilize our proprietary internal data analytics platform to review the set of Claims and identify Claims with probable recovery paths.

Once Claims have been assigned, our data analysts run proprietary Algorithms to identify potential recoveries. Results are then quality checked by our internal Medical Team. We contract with the Law Firm and various other law firms across the country to pursue our recoveries through the legal system. Where appropriate, Law Firm reaches out to the liable parties to demand payment of amounts that are owed. Prior to litigation, there may be an incentive for the primary insurer to settle. If legal action is required for recovery from primary insurers, claimholders are entitled to pursue “double damages” under the Medicare Secondary Payer Act.

We engage with each Assignor independently. Typically, our Assignors irrevocably assign to us broad recovery rights to the Claims assigned. Generally, the assignment agreements provide for the Assignor to receive 50% of the Net Proceeds of any recoveries from the Claims assigned. The “Net Proceeds” of any assigned Claim is defined as the gross amount recovered on an assigned Claim, minus any costs directly traceable to such assigned Claim(s) for which recovery was made. In some instances, we may purchase outright an Assignor’s recovery rights; in this instance, we are entitled to the entire recovery. In some cases, we have entered into arrangements to transfer CCRAs or rights to proceeds from CCRAs to other parties. Such sales include variable consideration in the form of payments that will be made only upon achievement of certain recoveries or based on a percentage of actual recoveries.

We have yet to generate substantial revenue from the Recovery Model. To date, the majority of our revenue has been generated by Claims recovery services which are either performance-based or fee for service arrangements as described below.

Chase to Pay

Over time, we plan to pivot the business to the “Chase to Pay” model. Chase to Pay is a real-time analytics driven platform that identifies the proper primary insurer at the point of care. Chase to Pay is intended to plug into the real-time medical utilization platforms used by providers at the points of care. Rather than allow an MAO to make a wrongful payment whereby we need to chase down the primary payer and collect a reimbursement for the MAO, Chase to Pay is intended to prevent the MAO from making a wrongful payment and ensures that the correct payer pays in the first instance. Furthermore, the primary payer typically will make payments at a higher multiple than the MAO would have paid, and MSP will be entitled to receive its portion of the recovery proceeds on the amounts paid by the primary payer.

As Chase to Pay works at the point of care, it is expected to decrease legal costs of recovery. As a result, Chase to Pay would improve the net recovery margin as the recovery multiple grows and variable legal costs to recover decline.

We have yet to generate revenue from this model, nor have we executed any agreements with customers to date. We are currently in the process of determining the pricing and form of these arrangements. As part of our “Chase to Pay” model, we launched LifeWallet in January 2022, a platform powered by our sophisticated data analytics, designed to locate and organize users’ medical records, facilitating efficient access to enable informed decision-making and improved patient care.

Claims Recovery Services

We also recognize Claims recovery service revenue from our services to customers to assist those entities with the pursuit of Claims recovery rights. We provide services to other parties in identifying recoverable Claims as well as provide data matching and legal services. Under our Claims recovery services model, we do not own the rights to Claims but provide our services for a fee based on budgeted expenses for the month with an adjustment for the variance between budget and actual expense from the prior month.

We were a party to that certain Recovery Services Agreement (the “MSP RH Series 01 Recovery Services Agreement”), dated as of October 23, 2020, by and between MSP Recovery Holdings Series 01, LLC (“MSP RH Series 01”) and MSP Recovery, LLC, pursuant to which MSP Recovery will provide services including identifying, processing, prosecuting, and recovering money for certain Claims of MSP RH Series 01. In return for these services, MSP RH Series 01 paid a one-time fee of approximately \$7.2 million and has agreed to pay annual service fees of approximately \$3.0 million commencing January 1, 2021, subject to adjustment based on the aggregate value of Claims of MSP RH Series 01 that is subject to the MSP RH Series 01 Recovery Services Agreement. Subsequent to December 31, 2022, this service fee agreement was terminated in connection with the loan facility executed with Hazel Partners Holdings LLC. See Note 19 to the financial statements, *Subsequent Events* for details.

The fees received pursuant to this agreement are related to expenses incurred and are not tied to the Billed Amount or potential recovery amounts. Although we believe our future business to be highly tied to the Recovery Model and Chase to Pay, we will continue to enter into these contracts as the market dictates.

Recent Updates

Hazel Transactions

On March 29, 2023, the Company entered into a membership interest purchase agreement with Hazel, whereby in exchange for a purchase price of \$390 million, the Company acquired from Hazel membership interests in entities that own certain Claims recovery and reimbursement rights (the “Claims Purchase”). The purchase price for the Claims Purchase was funded by (i) the proceeds from the Claims Sale (as defined below), and (ii) a purchase money loan between Hazel, as lender, and the Company, as borrower, in the amount of \$250 million (the “Purchase Money Loan”).

In a separate transaction on March 29, 2023, the Company entered into a membership interest purchase agreement with Hazel, whereby in exchange for a purchase price of \$150 million, Hazel acquired from the Company the membership interests in entities that own certain other Claims recovery and reimbursement rights, provided that the Company and Hazel will share in the recovery proceeds therefrom in accordance with an agreed waterfall (the "Claims Sale," and together with the Claims Purchase, the "Claims Transactions").

In addition, on March 29, 2023, the Company entered into an Amended and Restated Credit Agreement with affiliates of Hazel, as the lender and administrative agent with respect to an aggregate \$80 million term loan credit facility consisting of a Term Loan A commitment to fund up to \$30 million (in multiple installments) in proceeds and a Term Loan B commitment to fund up to \$18 million (in multiple installments) in proceeds, in each case, after taking into account an original issue discount (collectively, the "Working Capital Credit Facility"). As previously reported, an initial \$10 million in proceeds was drawn under the Term Loan A on March 6, 2023. At closing, on March 29, 2023, an additional \$5 million was disbursed to the Company under the Term Loan A. On May 11, 2023 and June 13, 2023, Hazel notified us that it would not disburse additional funds under the Working Capital Credit Facility until the Company satisfies certain funding conditions, including the filing of this Annual Report on Form 10-K. The parties subsequently agreed that \$5.5 million will be funded under Term Loan A in accordance with the terms of the Working Capital Credit Facility subsequent to the filing of this 2022 Form 10-K and receipt of funding notices, deeming funding conditions satisfied or waived. Following such funding, the Term Loan A commitment would be terminated, with total funding of \$20.5 million. In addition, the parties agreed to increase the Term Loan B commitment from \$18 million to \$27.5 million, which will be funded in multiple installments and in accordance with the terms of the Working Capital Credit Facility.

Loans under the Working Capital Credit Facility accrue interest at a Term Secured Overnight Financing Rate for 12-month interest period, plus an applicable margin of 10% per annum. Accrued interest on the Working Capital Credit Facility is payable in kind and will be capitalized. The Working Capital Credit Facility has a stated maturity date of March 31, 2026, and Hazel may extend for up to one year in its sole discretion. The Purchase Money Loan accrues interest at a rate of 20% per annum, payable in kind or in cash at the Company's discretion. The Purchase Money Loan has a maturity date of March 31, 2026, extendable up to one year in Hazel's sole discretion.

The Company is permitted to prepay the loans under the Working Capital Credit Facility from time to time without prepayment premium. Prepayment of the Purchase Money Loan will be permitted after the prepayment or repayment of loans under the Working Capital Loans, and such prepayment of the Purchase Money Loan may be subject to prepayment penalty, as applicable.

The Purchase Money Loan and the Working Capital Credit Facility contains certain representations, warranties and covenants of the Company and its subsidiaries, including restrictions on debt incurrence, liens, investments, affiliate transactions, distributions and dividends, fundamental changes, certain debt prepayments and Claim settlement.

Amounts borrowed and obligations under the Purchase Money Loan and the Working Capital Credit Facility are secured by a pledge of proceeds from certain Claims in the Company's Claims portfolio, with the lien securing the Purchase Money Loan being subordinated and junior to the lien securing the Working Capital Credit Facility. Pursuant to the Purchase Money Loan and the Working Capital Credit Facility, the Company entered into a collateral administrative agreement between the Company and Hazel, which sets forth certain arrangements between the Company and Hazel in relation to the management of the litigation of certain Claims owned by the Company, the proceeds of which were pledged to Hazel to secure the Purchase Money Loan and the Working Capital Credit Facility.

Virage Amendment

On April 12, 2023, we entered into an amendment (the "Virage MTA Amendment") to the Virage MTA and the Guaranty Agreement made as of March 9, 2022 (as amended, the "Virage Guaranty") pursuant to which the payment date was extended from May 23, 2023 until September 30, 2024, subject to acceleration upon certain triggering events. Under the Virage MTA Amendment, Virage will receive a first priority lien on all sources of revenue of the Company not otherwise encumbered as of the date of the Virage MTA Amendment, to the extent in excess of the amount of revenues necessary to establish and maintain an operating reserve of \$70 million for overhead expenses and applicable taxes. In addition, pursuant to the Master Transaction Agreement, dated March 9, 2022 (as amended, the "Virage MTA"), we have payment obligations to Virage in the amount of \$825.0 million as of March 31, 2023.

On January 1, 2024, if the Virage Guaranty is not paid, the Company will be required to make a one-time, lump sum payment to Virage for the period starting May 24, 2023 and ending December 31, 2023, in one or a combination of: (a) cash, in an amount equal to 1.0% of each calendar month-end balance (which month-end balance shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and/or (b) warrants to purchase Class A common stock at \$0.0001 per share, in an amount equal to the quotient of 1.0% of each calendar month-end balance (which shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and the volume weighted average price of a share of our Class A common stock for the five day period prior to the issuance. If paid in warrants, such warrants will expire on January 1, 2026.

Further, for each calendar month beginning with January 31, 2024 until the obligations to Virage are paid in full, the Company has agreed to pay to Virage an amount monthly, in one or a combination of: (a) cash, in an amount equal to 1.0% of each calendar month-end balance (which month-end balance shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and/or (b) warrants to purchase Class A common

stock at \$0.0001 per share, in an amount equal to the quotient of 1.0% of each calendar month-end balance (which month-end balance shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and the volume weighted average price of a share of our Class A common stock. If paid in warrants, such warrants will expire two years from the date of issuance.

The warrants will contain customary provisions for a transaction of this type, including that each warrant will be exercisable in whole or in part at any time prior to the expiration date, be freely transferable, subject only to applicable securities laws, and be subject to customary anti-dilution protection regarding the exercise price and number of shares of Class A Common Stock to be issued upon the exercise of each warrant.

Nomura Promissory Note

On April 12, 2023, the Company amended the promissory note to Nomura originally issued on May 27, 2022, which amendment increased the principal amount to approximately \$26.2 million and extended the maturity date of the promissory note to September 30, 2024. The amended note carries an interest rate of 16% per annum and is payable in kind or in cash, at the Company's discretion, every 30 calendar days after April 12, 2023. Upon two days prior written notice to Nomura, the Company may prepay all or any portion of the then outstanding principal amount under the promissory note together with all accrued and unpaid interest thereon.

Key Factors Affecting Our Results

Our Claims Portfolio

We differ from some of our competitors because we receive our recovery rights through irrevocable assignments. When we are assigned these rights, we take on the risk that such Claims may not be recoverable. We are entitled to pursue a portion of any recovery rights associated with approximately \$1,574 billion in Billed Amount (and approximately \$375 billion in Paid Amount), which contained approximately \$89.6 billion in Paid Value of Potentially Recoverable Claims, as of December 31, 2022. We are typically entitled to 100% of recovery rights pursuant to our CCRA's, but contractually obligated to pay 50% of gross recoveries to the Assignor. In certain cases, we have purchased from our Assignors the rights to 100% of the recovery. By discovering, quantifying, and settling the gap between Billed Amount and Paid Amount on a large scale, we believe we are positioned to generate substantial annual recovery revenue at high profit margins for our assigned Claims. In litigation, we have a competitive advantage by our experienced management and legal teams. While our model of being assigned the Claim rights allows us the flexibility to direct the litigation and potentially generate higher margins, we have, on an opportunistic basis, paid the Assignor an upfront purchase price for these rights.

To date, we have not generated substantial revenue from our Claims portfolio, and our business model is dependent of achieving revenue from this model in the future. If we are unable to recover the upfront purchase price from the assigned Claims or the investments we have made in pursuing recoveries, it would have an adverse effect on our profitability and business.

Our potential Claims recovery revenue in a given period will be impacted by the amount of Claims we review and ultimately pursue. The number of Claims that we review is driven by the Claims we receive through assignment. As we are assigned more Claims, we can review the Claims and identify additional recoveries. To expand our Assignor base and obtain more Claims, we plan to implement new strategies to secure new Assignors. These strategies will include a platform to educate potential Assignors about our company, making strategic business partnerships, potential mergers, acquisitions of personnel, as well as other marketing strategies. Our Assignors have grown from 32 in 2015, to 105 in 2018, to 123 in 2019, to 134 in 2020 and over 160 Assignors to date. If we are unable to continue to attract new Assignors to our platform, this could adversely affect future profitability.

In addition to obtaining new Claims, our ability to collect on identified Claims on our estimated multiples is key to our future profitability. Per the Medicare Secondary Payer Act, we are entitled to pursue reasonable and customary rates. Under existing statutory and case law, the private cause of action under the Medicare Secondary Payer Act permits an award of double damages when a primary plan fails to provide for primary payment or appropriate reimbursement. In addition to double damages, MSP may pursue statutory interest from primary payers on any amounts owed. Federal law also provides express authority to assess interest on Medicare Secondary Payer debts.

As a result, we may pursue double damages and statutory interest in our Medicare Secondary Payer Act-related recoveries. We can recover these amounts under either the Recovery Model or the Chase to Pay Model. Federal law also expressly provides MAOs with the right to charge providers for the Billed Amount when auto insurer liability exists. Per the terms of various legal services agreements that MSP has with the Law Firm, for legal services provided, the Law Firm would receive a percentage of the total Claim recovery which would include double damages and additional penalties. Our ability to pursue double damages may be impacted by the RAMP Act as disclosed in *Note 13, Commitments and Contingencies*.

Our Claims recovery revenue is typically recognized upon reaching a binding settlement or arbitration with the counterparty or when the legal proceedings, including any appellate process, are resolved. A decrease in the willingness of courts to grant these judgments, a change in the requirements for filing these cases or obtaining these judgments, or a decrease in our ability to collect on these judgments could have an adverse effect on our business, financial condition and operating results. Of the Claims identified as potentially recoverable, relating to our accident-related cases as of December 31, 2022, approximately 86% are already in the recovery process; either the recovery process has been initiated, data has been collected and matched, or resolution discussions are in process.

Key Performance Indicators

To evaluate our business, key trends, risks and opportunities, prepare projections, make strategic decisions and measure our performance, we track several key performance indicators (“KPIs”). As our company has yet to achieve significant revenues and the drivers of expected revenues require significant lead time before revenue can be generated, MSP’s management utilizes KPIs to assist in tracking progress and believes such KPIs are useful in evaluating the performance of our business, in addition to our financial results prepared in accordance with GAAP. The KPIs are Total Paid Amount, Paid Value of Potentially Recoverable Claims, Billed Value of Potentially Recoverable Claims, Recovery Multiple and Penetration Status of Portfolio.

Total Paid Amount: Total Paid Amount represents the total within the Claims portfolio of the amount actually paid to the provider from the health plan, including incorporation of capitated amounts. As we continue to expand, we anticipate our revenue growth will be greatly dependent on our ability to increase the Total Paid Amount and, correspondingly, the Paid Value of Potentially Recoverable Claims, in our portfolio. Management believes this metric is a useful measure to investors and is useful in managing or monitoring company performance because we view an increase in Paid Amount as a positive indicator as it should provide the Company with the ability to increase the Paid Value of Potentially Recoverable Claims. Conversely, a decrease would produce a diminishing expectation of the Paid Value of Potentially Recoverable Claims.

Paid Value of Potentially Recoverable Claims: The Paid Value of Potentially Recoverable Claims (“PVPRC”) represents the cumulative Paid Amount of potentially recoverable Claims. We analyze our Claims portfolio and identify potentially recoverable Claims using our Algorithms to comb through historical paid Claims data and search for potential recoveries. The PVPRC is a measure of the actual Paid Amount that has been paid to providers in respect of those potentially recoverable Claims. Management believes this measure provides a useful baseline for potential recoveries, but it is not a measure of the total amount that may be recovered in respect of potentially recoverable Claims, which in turn may be influenced by any applicable potential statutory recoveries such as double damages or fines, as described below. We believe our ability to generate future Claims recovery income is largely dependent on our ability to accurately identify potentially recoverable Claims through our data analytics and ultimately recover on these Claims. Management believes this metric is a useful measure to investors and in managing or monitoring company performance because we view an increase in PVPRC as a positive indicator as it should provide the Company with the ability to increase Claims recovery income and otherwise shows growth.

Billed Value of Potentially Recoverable Claims: Billed Value of Potentially Recoverable Claims (“BVPRC”) represents the cumulative Billed Amount of potentially recoverable Claims. We analyze our Claims portfolio and identify potentially recoverable Claims using our Algorithms to comb through historical paid Claims data and search for potential recoveries. For a majority of our Claims, the Company believes it has the ability to recover in excess of the Paid Amount by collecting the Billed Amount plus interest plus double damages under applicable law. Under existing statutory and case law, the private cause of action under the Medicare Secondary Payer Act permits an award of double damages when a primary plan fails to provide for primary payment or appropriate reimbursement. Federal law expressly provides MAOs with the right to charge, or authorize the provider of such services to charge, in accordance with the charges allowed under a law, plan, or primary plan policy. We believe our ability to generate future Claim recovery income is largely dependent on our ability to accurately identify potentially recoverable Claims through our data analytics and ultimately recover on these Claims. Management believes this metric is a useful measure to investors and in managing or monitoring company performance because we view an increase in BVPRC as a positive indicator as it should provide the Company with the ability to increase Claims recovery income and otherwise shows growth.

Recovery Multiple: The Recovery Multiple is the amount of income of any generated Claims recovery income obtained by the Company in respect of any Claims as compared to the Paid Amount of those Claims (e.g., on a \$600 recovery, if the paid amount for said Claim was \$100, the Recovery Multiple is 6x). For these purposes, we record values under the Recovery Multiple only once we have recorded Claims recovery income either through the receipt of cash or recognition of accounts receivable on the Claims. Management believes this metric is useful to investors and is useful in managing or monitoring company performance because the Recovery Multiple provides a measure of the Company’s ability to recover on its Claims recovery rights. A Recovery Multiple above 1x would illustrate the Company’s ability to collect in excess of the Paid Amount. To date, because actual recoveries have been limited, this measure has had limited utility in historical periods. However, management believes this measure will become more meaningful during the next 12 months and beyond to the extent the Company begins to report actual increases in recoveries during those periods. As of December 31, 2022, the Company has obtained settlements with two counterparties where the Recovery Multiple was or would be in excess of the Paid Amount. However, these settlements do not provide a large enough sample to be statistically significant, and are therefore not shown in the table. As the Recovery Multiple is based on actual recoveries, this measure is not based on the Penetration Status of Portfolio, as described below.

Penetration Status of Portfolio: Penetration Status of Portfolio provides a measure of the Company’s recovery efforts by taking into account the current stages of recovery of Claims in the portfolio and tying it in with the estimated market share of the related primary payers. The total percentage represents the estimated aggregate market share for the respective primary payers in which the Company is in some stage of recovery. As the Company initiates additional recovery efforts against additional primary payers, the Company expects this number to increase. These stages of recovery include where (1) the recovery process has been initiated, (2) data has been collected and matched, or (3) potential resolution discussions are in process. The Company uses third-party sources to estimate the aggregate market share of those primary payers in the property and casualty auto insurance market with whom the Company is engaged

in one of these stages of recovery. Management believes this metric is useful to investors and in managing or monitoring company performance because it provides insight as to the estimated share of the market that is covered by existing recovery efforts. We estimate that cases that are in the potential resolution discussions and/or data matching are closer to generating potential future Claims recovery income.

	As of and for the,					
	Year Ended December 31, 2022	Nine Months Ended September 30, 2022	Six Months Ended June 30, 2022	Three Months Ended March 31, 2022	Year Ended December 31, 2021	Year Ended December 31, 2020
<i>\$ in billions</i>						
Paid Amount	\$ 374.8	\$ 373.3	\$ 370.2	\$ 366.9	\$ 364.4	\$ 58.4
Paid Value of Potentially Recoverable Claims	89.6	89.2	88.3	87.3	86.6	14.7
Billed Value of Potentially Recoverable Claims	377.8	376.1	371.3	367.8	363.2	52.3
Recovery Multiple	N/A ⁽¹⁾	N/A ⁽¹⁾	N/A ⁽¹⁾	N/A ⁽¹⁾	N/A ⁽¹⁾	N/A ⁽¹⁾
Penetration Status of Portfolio	85.8%	85.8%	76.3%	76.3%	75.6%	N/A

- (1) During the year ended December 31, 2022, the Company has received total recoveries of \$4.9 million with a recovery multiple of 3.8x. However, the settlement amounts do not provide a large enough sample to be statistically significant, and are therefore not shown in the table.
- (2) On August 10, 2022, the United States Court of Appeals, Eleventh Circuit held that four-year statute of limitations period for civil actions arising under an Act of Congress enacted after December 1, 1990 applies to certain claims brought under the Medicare Secondary Payer private cause of action, and that the limitations period begins to run on the date that the cause of action accrued. This opinion may render certain Claims held by the Company unrecoverable and may substantially reduce PVPRC and BVPRC as calculated. As our cases were filed at different times and in various jurisdictions, and prior to data matching with a defendant we are not able to accurately calculate the entirety of damages specific to a given defendant, we cannot calculate with certainty the impact of this ruling at this time. Although this opinion is binding only on courts in the Eleventh Circuit, if the application of this statute of limitations as determined by the Eleventh Circuit was applied to all Claims assigned to us, we estimate that the effect would be a reduction of PVPRC by approximately \$8.86 billion. As set forth in our Risk Factors, PVPRC is based on a variety of factors. As such, this estimate is subject to change based on the variety of legal claims being litigated and statute of limitations tolling theories that apply.

Healthcare Industry

Our business is directly related to the healthcare industry and is affected by healthcare spending and complexity in the healthcare industry. We estimate that our total addressable market is over \$150 billion annually. Our primary focus is on the Medicare and Medicaid market segments. Medicare is the second largest government program, with estimated annual expenditures during 2021 of approximately \$923 billion and approximately 63.5 million enrollees. Medicaid has a combined estimated annual expenditure during 2021 of approximately \$684 billion with approximately 76.5 million enrollees. Of the billions spent yearly by Medicare on medical expenses for its beneficiaries, we estimate that at least 10% of this was improperly paid by private Medicare plans.

Our addressable market, and therefore revenue potential, is impacted by the expansion or contraction of healthcare coverage and spending, which directly affects the number of Claims available. The Centers for Medicare & Medicaid Services ("CMS") has projected that health spending will continue to grow at an average rate of 5.4% a year between 2019 and 2028. We also believe reimbursement models may become more complex as healthcare payers accommodate new markets and lines of business and as advancements in medical care increase the number of testing and treatment options available. As reimbursement models grow more complex and healthcare coverage increases, the complexity and number of Claims may also increase, which could impact the demand for our solutions. Such changes could have a further impact on our results of operations.

As of December 31, 2022, approximately 93% of our expected recoveries arise from Claims being brought under the Medicare Secondary Payer Act. While we believe the MSP Act has bipartisan support, changes to the laws on which we base our recoveries, particularly the MSP Act, can adversely affect our business. Our ability to generate future revenue is therefore significantly dependent on factors outside our control.

Key Components of Sales and Expenses

The following represent the components of our results of operations.

Claims Recovery Income

Our primary income-producing activities are associated with the pursuit and recovery of proceeds related to Claims recovery rights that the Company obtains through CCRAs, in which we become the owner of those rights. As such, this income is not generated from the transfer of control of goods or services to customers, but through the proceeds realized from perfection of Claims recoveries from rights we hold outright. We recognize Claims recovery income based on a gain contingency model that is, when the amounts are reasonably certain of collection. This typically occurs upon reaching a binding settlement or arbitration with the counterparty or when the legal proceedings, including any appellate process, are resolved.

In some cases, we would owe an additional payment to the original assignor in connection with the realized value of the recovery right. Claims recovery income is recognized on a gross basis, as we are entitled to the full value of recovery proceeds and make payment

to the original assignor similar to a royalty arrangement. Such payments to prior owners are recognized as cost of Claims recovery in the same period the Claims recovery income is recognized.

Claims Recovery Service Income

We also recognize Claims recovery service income for our services to a related party and a third party to assist those entities with pursuit of Claims recovery rights. We have determined we have a single performance obligation for the series of daily activities that comprise Claims recovery services, which are recognized over time using a time-based progress measure. We enter into Claims recovery service contracts with third parties. Amounts payable for services to third parties are typically based on budgeted expenses for the current month with an adjustment for the variance between budget and actual expenses from the prior month.

Costs of Recoveries

Costs of recoveries consist of all directly attributable costs specifically associated with Claims processing activities, including contingent payments payable to assignors (i.e., settlement expenses).

Claims Amortization Expense

Claims Amortization Expense consists of the amortization of CCRA intangible assets for those CCRAs in which we made upfront payments or commitments in order to acquire Claims recovery rights.

Operating Expenses

General and Administrative Expenses

General and administrative expenses consist primarily of personnel-related expenses for employees involved in general corporate, sales and marketing functions, including executive management and administration, legal, human resources, accounting, finance, tax, and information technology. Personnel-related expenses primarily include wages and bonuses. General and administrative expenses also consist of rent, IT costs, insurance, and other office expenses.

As we continue to grow as a company and build out our team, we expect that our sales, general and administrative costs will increase. We also expect to incur additional expenses as a result of operating as a public company, including expenses necessary to comply with the rules and regulations applicable to companies listed on a national securities exchange and related to compliance and reporting obligations pursuant to the rules and regulations of the SEC, as well as higher expenses for general and director and officer insurance, investor relations, and professional services.

Professional Fees

Professional Fees consist of consulting, accounting, and other professional services from third party providers.

Professional Fees - Legal

Professional Fees - Legal consist of payments for the expenses of the Law Firm covered by the Legal Services Agreement and other legal professional services from third party providers including payments to co-counsel.

Depreciation and Amortization

Depreciation and amortization expense consist of depreciation and amortization of property and equipment related to our investments in leasehold improvements, office and computer equipment, and internally generated capitalized software development costs. We provide for depreciation and amortization using the straight-line method to allocate the cost of depreciable assets over their estimated useful lives.

Interest Expense

In some cases, we have entered into arrangements to transfer CCRAs or rights to proceeds from CCRAs to other parties. When such transfers are considered to be sales of future revenue that are debt-like in nature as defined in Accounting Standards Codification ("ASC") 470, these arrangements are recognized as debt based on the proceeds received and are imputed an interest rate based on the expected timing and amount of payments to achieve contractual hurdles. Our interest expense consists of the imputed interest on these payments. We anticipate that as we recognize Claims recoveries related to CCRAs in these arrangements, the interest expense on these arrangements will decrease.

Interest income consists primarily of interest on short term investments.

Other Income (expense)

Other income consists of equity investment earnings and some affiliate related income. Other expenses consist of bank service charges, airfare fees, tax penalties, settlement expense, political contributions and donations, and some affiliate related expenses.

Changes in Fair Value of Warrant and Derivative Liabilities

Changes in fair value of warrants and derivative liabilities consists of the mark to market of warrant liabilities and derivatives as part of the OTC Equity Prepaid Forward Transaction noted in Note 17, *Derivative Liability* in the notes to consolidated financial statements.

Net (income) loss attributable to non-controlling members

Net (income) loss attributable to non-controlling members consists of income or loss of attributable to Class V shareholders.

Income Tax Benefit

As a result of the Business Combination, the Company became the sole managing member of MSP Recovery, LLC, which is treated as a partnership for U.S. federal, state and local income tax purposes. As a partnership, MSP Recovery, LLC is not subject to U.S. federal and certain state and local income taxes. Any taxable income or loss generated by MSP Recovery, LLC is passed through to and included in the taxable income or loss of its partners, including MSP Recovery, Inc. The Company is subject to U.S. federal income taxes, in addition to state and local income taxes, with respect to the Company's allocable share of income of MSP Recovery, LLC. The Company's deferred tax balances reflect the impact of temporary differences between the carrying amount of assets and liabilities and the Company's tax basis. The balances are stated at the tax rates in effect when the temporary differences are expected to be recovered or settled. The Company reviewed the anticipated future realization of the tax benefit of the Company's existing deferred tax assets and concluded that it is more likely than not that all of the deferred tax assets will not be realized in the future.

Results of Operations

Year ended December 31, 2022 versus year ended December 31, 2021

The following table sets forth a summary of our consolidated results of operations for the year ended December 31, 2022 and 2021.

(in thousands except for percentages)	2022		December 31, 2022		% Change
	2021	\$ Change	2021	\$ Change	
Claims recovery income	\$ 4,878	\$ 126	\$ 4,752	\$ 3,771	%
Claims recovery service income	18,542	14,500	4,042	28	%
Total Claims Recovery	\$ 23,420	\$ 14,626	\$ 8,794	60	%
Operating expenses					
Cost of claims recoveries	\$ 2,054	\$ 26	\$ 2,028	7,800	%

Claims recovery income. Claims recovery income increased by \$4.8 million for the year ended December 31, 2022 driven by an increase in settlements during the period.

Claims recovery service income. Claims recoveries service income increased by \$4.0 million, or 28%, to \$18.5 million for the year ended December 31, 2022 from \$14.5 million for the year ended December 31, 2021, primarily driven by a \$5.0 million servicing contract completed during the year ended December 31, 2022.

Cost of Claims recoveries. Cost of Claims recoveries increased by \$2.0 million, to \$2.1 million for the year ended December 31, 2022 from \$26 thousand for the year ended December 31, 2021, primarily driven by payments due to assignors and the Law Firm on Claims recoveries during the period.

Claims amortization expense. Claims amortization expense increased by \$266.8 million, to \$266.9 million for the year ended December 31, 2022 from \$164 thousand for the year ended December 31, 2021, primarily driven by increased amortization due to the acquisition of CCRAs obtained as part of the business combination. In addition, the Company purchased additional CCRAs during the

year ended December 31, 2022, included in Intangible assets, net, which further contributed to the increase in Claims amortization expense.

General and administrative. General and administrative increased by \$11.3 million, or 90%, to \$24.0 million for the year ended December 31, 2022 from \$12.6 million for the year ended December 31, 2021, primarily driven by increase in wages of \$5.0 million and advertising expenses of \$3.8 million.

Professional fees. Professional fees increased by \$10.0 million, or 118%, to \$18.5 million for the year ended December 31, 2022 from \$8.5 million for the year ended December 31, 2021, primarily driven by an increase in accounting and consulting fees due to the Business Combination.

Professional fees - legal. Professional fees - legal increased by \$42.9 million for the year ended December 31, 2022, primarily driven by a one-time share-based payment expense of \$20.1 million, payments to the Law Firm of \$9.6 million to cover expenses through the prepaid and \$13.2 million fees to outsourced law firms.

Interest expense. Interest expense increased by \$94.0 million, or 347%, to \$121.0 million for the year ended December 31, 2022 from \$27.0 million for the year ended December 31, 2021, primarily driven by an increase due to the guarantee obligation as well as due to increases in the basis for which interest is incurred on our Claims Financing Obligations, additional interest on commitments incurred at the end of 2021 and accrued interest on the related party loan obtained in June 2022.

Other income, net. Other income increased by \$61.9 million, to \$63.1 million for the year ended December 31, 2022 from \$1.1 million for the year ended December 31, 2021 driven by a gain associated with the settlement of the Brickell Key Investment debt extinguishment.

Change in fair value of warrant and derivative liabilities. For the year ended December 31, 2022, \$12.5 million of loss was recorded related to mark to market adjustments for the fair value of warrants for \$2.9 million and for the fair value of derivative liabilities related to the Committed Equity facility for \$9.6 million.

Non-GAAP Financial Measures

In addition to the financial measures prepared in accordance with GAAP, this Form 10-K also contains non-GAAP financial measures. We consider "adjusted net loss" and "adjusted operating loss" as non-GAAP financial measures and important indicators of performance and useful metrics for management and investors to evaluate our business's ongoing operating performance on a consistent basis across reporting periods. Adjusted net loss represents Net loss adjusted for certain non-cash and non-recurring expenses and adjusted operating loss items represents Operating loss adjusted for certain non-cash and non-recurring expenses. These measures provide useful information to investors, and a reconciliation of these measures to the most directly comparable GAAP measures and other information relating to these non-GAAP measures is included in Note 2 to our consolidated financial statements appearing elsewhere in this Form 10-K. A reconciliation of these non-GAAP measures is included below:

<i>(In thousands)</i>	December 31, 2022	
GAAP Operating Loss	\$	(331,478)
Share based compensation		20,055
Claims amortization expense		266,929
Adjusted operating loss	\$	(44,494)
GAAP Net Loss	\$	(401,905)
Share based compensation		20,055
Claims amortization expense		266,929
Gain on debt extinguishment		(63,367)
Paid-in-kind Interest		121,011
Change in fair value of warrant and derivative liabilities		12,483
Adjusted net loss	\$	(44,794)

Liquidity and Capital Resources

Sources of Liquidity

Since inception, we have financed our operations primarily from partnership contributions and investor financing. As of December 31, 2022, we had \$3.7 million in cash and cash equivalents. As of December 31, 2022, we had loan payables of \$198.5 million consisting of our Claims Financing Obligations and notes payable. We had \$2.8 million in interest payable related to our Claims Financing Obligations. In addition, we had a loan from related parties with a balance of \$125.8 million. This loan bears interest at an annual rate of 4%, payable in kind, and will mature on the four-year anniversary of the issuance and the terms were more favorable than we could have obtained from another party.

As an early-stage growth company, the Company has incurred substantial net losses since inception. As of December 31, 2022, the Company had unrestricted cash and cash equivalents totaling \$3.7 million. The Company has incurred recurring losses and negative cash flows since inception and has an accumulated deficit of \$29.2 million as of December 31, 2022. For the year ended December 31, 2022, the Company used approximately \$80.6 million of cash in operations. The Company's liquidity will depend on the ability to generate substantial Claims recovery income and Claims recovery services income in the near future, the timing of which is uncertain, as well as its ability to secure funding from capital sources. The Company's principal liquidity needs have been capital expenditures, working capital, debt service and Claims financing obligations.

The Company anticipates sources of liquidity to include the Hazel Working Capital Facility as disclosed in Note 19, Subsequent Events. The Company anticipates having funding through this source and has taken several actions to address liquidity concerns, including:

1. On April 12, 2023, the Company entered into the Virage MTA Amendment, which extended the due date for the payment obligations to Virage to September 30, 2024. See summary in Note 19, *Subsequent Events*.
2. On April 12, 2023, the Company entered into an amended and restated promissory note with Nomura, which extended the due date to September 30, 2024. See summary in Note 19, *Subsequent Events*.
3. On March 29, 2023, the Company entered into the Working Capital Credit Agreement consisting of commitments to fund up to \$48 million in proceeds. See summary in Note 19, *Subsequent Events*.
4. Given the uncertainty with regard to the timing and amount of claims recovery income, management implemented a reduction of operating costs in 2023 through the reduction or elimination of certain controllable expenses particularly within the budgeted costs to expand and develop new solutions through LifeWallet platform, advertising expenses and non-contingent legal fees. The Company anticipates that the reductions would contribute approximately \$21.5M in savings to operating expenses over the next twelve months.

The Company has concluded that such actions alleviate the substantial doubt about the Company's ability to continue as a going concern beyond one year from the date these financial statements are issued.

Hazel Working Capital Credit Facility

On March 29, 2023, the Company entered into the Working Capital Credit Facility, which provides for up to \$80 million (with a 40% original issue discount), consisting of a Term Loan A commitment to fund up to \$30 million (in multiple installments) in proceeds and a Term Loan B Commitment to fund up to \$18 million (in multiple installments) in proceeds. An initial \$10 million in proceeds was drawn under the Term Loan A on March 6, 2023. On March 29, 2023, an additional \$5 million was disbursed to the Company under the Term Loan A. Loans under the Working Capital Credit Facility accrue interest at a Term Secured Overnight Financing Rate for 12-month interest period, plus an applicable margin of 10% per annum. Accrued interest is payable in kind and will be capitalized quarterly. The Working Capital Credit Facility has a stated maturity date of March 31, 2026, and Hazel may extend for up to one year in its sole discretion.

On May 11, 2023 and June 13, 2023, Hazel notified us that it would not disburse additional funds under the Working Capital Credit Facility until the Company satisfies certain milestone funding conditions, including certain servicing obligations as well as filing this Annual Report on Form 10-K. The parties subsequently agreed that \$5.5 million will be funded under Term Loan A in accordance with the terms of the Working Capital Credit Facility subsequent to the filing of this 2022 Form 10-K and receipt of funding notices, deeming funding conditions satisfied or waived. Following such funding, the Term Loan A commitment would be terminated, with total funding of \$20.5 million. In addition, the parties agreed to increase the Term Loan B commitment from \$18 million to \$27.5 million, which will be funded in multiple installments and in accordance with the terms of the Working Capital Credit Facility.

MSP Principals Promissory Note

On June 16, 2022, the MSP Principals provided cash to the Company to finance operations in an aggregate amount of \$112.8 million. The Company issued the MSP Principals Promissory Note to the MSP Principals in an aggregate principal amount of \$112.8 million that has an annual interest rate of 4%, payable in kind, and matures on the day that is the four-year anniversary of the issuance. On the maturity date, the Company is required to pay the MSP Principals an amount in cash equal to the outstanding principal amount, plus accrued and unpaid interest. The promissory note is prepayable by the Company at any time, without prepayment penalties, fees or other expenses. A portion of the proceeds under the MSP Principals Promissory Note in an amount equal to \$36.5 million was advanced to the Law Firm for certain operating expenses as contemplated by the Legal Services Agreement. The MSP Principals Promissory Note contains customary events of default that would allow the MSP Principals to declare the MSP Principals Promissory Note immediately due and payable or the MSP Principals Promissory Note will immediately and automatically become due and payable without notice, presentment, demand, protest or other request of any kind. In addition, the MSP Principals Promissory Note may be accelerated by the MSP Principals if the Board of Directors of the Company (excluding the MSP Principals) terminates the Legal Services Agreement.

Nomura Promissory Note

On May 27, 2022, the Company issued an unsecured promissory note to Nomura in a principal amount of approximately \$24.5 million related to advisory fees and deferred underwriting fees and expenses that became due and payable by the Company to Nomura, in connection with the consummation of the Business Combination (as defined herein).

On April 12, 2023, the Company amended the promissory note, increasing the principal amount to approximately \$26.2 million and extending the maturity date of the promissory note to September 30, 2024. The amended note carries an interest rate of 16% per annum and is payable in cash every 30 calendar days after April 12, 2023. Upon two days prior written notice to Nomura, the Company may prepay all or any portion of the then outstanding principal amount under the promissory note together with all accrued and unpaid interest thereon.

Yorkville Purchase Agreement

On January 6, 2023, the Company entered into a Company Common Stock Purchase Agreement (the “Yorkville Purchase Agreement”) with YA II PN, Ltd., a Cayman Island exempted company (“Yorkville”). Pursuant to the Yorkville Purchase Agreement, after the closing of the Business Combination, the Company will have the right to sell to Yorkville from time to time at its option up to \$1 billion in Class A common stock shares, subject to the terms, conditions and limitations set forth in the Yorkville Purchase Agreement. This Purchase Agreement will not be operational until a Registration Statement is effective.

Sales of the shares of the Company's common stock to Yorkville under the Yorkville Purchase Agreement, and the timing of any such sales, will be determined by the Company from time to time in its sole discretion and will depend on a variety of factors, including, among other things, market conditions, the trading price of the common stock, as well as determinations by the Company about the use of proceeds of such common stock sales. The net proceeds from any such sales under the Yorkville Purchase Agreement will depend on the frequency with, and the price at, which the shares of common stock are sold to Yorkville.

Upon the initial satisfaction of the conditions to Yorkville's obligation to purchase shares of common stock set forth under the Yorkville Purchase Agreement, the Company will have the right, but not the obligation, from time to time, at its sole discretion and on the terms and subject to the limitations contained in the Yorkville Purchase Agreement, until no later than the first day of the month following the 36 month anniversary of the date that the registration statement of the shares is declared effective, to direct Yorkville to purchase up to a specified maximum amount of common stock as set forth in the Yorkville Purchase Agreement by delivering written notice to Yorkville prior to the commencement of trading on any trading day. The purchase price of the common stock that the Company elects to sell to Yorkville pursuant to the Yorkville Purchase Agreement will be 98% of the VWAP of the common stock during the applicable purchase date on which the Company has timely delivered a written notice to Yorkville, directing it to purchase common stock under the Yorkville Purchase Agreement.

The previous purchase agreement that the Company entered into on May 17, 2022 with Cantor Fitzgerald & Co. has been terminated.

Assignment and Sale of Proceeds Agreement

On June 30, 2022, the Company entered into an Assignment and Sale of Proceeds Agreement (the “Assignment Agreement”) and a Recovery Services Agreement (the “Services Agreement” and collectively, the “Agreements”) with the Prudent Group (“Prudent”) in order to monetize up to \$250 million of the value of the Company's net recovery interest in Claim demand letters that the Company has commenced sending to insurers who admitted they had primary payer responsibility for the underlying accidents to the federal government (“Net Recovery Proceeds”). Pursuant to the Agreements, at the Company's sole and absolute discretion, the Company has the right to direct Prudent to acquire, on a non-recourse basis, a percentage of Net Recovery Proceeds, up to an aggregate of \$250 million, at a purchase price of 90% of Net Recovery Proceeds of such Claim.

Under the Services Agreement, the Company will service and recover on the demand letters and will retain any revenues generated in excess of the amount received from Prudent, plus up to an 18% annual return on the amount Prudent paid for Net Recovery Proceeds. Prudent may terminate the Services Agreement upon sixty (60) days prior written notice to the Company. The Company plans to utilize the Assignment Agreement as funding is needed. To date, the Company has not exercised its rights pursuant to the Services Agreement and does not anticipate doing so in the foreseeable future.

Actual results, including sources and uses of cash, may differ from our current estimates due to the inherent uncertainty involved in making those estimates and any such differences may impact the Company's ability to continue as a going concern in the future. The expenditures associated with the development and launch of our additional recovery services and the anticipated increase in Claims recovery capacity are subject to significant risks and uncertainties, many of which are beyond our control, which may affect the timing and magnitude of these anticipated expenditures. These risk and uncertainties are described in more detail in the section entitled “Risk Factors.”

PPP Loan

During 2020, we obtained funds under the Paycheck Protection Program (the “PPP Loans”) in the amount of \$1.1 million. As of December 31, 2021, all of the PPP Loans have been forgiven.

Claims Financing Obligations

On February 20, 2015, the Company entered into a Claims Proceeds Investment Agreement ("CPIA") with a third-party investor to invest directly and indirectly in Claims, disputes, and litigation and arbitration Claims. For such investment, the Company assigned to the investor a portion of the future proceeds of certain Claims, albeit the Company remained the sole owner and assignee of rights to Claims because the investor was only acquiring rights to a portion of the proceeds of the Claims. The investor return was based on its investment (\$23 million between the original and amended agreements) and an internal rate of return of 30% calculated from the Closing Date.

During the year ended December 31, 2022, the Company finalized an Amendment to the CPIA and a Warrant Agreement with the third-party, pursuant to which the parties have agreed to amend the original CPIA and required payment terms. See Note 11 to our consolidated financial statements for a description of the Claims financing obligations and details on the amendment.

Tax Receivable Agreement

Under the terms of the TRA, we generally will be required to pay to the Members, and to each other person from time to time that becomes a "TRA Party" under the TRA, 85% of the tax savings, if any, that we are deemed to realize in certain circumstances as a result of certain tax attributes that exist following the Business Combination and that are created thereafter, including as a result of payments made under the TRA. The term of the TRA will continue until all such tax benefits have been utilized or expired unless we exercise our right to terminate the TRA for an amount representing the present value of anticipated future tax benefits under the TRA or certain other acceleration events occur. Any payments made by us under the TRA will generally reduce the amount of overall cash flow that might have otherwise been available to us, and, to the extent that we are unable to make payments under the TRA for any reason, the unpaid amounts generally will be deferred and will accrue interest until paid by us.

Cash Flows

The following table summarizes our cash flows for the periods indicated:

<i>(in thousands)</i>	December 31,	
	2022	2021
Net cash used in operating activities	\$ (80,635)	\$ 2,249
Net cash used in investing activities	(5,684)	(2,007)
Net cash provided by (used in) financing activities	99,735	(10,457)
Net increase (decrease) in cash and cash equivalents and restricted cash	13,416	(10,215)
Cash and cash equivalents and restricted cash at beginning of period	1,664	11,879
Cash and cash equivalents and restricted cash at end of period	\$ 15,080	\$ 1,664

Cash Flows Used in Operating Activities

Net cash used in operating activities increased by \$82.9 million to \$80.6 million for the year ended December 31, 2022 compared to net cash provided of \$2.2 million for the year ended December 31, 2021. During the year ended December 31, 2022, net cash used in operating activities was impacted primarily by our net loss, an increase in Prepaid and other assets of \$27.6 million and decrease in affiliate payable of \$25.4 million. This was partially offset by a \$23.4 million increase in accounts payable and accrued liabilities. Net cash used in operating activities was further impacted by non-cash charges including a \$63.4 gain on debt extinguishment partially offset by Claims amortization expense of \$266.9 million, paid in kind interest of \$120.0 million, share-based compensation of \$20.1 million and change in fair value of derivatives of \$9.6 million and change in fair value of warrant liabilities of \$2.2 million.

Cash Flows Used in Investing Activities

Net cash used in investing activities increased by \$3.7 million to \$5.7 million for the year ended December 31, 2022 compared to \$2.0 million for the year ended December 31, 2021. During the year ended December 31, 2022, our cash used in investing activities was primarily due to acquisition of additional CCRAs included in Intangible assets, net, of which \$3.0 million was paid for in cash and \$3.0 million of additions to property, plant and equipment.

Cash Flows Provided by (Used in) Financing Activities

Net cash provided by in financing activities increased to \$99.7 million for the year ended December 31, 2022 compared to \$10.5 million net cash used in financing activities for the year ended December 31, 2021. This is primarily due to proceeds from the related party loan of \$125.8 million, proceeds from the Business Combination of \$12.0 million, and \$9.8 million from the issuance of common stock. These were partially offset by \$50.2 million of transaction costs incurred in connection with the Business Combination.

Off-Balance Sheet Commitments and Arrangements

As of the balance sheet dates of December 31, 2022 and December 31, 2021, we have not engaged in any off-balance sheet arrangements, as defined in the rules and regulations of the SEC.

Contractual Obligations, Commitments and Contingencies

The following table and the information that follows summarizes our contractual obligations as of December 31, 2022.

The future minimum lease payments under non-cancelable operating leases as of December 31, 2022 are as follows:

<i>(In thousands)</i>	Lease Payments	
Year Ending December 31,		
2023 ⁽¹⁾	\$	217
Total	\$	217

(1) Operating lease expires before or during the year ending December 31, 2023

Based on Claims financing obligations and notes payable agreements, as of December 31, 2022 and December 31, 2021, the present value of amounts owed under these obligations were \$201.3 million and \$201.4 million, respectively, including unpaid interest to date of \$2.8 million and \$94.5 million, respectively. The weighted average interest rate is 6.3% based on the current book value of \$201.3 million with rates that range from 2% to 11.04%. The Company is expected to repay these obligations from cash flows from Claim recovery income.

As of December 31, 2022, the minimum required payments on these agreements are \$354.9 million. Certain of these agreements have priority of payment regarding any proceeds until full payment of the balance due is satisfied. The maturity of the commitments range from the date sufficient Claims recoveries are received to cover the required return or in some cases by 2031.

Critical Accounting Policies

Our consolidated financial statements and the related notes thereto included elsewhere in this Form 10-K are prepared in accordance with GAAP. The preparation of our consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts and related disclosures in our financial statements and accompanying notes. We base our estimates on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions due to the inherent uncertainty involved in making those estimates and any such differences may be material.

We believe that the following accounting policies involve a high degree of judgment and complexity. Accordingly, these are the policies we believe are the most critical to aid in fully understanding and evaluating our consolidated financial condition and results of our operations. See Note 2, *Basis of Presentation and Summary of Significant Accounting Policies* to our consolidated financial statements appearing elsewhere in this Form 10-K for a description of our other significant accounting policies.

Revenue Recognition

Claims Recovery Income

We recognize revenue based on a gain contingency model when the amounts are reasonably certain of collection, typically upon reaching a binding settlement or arbitration with the counterparty or when the legal proceedings, including any appellate process, are resolved. Claims recovery income is recognized on a gross basis, as the Company is entitled to the full value of recovery proceeds and makes a payment to the original assignor similar to a royalty arrangement. Such payments to prior owners are recognized as cost of Claims recovery in the same period the Claims recovery income is recognized.

Claims Recovery Service Income

We recognize Claims recovery service income for our services to third parties for our services to assist those entities with pursuit of Claims recovery rights. We have determined that we have a single performance obligation for the series of daily activities that comprise Claims recovery services, which are recognized over time using a time-based progress measure. Amounts owed under existing arrangements or as a result of actual settlements or resolved litigation are recognized as accounts receivable. Amounts estimated and recognized, but not yet fully settled or resolved as part of litigation are recognized as contract assets. We enter into Claims recovery service contracts with third parties. Amounts for services to third parties are typically based on budgeted expenses for the current month with an adjustment for the variance between budget and actual expenses from the prior month.

Impairment of Intangible Assets

We evaluate long-lived assets, such as property and equipment, and finite-lived intangibles, such as Claims recovery rights and capitalized software costs, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset or asset group may not be recoverable. If the estimated future cash flows (undiscounted and without interest charges) from the use of an asset group are less than the carrying value, a write-down would be recorded to reduce the related asset group to its estimated fair value. There were no impairment indicators or charges in the year ended December 31, 2022 and 2021.

For the CCRA intangibles, we will also assess the intangible assets recognized for CCRA for impairment in accordance with ASC 350-30-35-14, whereby an impairment loss shall be recognized if the carrying amount of the intangible asset is not recoverable and its carrying amount exceeds its fair value based on the model for long-lived assets to be held and used under ASC 360-10. ASC 360-10

requires entities to evaluate long-lived assets (including finite-lived intangible assets) when indicators are present. Impairment indicators would result only when the potential recoveries under the Claim paths of all remaining Claims suggests the unamortized carrying value is not recoverable. As upfront payments for CCRA are typically a fraction of the potential recoveries, it would typically take a substantial negative event (such as an unfavorable court ruling upheld on appeal or a change in law/statute with retroactive effect) to suggest an impairment may be triggered. There were no impairment indicators or charges in the year ended December 31, 2022 and 2021.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

Item 8. Financial Statements and Supplementary Data.

Notes to Consolidated Financial Statements	72

Report of Independent Registered Public Accounting Firm

To the shareholders and the Board of Directors of
MSP Recovery, Inc. and Subsidiaries

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of MSP Recovery, Inc. and Subsidiaries (the "Company") as of December 31, 2022 and 2021, the related consolidated statements of operations, changes in equity, and cash flows, for each of the three years in the period ended December 31, 2022, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2022, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Deloitte & Touche LLP

Miami, Florida

July 26, 2023

We have served as the Company's auditor since 2021.

The accompanying notes are an integral part of these consolidated financial statements.

Note 1. DESCRIPTION OF BUSINESS

On May 23, 2022 (the “Closing Date”), MSP Recovery, Inc. d/b/a LifeWallet, a Delaware corporation (formerly known as Lionheart Acquisition Corporation II (“LCAP”) consummated the previously announced business combination pursuant to that certain Membership Interest Purchase Agreement, dated as of July 11, 2021 (as amended, the “MIPA”), by and among the Company, Lionheart II Holdings, LLC, a wholly owned subsidiary of the Company, MSP Recovery, LLC and combined and consolidated subsidiaries (“Legacy MSP”), the members of Legacy MSP (the “Members”), and John H. Ruiz, in his capacity as the representative of the Members (the “Members’ Representative”). Pursuant to the MIPA, the Members sold and assigned all of their membership interests in Legacy MSP to the Company in exchange for non-economic voting shares of Class V common stock, par value \$0.0001, of the Company (“Class V Common Stock”) and non-voting economic Class B Units of the Company (“Class B Units,” and each pair consisting of one share of Class V Common Stock and one Class B Unit, an “Up-C Unit”) (such transaction, the “Business Combination”). The Up-C Units are convertible into Class A Common Stock of the Company at the discretion of holder of the Up-C Unit. See *Note 3, Business Combination* for details. Subsequent to the Closing Date, the Company’s sole asset is its equity interest in MSP Recovery, LLC. The Company is the managing member and therefore consolidates Legacy MSP.

Legacy MSP was organized in 2014 as a Medicaid and Medicare Secondary Pay Act recovery specialist. The Company utilizes its proprietary internal data analytics platform to review health Claims assigned by secondary payers such as Health Plans, Management Service Organizations (“MSO”), providers of medical services and Independent Physicians Associations. This platform allows the Company to identify Claims cost recovery rights with potential recovery paths where Claims either should not have been paid by the secondary payers or should have been reimbursed by third-party entities.

MSP seeks the assignment of recovery rights from secondary payers by acquiring the recovery rights to Claims from secondary payers via Claims Cost Recovery Agreements (“CCRAs”). Prior to executing a CCRA, the Company utilizes its proprietary internal data analytics platform to review the set of Claims and identify Claims with probable recovery paths. MSP’s assets are these irrevocable assignments of health Claims recovery rights that are automatic, all-encompassing and superior to other interests supported by Federal and State laws and regulations. MSP’s operations are primarily conducted in the U.S. and Puerto Rico.

Investment Capacity Agreement

On September 27, 2021, the Company entered into an Investment Capacity Agreement (the “ICA”) providing for potential future transactions regarding select healthcare Claims recovery interests with its investment partner, Virage, which transactions may include the sale of Claims by MSP. The ICA provides that the maximum value of such Claims will be \$3 billion.

When the Company takes an assignment, the Company takes an assignment of the entire recovery but often has a contractual obligation to pay the assignor 50% of any recoveries. This 50% interest typically is retained by the assignor (the “Retained Interest”), although in some cases, the Company has acquired all of the recoveries, and the applicable assignor has not kept any Retained Interest. The Retained Interest is not an asset of the Company, but an obligation to pay these assignors, with the Company keeping the other 50% interest of any recoveries. Virage’s funding in connection with future transactions generally will be used to purchase Retained Interests from existing assignors or new MSP assignors, although its funds can also be used to buy 50% of the recoveries from the Company, in the event the applicable assignor did not retain any Retained Interest. In connection with transactions consummated under the ICA, the Company may receive certain fees, including a finder’s fee for identifying the recoveries and a servicing fee for servicing the Claims.

Pursuant to the ICA, the Company will assist Virage in acquiring these Retained Interests for a cash price. Virage will be paid the recovery generated from the purchased Retained Interests when received through litigation or settlements. The ICA is separate and distinct from the equity investment in the Company by VRM MSP (an affiliate of Virage). While the ICA is still in effect as of the date of this annual report, it is uncertain if or when the Company would transact on the ICA. To date, there have been no transactions in connection with this ICA, and the Company does not anticipate any in the foreseeable future.

LifeWallet

On January 10, 2022, the Company announced the launch of LifeWallet, LLC (“LifeWallet”). As of December 31, 2022, the Company’s investment related to LifeWallet included in the consolidated balance sheets was limited to activity and expenses incurred during the year ended December 31, 2022. Through the date the financial statements were issued, LifeWallet has executed agreements for advertising costs within the next 12 months of approximately \$5.5 million. A portion of these contracts are cancellable with a 30-day notice period. For the aforementioned agreements that do not have a 30-day cancellation at will provision, the parties have mutually agreed to terminate said agreements prior to the filing of this Annual Report on Form 10-K.

Committed Equity Facility

On May 17, 2022, the Company entered into a Company Common Stock Purchase Agreement (the “Purchase Agreement”) with an affiliate of Cantor Fitzgerald (“CF”). Pursuant to the Purchase Agreement, after the closing of the Business Combination, the Company will have the right to sell to CF from time to time at its option up to \$1 billion in Class A common stock shares, subject to the terms, conditions and limitations set forth in the Purchase Agreement.

On January 6, 2023, the Company entered into a Company Common Stock Purchase Agreement (the “Yorkville Purchase Agreement”) with YA II PN, Ltd., a Cayman Island exempted company (“Yorkville”), which replaced the Purchase Agreement with CF noted above. Pursuant to the Yorkville Purchase Agreement, the Company has the right to sell to Yorkville from time to time at its option up to \$1 billion in shares of the Company’s Common Stock, subject to the terms, conditions and limitations set forth in the Yorkville Purchase Agreement. Sales of the shares of the Common Stock to Yorkville under the Yorkville Purchase Agreement, and the timing of any such sales, will be determined by the Company from time to time in its sole discretion and will depend on a variety of factors, including, among other things, market conditions, the trading price of the common stock, as well as determinations by the Company about the use of proceeds of such Common Stock sales. The net proceeds from any such sales under the Yorkville Purchase Agreement will depend on the frequency with, and the price at, which the shares of Common Stock are sold to Yorkville. Upon the initial satisfaction of the conditions to Yorkville’s obligation to purchase shares of Common Stock set forth under the Yorkville Purchase Agreement (the “Commencement”), including that a registration statement registering the resale by Yorkville of the shares of Common Stock under the Securities Act, purchased pursuant to the Yorkville Purchase Agreement (the “Resale Registration Statement”) is declared effective by the SEC and a final prospectus relating thereto is filed with the SEC, the Company will have the right, but not the obligation, from time to time, at its sole discretion and on the terms and subject to the limitations contained in the Yorkville Purchase Agreement, until no later than the first day of the month following the 36 month anniversary of the date that the Resale Registration Statement is declared effective, to direct Yorkville to purchase up to a specified maximum amount of Common Stock as set forth in the Yorkville Purchase Agreement by delivering written notice to Yorkville prior to the commencement of trading on any trading day. The purchase price of the common stock that the Company elects to sell to Yorkville pursuant to the Yorkville Purchase Agreement will be 98% of the volume-weighted average price (“VWAP”) of the Common Stock during the applicable purchase date on which the Company has timely delivered a written notice to Yorkville, directing it to purchase common stock under the Yorkville Purchase Agreement. The purchase agreement that the Company entered into on May 17, 2022 with CF has been terminated.

Assignment and Sale of Proceeds Agreement

On June 30, 2022, the Company entered into an Assignment and Sale of Proceeds Agreement (the “Assignment Agreement”) and a Recovery Services Agreement (the “Services Agreement” and collectively, the “Agreements”) with the Prudent Group (“Prudent”) in order to monetize up to \$250 million of the value of the Company’s net recovery interest in Claim demand letters that the Company has commenced sending to insurers who admitted they had primary payer responsibility for the underlying accidents to the federal government (“Net Recovery Proceeds”).

Pursuant to the Agreements, at the Company’s sole and absolute discretion, the Company has the right to direct Prudent to acquire, on a non-recourse basis, a percentage of the Company’s Net Recovery Proceeds, up to an aggregate of \$250 million, at a purchase price of 90% of the Net Recovery Proceeds of such Claim.

Under the Services Agreement, the Company will service and recover on the demand letters and will retain any revenues generated in excess of the amount received from Prudent, plus up to an 18% annual return on the amount Prudent paid for the Net Recovery Proceeds. Prudent may terminate the Services Agreement upon sixty (60) days prior written notice to the Company.

The Company may utilize the Assignment Agreement as funding if needed. While the Prudent Agreements are still in effect as of the date of these financial statements, it is uncertain if or when the Company would transact on the agreements.

Warrant Agreement with Brickell Key Investments, LP

On October 12, 2022, MSP Recovery, Inc., a Delaware corporation (the “Company”), finalized an Amendment to the Claim Proceeds Investment Agreement (the “Amendment”) and a Warrant Agreement (the “Warrant Agreement”) with Brickell Key Investments LP (the “Holder”), pursuant to which the parties have agreed to amend the original Claims Proceeds Investment Agreement (“CPIA”) and required payment terms. The Amendment and Warrant Agreement were agreed effective September 30, 2022.

Pursuant to the agreements, the Company grants to the Holder the right to purchase Class A common shares in the Company (the “Class A Shares”) in accordance with the terms and conditions of the Agreement. The maximum amount of Class A shares that the holder may purchase from the Company is 66,666,666 (the “Amount”) for a purchase price equal to \$6,666.67 (\$0.0001 per Class A Share) (the “Exercise Price”) and is payable in cash. This Warrant (the “Warrant”) will expire at 5:00 p.m. (Eastern Time), on September 30, 2027 and may be exercised in whole or in part by Holder at any time prior to such date. The Holder can only sell a maximum of 15% per month of the Class A Shares obtained through the Warrant.

In exchange for the Company issuing the Warrant, the amounts owed to the Holder pursuant to CPIA are reduced from approximately \$143 million to equal \$80 million (the “Reduced Obligation”), and no further interest will accrue. The Holder has the right to receive the \$80 million owed through (1) proceeds as outlined in the CPIA, (2) cash paid by the Company or (3) monetization of the Warrant (through the sale of the Warrant or sale of the underlying Class A Shares). If the Holder monetizes the Warrant, the amount owed will be reduced at a measure of \$1.20 per Class A Share (five-day volume weighted average price as of September 30, 2022).

Liquidity

As an early-stage growth company, the Company has incurred substantial net losses since inception. As of December 31, 2022, the Company had unrestricted cash and cash equivalents totaling \$3.7 million. The Company has incurred recurring losses and negative cash flows since inception and has an accumulated deficit of \$29.2 million as of December 31, 2022. For the year ended December 31, 2022, the Company used approximately \$80.6 million of cash in operations. The Company's liquidity will depend on the ability to generate substantial Claims recovery income and Claims recovery services income in the near future, the timing of which is uncertain, as well as its ability to secure funding from capital sources. The Company's principal liquidity needs have been capital expenditures, working capital, debt service and Claims financing obligations.

The Company anticipates sources of liquidity to include the Hazel Working Capital Facility as disclosed in Note 19, *Subsequent Events*. The Company anticipates having funding through this source and has taken several actions to address liquidity concerns, including:

1. On April 12, 2023, the Company entered into the Virage MTA Amendment, which extended the due date for the payment obligations to Virage to September 30, 2024. See summary in Note 19, *Subsequent Events*.
2. On April 12, 2023, the Company entered into an amended and restated promissory note with Nomura, which extended the due date to September 30, 2024. See summary in Note 19, *Subsequent Events*.
3. On March 29, 2023, the Company entered into the Working Capital Credit Agreement consisting of commitments to fund up to \$48 million in proceeds. See summary in Note 19, *Subsequent Events*.
4. Given the uncertainty with regard to the timing and amount of claims recovery income, management implemented a reduction of operating costs in 2023 through the reduction or elimination of certain controllable expenses particularly within the budgeted costs to expand and develop new solutions through LifeWallet platform, advertising expenses and non-contingent legal fees. The Company anticipates that the reductions would contribute approximately \$21.5M in savings to operating expenses over the next twelve months.

The Company has concluded that such actions alleviate the substantial doubt about the Company's ability to continue as a going concern beyond one year from the date these financial statements are issued.

Note 2. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Principles of Consolidation

Basis of presentation

These statements have been prepared pursuant to the rules and regulations of the SEC and in accordance with GAAP. In the opinion of management, the consolidated financial statements (the "Financial Statements") reflect all adjustments, which consist only of normal recurring adjustments, necessary to state fairly the results of operations, financial condition and cash flows for the periods presented herein. Prior to the Business Combination, the consolidated interim financial statements reflect Legacy MSP. All intercompany transactions and balances are eliminated from the consolidated financial statements.

Principles of consolidation

The Company consolidates all entities that it controls through a majority voting interest or otherwise and the accompanying consolidated financial statements include the accounts of the Company's wholly owned subsidiaries and these entities for which the Company has a controlling interest in. The Company also consolidates all entities that it controls as the primary beneficiary of a variable interest entity ("VIE"). Under the VIE model, management first assesses whether the Company has a variable interest in an entity, which would include an equity interest. If the Company has a variable interest in an entity, management further assesses whether that entity is a VIE, and if so, whether the Company is the primary beneficiary under the VIE model. Generally, entities that are organized similar to a limited partnership, in which a general partner (or managing member) make the most relevant decisions that affect the entity's economic performance, are considered to be VIEs which would require consolidation, unless the limited partners have substantive kickout or participating rights. Entities that do not qualify as VIEs are assessed for consolidation under the voting interest model.

Under the VIE model, an entity is deemed to be the primary beneficiary of a VIE if it holds a controlling financial interest. A controlling financial interest is defined as (a) the power to direct the activities of a VIE that most significantly affect the entity's economic performance and (b) the obligation to absorb losses of the entity or the right to receive benefits from the entity that could potentially be significant to the VIE. Management determines whether the Company is the primary beneficiary of a VIE at the time it

becomes involved with a VIE and reconsiders that conclusion at each reporting date. This analysis includes an evaluation of the Company's control rights, as well as the economic interests that the Company holds in the VIE, including indirectly through related parties. As a result of the Business Combination, the Company consolidates MSP Recovery, LLC under the VIE model.

Estimates and Assumptions

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting periods. Actual results could differ from the Company's estimates. Estimates are periodically reviewed considering changes in circumstances, facts and experience. Changes in estimates are recorded in the period in which they become known. Significant estimates and assumptions reflected in these consolidated financial statements include but are not limited to Claims recovery income and Claims recovery service income recognition, recoverability of long-lived assets and cost of Claims recoveries.

Segments

Operating segments are defined as components of an entity for which separate financial information is available and regularly reviewed by the chief operating decision maker ("CODM"). The Company manages its operations as a single segment for the purposes of assessing performance and making decisions. The Company's CODM is its Chief Executive Officer. The Company has determined that it operates in one operating segment and one reportable segment, as the CODM reviews financial information presented on a consolidated basis for purposes of making operating decisions, allocating resources, and evaluating financial performance. In addition, all of the Company's revenues and long-lived assets are attributable primarily to operations in the United States and Puerto Rico for all periods presented.

Concentration of credit risk and Off-Balance Sheet Risk

Cash and cash equivalents and affiliate receivable are financial instruments that are potentially subject to concentrations of credit risk. See *Note 14, Related Party*, for disclosure of affiliate receivables. The Company's cash and cash equivalents and restricted cash are deposited in accounts at large financial institutions, and amounts may exceed federally insured limits. The Company believes it is not exposed to significant credit risk due to the financial strength of the depository institutions in which the cash and cash equivalents are held. The Company has no other financial instruments with off-balance-sheet risk of loss.

Cash and Cash Equivalents and Restricted Cash

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

Restricted Cash consists of cash held in escrow related to the Prepaid Forward Agreement with CF. See *Note 17, Derivative Liability*, for more information on the Prepaid Forward Agreement.

Fair Value Measurements

The Company applies the provisions of Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, for fair value measurements of financial assets and financial liabilities and for fair value measurements of non-financial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company also applied the provisions of the subtopic to fair value measurements of non-financial assets and non-financial liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis. The subtopic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The subtopic also establishes a framework for measuring fair value and expands disclosures about fair value measurements. The fair value framework requires the Company to categorize certain assets and liabilities into three levels, based upon the assumptions used to price those assets or liabilities. The three levels are defined as follows:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Quoted prices for similar assets and liabilities in active markets or inputs that are observable.

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The Company has determined the estimated fair value of its financial instruments based on appropriate valuation methodologies; however, for Level 2 and Level 3 inputs considerable judgment is required to develop these estimates. Accordingly, these estimated fair values are not necessarily indicative of the amounts the Company could realize in a current market exchange. The estimated fair values can be materially affected by using different assumptions or methodologies. The methods and assumptions used in estimating the fair values of financial instruments are based on carrying values and future cash flows. As of December 31, 2022 and December 31, 2021, the Company did not hold any Level 2 or Level 3 assets or liabilities.

Cash and cash equivalents and restricted cash are stated at cost, which approximates their fair value. The carrying amounts reported in the balance sheets for affiliate receivable, accounts payable, affiliate payable and accrued liabilities approximate fair value, due to their short-term maturities.

Outstanding borrowings that qualify as financial instruments are carried at cost, which approximates their fair value as of December 31, 2022 and December 31, 2021.

Equity Method Investments

Equity investments that are not consolidated, but over which the Company exercises significant influence, are accounted for in accordance with ASC 323, "Investments—Equity Method and Joint Ventures" ("ASC 323"). Whether or not the Company exercises significant influence with respect to an investee company depends on an evaluation of several factors including, among others, representation on the investee company's board of directors and ownership level. An entity is presumptively assumed to have significant influence in a corporation when it holds 20% or more of the voting stock of the investee company, or at a lower level (e.g., 3% to 5%) for entities that track separate members capital accounts.

Under the equity method of accounting, an investee company's accounts are not reflected within the Company's consolidated balance sheets and statements of operations; however, the Company's share of the earnings or losses of the investee company is reflected in the caption "Other income" in the consolidated statements of operations. The Company's carrying value in equity method investee companies is not reflected in the Company's consolidated balance sheets as of December 31, 2022 or December 31, 2021 as the carrying value is zero. When the Company's carrying value in an equity method investee company is reduced to zero, no further losses are recorded in the Company's consolidated financial statements unless the Company has guaranteed obligations of the investee company or has committed additional funding. When the investee company subsequently reports income, the Company will not record its share of such income until it equals the amount of its share of losses not previously recognized.

Property, Plant and Equipment

Property and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Major expenditures for property and equipment and those that substantially increase useful lives are capitalized. When assets are sold or otherwise disposed of, costs and related accumulated depreciation are removed from the financial statements and any resulting gains or losses are included in general and administrative expenses within our consolidated statements of operations.

The Company provides for depreciation and amortization on property and equipment using the straight-line method to allocate the cost of depreciable assets over their estimated lives as follows:

Office and Computer Equipment	3 years
Furniture and Fixtures	3 years
Leasehold Improvements	Lesser of lease term or estimated life

Internal Use Software

Internal-use software development costs incurred in the preliminary project stage are expensed as incurred; costs incurred in the application and development stage, which meet the capitalization criteria, are capitalized and amortized on a straight-line basis over the estimated useful life of the asset and costs incurred in the post-implementation/operations stage are expensed as incurred. The estimated useful life for development costs capitalized as of December 31, 2022 and 2021 is five years. Further, internal and external costs incurred in connection with upgrades or enhancements are also evaluated for capitalization. If the software upgrade results in an additional functionality, costs are capitalized; if the upgrade only extends the useful life, it is expensed as occurred.

Intangible assets

In certain of its CCRAAs, the Company makes upfront payments to acquire Claims recovery rights from secondary payers, such as health plans, managed service organizations, providers or medical services and independent physicians' associations. The Company recognizes intangible assets for costs incurred up front to acquire Claims recovery rights from various assignors.

The Company amortizes capitalized costs associated with CCRAAs over 8 years, based on the typical expected timing to pursue recovery through litigation, including through potential appeals.

As part of the Business Combination, the Company acquired rights to Claims recovery cash flows. As a result of this purchase and the guarantee obligation as noted in Note 10, *Variable Interest Entities*, the Company consolidated the entity which holds these Claim rights. Upon consolidation, these Claims rights were accounted for under ASC 350 similar to other CCRAAs the Company holds. As such these assets are held at cost, net of amortization.

The Company evaluates these assets for impairment whenever events or changes in circumstances indicate that the carrying value of the asset may not be recoverable. If the estimated future cash flows (undiscounted and without interest charges) from the use of an asset group are less than the carrying value, a write-down would be recorded to reduce the related asset group to its estimated fair value. There were no impairment indicators in the years ended December 31, 2022, 2021 and 2020.

Leases

Leases entered into by the Company, in which substantially all the benefits and risk of ownership are transferred to the Company, are recorded as obligations under leases. Leases that meet one of the finance lease criteria are classified as finance leases, while all others are classified as operating leases. The Company determines if an arrangement is a lease at inception and has made an accounting policy election not to recognize right of use assets and lease liabilities that arise from short term lease as defined as leases with initial terms not in excess of 12 months. As of December 31, 2022, the Company did not have any leases in excess of 12 months. See Note 8, *Short Term Leases*, for more information.

Non-controlling Interests

As part of the Business Combination and described in *Note 1, Description of Business*, the Company became the managing member of MSP Recovery, LLC, which is consolidated as the Company controls the operating decisions of MSP Recovery, LLC. The non-controlling interest relates to the Up-C Units that are convertible into Class A Common Stock of the Company at the discretion of the holder of the Up-C Unit. The Up-C Unit holders retained approximately 99.76% of the economic ownership percentage of the Company as of the Closing Date. The non-controlling interest is classified as permanent equity within the consolidated balance sheet of the Company. As of December 31, 2022, based on the Class A common stock issuances during the period, the non-controlling interest of Class V shareholders was 97.70%.

Changes in the Company's ownership interest in MSP Recovery, LLC, due to Class V shareholders converting their shares to Class A, are accounted for as equity transactions. Each issuance of the Company's Class A Common Stock requires a corresponding issuance of MSP Recovery, LLC units to the Company. The issuance would result in a change in ownership and would reduce the balance of non-controlling interest and increase the balance of additional paid-in capital.

Impairment of Long-Lived Assets

The Company evaluates long-lived assets, such as property and equipment, including capitalized software costs, and finite-lived intangibles such as Claims recovery rights, for impairment whenever events or changes in circumstances indicate that the carrying value of an asset or asset group may not be recoverable. If the estimated future cash flows (undiscounted and without interest charges) from the use of an asset group are less than the carrying value, a write-down would be recorded to reduce the related asset group to its estimated fair value. There were no impairment indicators in the year ended December 31, 2022, 2021 and 2020.

Claims Recovery

The Company's primary income-producing activities are associated with the pursuit and recovery of proceeds related to Claims recovery rights that the Company obtains through CCRAs, in which it becomes the owner of those rights. As a result, such income is not generated from the transfer of control of goods or services to customers, but from the proceeds realized from perfection of Claims recoveries from rights the Company holds outright. The Company also generates revenue by providing Claims recovery services to other entities outside of the Company.

Claims recovery income

The Company recognizes Claims recovery income based on a gain contingency model – that is, when the amounts are reasonably certain of collection. This typically occurs upon reaching a binding settlement or arbitration with the counterparty or when the legal proceedings, including any appellate process, are resolved.

In some cases, the Company owes an additional payment to the original assignor in connection with the realized value of the recovery right. Claims recovery income is recognized on a gross basis, as the Company is entitled to the full value of recovery proceeds, and makes a payment to the original assignor similar to a royalty arrangement. Such payments to prior owners are recognized as cost of Claims recovery in the same period the Claims recovery income is recognized.

When the Company becomes entitled to recovery proceeds from the settlement of a Claim recovery pursuit or proceeding, it recognizes the amount in accounts receivable.

Claims recovery service income, ASC 606, Revenue from Contracts with Customers

The guidance under ASC 606, Revenue from Contracts with Customers, provides that an entity should apply the following steps: (1) identify the contract with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when, or as, the entity satisfies a performance obligation.

The Company derives revenues from contracts with customers primarily from Claims recovery services arrangements ("Claims recovery services"). Claims recovery services include services to related parties or third parties to assist those entities with pursuit of Claims recovery rights. The Company has determined it has a single performance obligation for the series of daily activities that comprise Claims recovery services, which are recognized over time using a time-based progress measure and are typically based on (1) budgeted expenses for the current month with an adjustment for the variance between budget and actual expenses from the prior month or (2) on

a contingent basis dependent on actual settlements or resolved litigation. Amounts estimated and recognized, but not yet fully settled or resolved as part of litigation are recognized as contract assets. There were no contract assets on December 31, 2022 or December 31, 2021, as amounts associated with unresolved litigation were fully constrained.

Claims recovery services are generally paid in advance on a monthly basis. The Company did not recognize any material revenue for the year ended December 31, 2022 and 2021 for performance obligations that were fully satisfied in previous periods.

For the year ended December 31, 2022 and 2021, the majority of the Company's Claims recovery service income was related to a servicing agreement with VRM MSP, which was entered into on March 27, 2018. As part of the Business Combination, the Company acquired rights to cash flows in the assets, after certain required returns to VRM MSP, that had been part of the servicing agreement. As part of this acquisition, the Company no longer receives service income from this agreement and consolidates the entity in which the Company acquired rights to cash flow in the assets as outlined in Note 4, *Asset Acquisitions*. For the year ended December 31, 2022, the Company also recognized \$5.0 million of servicing income related to a specific contract where the performance obligations were completed during the year.

The Company does not have material unfulfilled performance obligation balances for contracts with an original length greater than one year in any years presented. Additionally, the Company does not have material costs related to obtaining a Claims recovery service contract with amortization periods greater than one year for any period presented.

The Company applies ASC 606 utilizing the following allowable exemptions or practical expedients:

- Exemption to not disclose the unfulfilled performance obligation balance for contracts with an original length of one year or less.
- Practical expedient to recognize the incremental costs of obtaining a contract as an expense when incurred if the amortization period of the asset that the entity otherwise would have recognized is one year or less.
- Election to present revenue net of sales taxes and other similar taxes, if any.
- Practical expedient not requiring the entity to adjust the promised amount of consideration for the effects of a significant financing component if the entity expects, at contract inception, that the period between when the entity transfers a promised good or service to a customer and when the customer pays for that good or service will be one year or less.

Transfers of Claims Cost Recovery Rights to Others

In some cases, the Company has entered into arrangements to transfer CCRA's or rights to proceeds from CCRA's to other parties. The Company evaluates whether such transfers are sales of nonfinancial assets, sales of future revenues treated as debt, in-kind contributions to equity method investees, or other types of arrangements.

When they are treated as sales of nonfinancial assets, the Company recognizes a gain on the sale when control transfers to the counterparty based on the difference between the fair value of consideration (including cash) received and the recognized carrying value of the CCRA's. In some cases, such sales include variable consideration in the form of payments that will be made only upon achievement of certain recoveries or based on a percentage of actual recoveries. The Company estimates and constrains the amounts that will ultimately be realized based on these variable payment terms and includes those amounts in the determination of gain or loss; the gain or loss is subsequently updated based on changes in those estimates.

In other cases, such transfers are considered to be sales of future revenue that are debt-like in nature. These arrangements are recognized as debt based on the proceeds received, and are imputed an interest rate based on the expected timing and amount of payments to achieve contractual hurdles. These are subject to revisions of estimates of that timing and amount based on the contractual provisions and the Company's assumptions from changes in facts and circumstances. Such changes are reflected through revision of the imputed interest rate on a cumulative catch-up basis.

Cost of Claims Recoveries

Costs of Claims recoveries consist of all directly attributable costs specifically associated with Claims processing activities, including contingent payments to assignors (i.e., settlement expenses).

Claims amortization expense

Claims amortization expense includes amortization of CCRA's acquired as part of the business combination, shown as Intangibles, net in the consolidated balance sheets, and CCRA intangible assets for which the Company made upfront payments for Claims recovery rights. For further details on CCRA's see Note 7, *Intangible Assets, Net*.

Income Taxes

Our income tax expense, deferred tax assets and liabilities, and reserves for unrecognized tax benefits reflect management's best assessment of estimated current and future taxes to be paid. As a result of the Business Combination, the Company became the sole

managing member of MSP Recovery, LLC, which is treated as a partnership for U.S. federal, state and local income tax purposes. As a partnership, MSP Recovery, LLC is not subject to U.S. federal and certain state and local income taxes. Any taxable income or loss generated by MSP Recovery, LLC is passed through to and included in the taxable income or loss of its partners, including MSP Recovery, Inc. The Company is subject to U.S. federal income taxes, in addition to state and local income taxes, with respect to the Company's allocable share of income of MSP Recovery, LLC.

The Company's deferred tax balances reflect the impact of temporary differences between the carrying amount of assets and liabilities and the Company's tax basis. The balances are stated at the tax rates in effect when the temporary differences are expected to be recovered or settled. The Company reviewed the anticipated future realization of the tax benefit of the Company's existing deferred tax assets and concluded that it is more likely than not that all of the deferred tax assets will not be realized in the future.

Comprehensive Income (Loss)

The Company has no components of other comprehensive income (loss). As such, net loss equates to comprehensive income (loss) for all periods presented in this report.

Recent Accounting Pronouncements

New Accounting Pronouncements Recently Adopted

In February 2016, the FASB issued ASU 2016-02, *Leases*, to increase transparency and comparability among organizations by recognizing right of use assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. In July 2018, ASU 2018-10, *Codification Improvements to ASC 2016-02, Leases*, was issued to provide more detailed guidance and additional clarification for implementing ASU 2016-02. Furthermore, in July 2018, the FASB issued ASU 2018-11, *Leases: Targeted Improvements*, which provides an optional transition method in addition to the existing modified retrospective transition method by allowing a cumulative effect adjustment to the opening balance of retained earnings in the period of adoption. Furthermore, in March 2020, ASU 2020-03, *Codification Improvements to Financial Instruments, Leases*, was issued to provide more detailed guidance and additional clarification for implementing ASU 2016-02. Additionally, on June 3, 2020, the FASB deferred by one year the effective date of the new leases standard for private companies, private not-for-profits and public not-for-profits that have not yet issued (or made available for issuance) financial statements reflecting the new standard. Furthermore, in June 2020, ASU 2020-05, *Revenue from Contracts with Customers and Leases*, was issued to defer effective dates of adoption of the new leasing standard for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. The Company adopted this guidance utilizing the cumulative catch-up method with an effective date of January 1, 2022 and it had no material impact on our consolidated financial statements. The Company has made an accounting policy election to not to recognize right of use assets and lease liabilities that arise from short term lease as defined as leases with initial terms not in excess of 12 months. As of December 31, 2022, the Company did not have any leases in excess of 12 months. See Note 8, *Short Term Leases*, for more information.

ASU 2019-12, *Simplifying the Accounting for Income Taxes (Topic 740)*. In December 2019, the FASB issued ASU 2019-12, *Simplifying the Accounting for Income Taxes (Topic 740)*. This standard simplifies the accounting for income taxes by eliminating certain exceptions to the guidance in ASC 740 related to the approach for intra-period tax allocation, the methodology for calculating income taxes in an interim period and the recognition of deferred tax liabilities for outside basis differences. The standard also simplifies aspects of the accounting for franchise taxes and enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The standard is effective for public companies for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2021. The Company adopted this guidance on January 1, 2022 and it had no material impact on our consolidated financial statements.

ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. In March 2020, the FASB issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. The amendments in this Update provide optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. This standard is effective for all entities as of March 12, 2020 through December 31, 2022. Early adoption is permitted. The Company adopted this guidance on January 1, 2022 and it had no material impact on our consolidated financial statements.

ASU 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity*. On August 5, 2020, the FASB issued ASU 2020-06, *Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity*. The amendments simplify the accounting for certain financial instruments with characteristics of liabilities and equity, including convertible instruments and contracts on an entity's own equity. The standard is effective for public companies for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2021. Early adoption is permitted. The Company adopted this guidance on January 1, 2022 and it had no material impact on our consolidated financial statements.

ASU 2022-03, *Fair Value Measurement (Topic 820) - Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions*. On June 30, 2022, the FASB issued ASU 2022-03, *Fair Value Measurement (Topic 820) - Fair Value Measurement of*

Equity Securities Subject to Contractual Sale Restrictions. The amendment clarifies that contractual sale restrictions should not be considered when measuring the equity security's fair value and prohibits an entity from recognizing a contractual sale restriction as a separate unit of account. The standard is effective for public companies for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2024. Early adoption is permitted. The Company adopted this guidance in June 2022, which resulted in the Company recognizing the assets acquired as part of the Business Combination at values that were not discounted for contractual sale restrictions, which had a material impact on the Company's consolidated financial statements in relation to the asset acquisitions as noted in Note 4, *Asset Acquisitions*.

New Accounting Pronouncements Issued but Not Yet Adopted

ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses*. In 2016 and subsequently, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments including subsequent amendments to the initial guidance*; ASU 2019-04, *Codification Improvements to Topic 326, Financial Instruments-Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments*; ASU 2019-05, *Financial Instruments - Credit Losses (Topic 326): Targeted Transition Relief*; ASU 2019-11, *Codification Improvements to Topic 326, Financial Instruments - Credit Losses*; ASU 326, and ASU 2022-02, *Financial Instruments - Credit Losses (Topic 326): Troubled Debt Restructurings and Vintage Disclosures* and related amendments require credit losses on financial instruments measured at amortized cost basis to be presented at the net amount expected to be collected, replacing the current incurred loss approach with an expected loss methodology that is referred to as CECL. This ASU is effective for fiscal years beginning after December 15, 2022, and interim periods within those fiscal years. While the Company does not anticipate the implementation would have a material effect on the Company's consolidated operating results, cash flows, financial condition and related disclosures, the Company is currently evaluating the effect that implementation of this standard will have.

Note 3. BUSINESS COMBINATION

On May 23, 2022, MSP Recovery, Inc. consummated the Business Combination pursuant to the MIPA as noted in Note 1.

As a result of the closing of the Business Combination (the "Closing"), the Company is organized in an "Up-C" structure in which all of the business of Legacy MSP and its subsidiaries is held directly or indirectly by the Company, the Company is the managing member, consolidates Legacy MSP and the Company owns all of the voting economic Class A Units and the Members and their designees own all of the non-voting economic Class B Units in accordance with the terms of the first amended and restated limited liability company agreement of the Company. Each Up-C Unit may be exchanged for either, at the Company's option, (a) cash or (b) one share of Class A common stock, par value \$0.0001, of the Company ("Class A Common Stock"), subject to the provisions set forth in the LLC Agreement. The aggregate consideration paid to the Members (or their designees) at the Closing consisted of (i) 3,250,000,000 Units and (ii) rights to receive payments under the Tax Receivable Agreement ("TRA"). Of the 3,250,000,000 Units, 3,154,473,292 Units were issued in connection with the Closing and 95,526,708 Units were designated to the Company and Opco for cancellation ("Canceled Units"). Since the Closing, the Company has issued 50,022,000 Up-C Units to certain designated persons and intends to further issue shares of Class A Common Stock in respect of transaction-related bonuses or certain other designated persons, which together with the 50,022,000 Up-C Units would be equivalent in number to the Canceled Units.

In connection with the Closing, the Company changed its name from "Lionheart Acquisition Corporation II" to "MSP Recovery, Inc." The Business Combination is accounted for as a reverse recapitalization in accordance with GAAP. Under this method of accounting, the Company is treated as the acquirer for financial statement reporting purposes. The reverse recapitalization was treated as the equivalent of Legacy MSP issuing stock for the net assets of LCAP, accompanied by a recapitalization. The net assets of LCAP are stated at historical cost, with no goodwill or other intangible assets recorded.

The Company received net proceeds in the business combination transaction of approximately \$23.4 million, which includes the restricted cash received as part of FEF shares as defined in Note 17, *Derivative Liability*. The Company incurred direct and incremental costs of approximately \$79.2 million related to the Business Combination, which consisted primarily of investment banking, legal, accounting and other professional fees. These transaction-related costs were recorded as a reduction of additional paid-in capital in the consolidated balance sheets.

Warrants

As part of the business combination transaction, the Company assumed the liability related to the LCAP public warrants ("Public Warrants") of \$12.5 million. Pursuant to the terms of the Existing Warrant Agreement, and after giving effect to the issuance of the New Warrants, as defined below, the exercise price of the Public Warrants decreased to \$0.0001 per share of Class A Common Stock. During the period from the Closing Date to December 31, 2022, approximately 8.5 million warrants of the original 11.8 million warrants had been exercised. For the year ended December 31, 2022, the fair value of the warrants increased resulting in other expense of \$2.9 million. Following anti-dilution adjustments made in connection with the Business Combination, the Public Warrants have an exercise price of \$0.0001 per share, which have become exercisable as of 10 days after closing of the Business Combination, on a cashless basis.

Additionally, in connection with the Business Combination, the Company declared the New Warrant Dividend comprising approximately 1,028 million New Warrants payable to the holders of record of the Class A Common Stock as of the close of business on the Closing Date, after giving effect to the waiver of the right, title and interest in, to or under, participation in any such dividend by the Members, on behalf of themselves and any of their designees. The New Warrants will be exercisable 30 days following the Closing Date until their expiration date, which will be the fifth anniversary of the Closing Date or earlier redemption. The record date for the determination of the holders of record of the outstanding shares of Class A Common Stock entitled to receive the New Warrant Dividend was the close of business on the Closing Date. Pursuant to the terms of the LLC Agreement, at least twice a month, to the extent any New Warrants have been exercised in accordance with their terms, the Company is required to purchase from the MSP Principals, proportionately, the number of Up-C Units or shares of Class A Common Stock owned by such MSP Principal equal to the Aggregate Exercise Price divided by the Warrant Exercise Price in exchange for the Aggregate Exercise Price. The Company determined that the New Warrants instruments meet the equity scope exception in ASC 815 to be classified in stockholders' equity, and as the repurchase right noted above has a mirrored value designed to offset the New Warrants, if exercised would be an equity only transaction. The New Warrants are each exercisable for one share of Class A Common Stock at an exercise price of \$11.50 per share and will be subject to certain anti-dilution adjustments and become exercisable 30 days following the Closing, expiring five years from the date of Closing.

Public Warrants and New Warrants are currently listed on Nasdaq under the symbols "LIFWZ" and "LIFWW", respectively.

Tax Receivable Agreement

In connection with the Business Combination, the Company also entered into a TRA. Pursuant to the TRA, the Company is required to pay the sellers 85% of the amount of tax benefits that the Company actually realizes as a result of (i) the Company's direct and indirect allocable share of existing tax basis acquired in the Business Combination, (ii) increases in the Company's allocable share of existing tax basis and tax basis adjustments that will increase the tax basis of the tangible and intangible assets of the Company as a result of the Business Combination and as a result of sales or exchanges of Up-C Units for cash or shares of Class A Common Stock, and (iii) certain other tax benefits related to entering into the TRA, including tax benefits attributable to payments under the TRA.

During the year ended December 31, 2022, the Company's TRA liability associated with the allocable share of existing tax basis acquired in the Business Combination would give rise to a TRA liability of \$2.5 million. Furthermore, during the year ended December 31, 2022, 6,493,798 of Class V units were exchanged for Class A common stock of the Company, which will result in an increase in its share of the tax basis in the net assets of MSP Recovery, LLC; these exchanges will not give rise to a TRA liability due to the Company not receiving a tax basis adjustment that increased the tax basis of the tangible and intangible assets as a result of a limitation on the partnership tax allocations of built-in gains and losses.

The Company has assessed the realizability of the net deferred tax assets and, in that analysis, has considered the relevant positive and negative evidence available to determine whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The Company has recorded a full valuation allowance against the deferred tax assets as of December 31, 2022, which will be maintained until there is sufficient evidence to support the reversal of all or some portion of these allowances. As the tax benefits associated with the TRA have not been recognized, based on estimates of future taxable income, the Company has concluded it is not probable to recognize any tax receivable agreement liability. If the valuation allowance recorded against the deferred tax assets is released in a future period, the Tax Receivable Agreement liability may be considered probable at that time and recorded within earnings.

Non-Controlling interest

As a result of the Business Combination, the Company reflects non-controlling interests due to the Up-C structure. The Company holds all of the voting Class A Units of Opco, whereas the Members (or their designees) hold all of the non-voting economic Class B Units of Opco (these Class B Units represent the non-controlling interest in the Company). The ownership percentage of Class V Common Stock held in the Company by the Members (or their designees) will be equivalent to the number of Class B Units held in the Company, and as such, reflects non-controlling interest in the Company, which is equivalent to the Class V Common Stock ownership percentage. See *Note 12, Noncontrolling Interest*, for more information on ownership interests in the Company.

Nomura Promissory Note

On May 27, 2022, the Company issued an unsecured promissory note to Nomura in a principal amount of approximately \$24.5 million related to advisory fees and deferred underwriting fees and expenses that became due and payable by the Company to Nomura, in connection with the consummation of the Business Combination. On April 12, 2023, the Company amended the promissory note, increasing the principal amount to approximately \$26.2 million and extending the maturity date of the promissory note to September 30, 2024. The amended note carries an interest rate of 16% per annum and is payable in kind or in cash, at the Company's discretion, every 30 calendar days after April 12, 2023. Upon two days prior written notice to Nomura, the Company may prepay all or any portion of the then outstanding principal amount under the promissory note together with all accrued and unpaid interest thereon. The balance of the unsecured promissory note and related interest are included within Claims financing obligations and notes payable in the consolidated balance sheet.

Note 4. ASSET ACQUISITIONS

On May 23, 2022 as part of the closing of the Business Combination, the Company acquired assets through the issuance of Up-C units. In exchange for approximately 196.6 million Up-C units, the Company acquired CCRAs previously held by Series MRCS, an affiliate of MSP. The CCRAs are included as Intangible Assets, net in the consolidated balance sheet.

The CCRAs are held at cost, which was determined using the opening market price of the Company's Class A shares as of the day subsequent to the Closing Date discounted by 4.5% for lack of marketability due to timing before shares are sellable. The Company determined the appropriate measurement date was the opening of the first trading day of the Class A shares after the Closing Date as this reflects the equivalent value of the Up-C units provided to the sellers. The Up-C units provided to the sellers did not include New Warrants and as such the Class A shares value excluding the New Warrants was reflected at the Close of the first trading day after the Closing Date. The CCRAs are treated as finite life intangible assets similar to other CCRAs that the Company has acquired and have a useful life of 8 years. For further details on this CCRA acquisition, see *Note 7, Intangible Assets, Net*.

On May 23, 2022 as part of the closing of the Business Combination, the Company acquired assets through the issuance of Up-C units. In exchange for approximately 356.8 million Up-C units, the Company acquired the rights to receive the distributable net proceeds (the "Proceeds") of a portfolio of Claims owned by VRM MSP, a Delaware limited liability company and joint investment vehicle of VRM and Series MRCS. Under this asset acquisition structure, the Company determined that the arrangements to acquire the rights to proceeds from certain Claims recovery rights along with the guarantee of the VRM Full Return (noted and defined below) result in the Company consolidating the Series. Upon consolidation, the Company included the value of the Up-C units provided and the value of the guarantee as Intangible Assets, net in the consolidated balance sheet. These are held at cost and treated as finite life intangible assets similar to other CCRAs that the Company has acquired and have a useful life of 8 years.

In connection with such transaction the Company agreed to pay Virage an amount equal to the contributions by Virage to VRM MSP plus an annual rate of return of 20% (the "VRM Full Return"). Pursuant to the terms of the agreement with Virage, such amount is payable exclusively by any of the following means (or any combination thereof): (a) the Proceeds, (b) a sale of certain reserved shares of Messrs. John Ruiz and Frank Quesada, and the delivery of the resulting net cash proceeds thereof to VRM, or (c) a sale of shares by the Company and delivery of the net cash proceeds thereof to VRM. The amount of the VRM Full Return was \$787.9 million as of December 31, 2022. Upon payment of the VRM Full Return, VRM and Series MRCS would assign and transfer to the Company their respective rights to receive all Proceeds. As the Company incurred debt related to the VRM Full Return as included in the guarantee obligation within the consolidated balance sheet, this value was included in the purchase price and is included in Intangible Assets, net, in the consolidated balance sheet for the full value of the VRM Full Return at the acquisition date. Any subsequent interest accrual is reflected within interest expense in the consolidated statement of operations. Separately, the VRM Full Return was guaranteed by Messrs. John Ruiz and Frank Quesada for any remaining required payment of the VRM Full Return as of May 23, 2023.

On April 12, 2023, the Company entered into an amendment (the "Virage MTA Amendment") to the agreement with Virage pursuant to which the payment date for the VRM Full Return was extended from May 23, 2023 until September 30, 2024, subject to acceleration upon certain triggering events. See *Note 19, Subsequent Events*.

Note 5. INVESTMENT IN EQUITY METHOD INVESTEEES

The Company holds three investments which are accounted for using the equity method: MAO-MSO Recovery II LLC Series PMPI ("Series PMPI"), MAO-MSO Recovery LLC and MAO-MSO Recovery II LLC (both collectively the "MAO-MSO entities").

Series PMPI is a series of MAO-MSO Recovery II LLC. The Company exercises significant influence over the operating and financial activities of Series PMPI, but does not exercise control of the entity. In accordance with Series PMPI's operating agreement, the controlling member is entitled to a preferred return of 20% per annum (the "Preferred Return"). Once the Preferred Return has been met, the controlling member is entitled to 50% of Claims recoveries by PMPI. The noncontrolling member is allocated 100% of the costs of PMPI. Since the Preferred Return exceeds the total members' equity of PMPI as of both December 31, 2022 and December 31, 2021, the value of the equity method investment in the consolidated balance sheet is \$0.

The MAO-MSO entities are Delaware limited liability companies formed as master series entities whose central operations are to form other series legal entities that will hold and pursue Claims recovery rights. The MAO-MSO entities are not designed to hold or pursue Claims recoveries themselves. The Company holds a 50% economic interest in both entities, and has significant influence through its equity investment, but does not control either entity. As equity method investments, the Company recognizes its proportionate share of net earnings or losses as equity earnings in Other income. The activity of these entities has been insignificant for the years ended December 31, 2022, 2021 and 2020. Since the Company did not make a contribution to the MAO-MSO entities and the entities have recorded losses, the value of the equity method investment in the consolidated balance sheets is \$0 as of both December 31, 2022 and December 31, 2021.

Summary financial information for equity accounted investees, not adjusted for the percentage ownership of the Company is as follows:

Series PMPI (in thousands)	December 31, 2022	For the year ended, December 31, 2021	December 31, 2020
Revenue	22	1	34
Amortization	2,000	2,000	2,000
Other expenses	8	-	20
Profit (Loss)	(1,986)	(1,999)	(1,986)

Series PMPI (in thousands)	December 31, 2022	December 31, 2021
Total Assets	\$ 3,341	5,390
Total Liabilities	\$ 274	266

Note 6. PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, net consist of the following:

(In thousands)	December 31, 2022	December 31, 2021
Office and computer equipment	\$ 430	\$ 356
Leasehold improvements	113	113
Internally developed software	4,050	1,020
Other software	68	66
Property, plant and equipment, gross	\$ 4,661	\$ 1,555
Less: accumulated depreciation and amortization of software	(1,229)	(805)
Property, plant and equipment, net	\$ 3,432	\$ 750

For the years ended December 31, 2022, 2021 and 2020, depreciation expense and amortization expense was \$424 thousand, \$343 thousand and \$235 thousand, respectively.

Note 7. INTANGIBLE ASSETS, NET

During the year ended December 31, 2022, the Company acquired CCRA's held by Series MRCS and consolidated CCRA's held by the Series. The assets were acquired through the issuance of equity as part of the Business Combination. The assets are held at cost and treated as a finite intangible asset with a useful life of 8 years.

Intangible assets, net consists of the following:

(in thousands)	December 31, 2022	December 31, 2021
Intangible assets, gross	\$ 3,630,823	\$ 84,955
Accumulated amortization	(267,667)	(737)
Net	\$ 3,363,156	\$ 84,218

During the year ended December 31, 2022, in addition to the CCRA's acquired as part of the Business Combination the Company purchased \$64.8 million of CCRA's included in Intangible assets, net, of which \$2.7 million was paid in cash, \$11.0 million was paid through Class A Common Stock issuance and \$51.2 million is recorded within Other Current Liabilities in the consolidated balance sheet as of December 31, 2022 and will be paid through the issuance of Class A Common Stock. The payment is due in the second quarter of 2023. For the CCRA's acquired through equity issuance, the Company is required to provide additional shares or cash if the value of the shares provided is not equal to \$10.0 million or greater within 1 year of issuance. As such, the Company recorded a liability of \$8.7 million within Other current liabilities in the consolidated balance sheet for the difference between \$10.0 million and the fair value of the shares as of December 31, 2022.

For the years ended December 31, 2022, 2021 and 2020, Claims amortization expense was \$266.9 million, \$164 thousand, and \$125 thousand, respectively.

Future amortization for CCRA's is expected to be as follows:

(in thousands)	CCRA's Amortization
2023	\$ 453,853
2024	453,853
2025	453,780
2026	453,728
2027	453,728
Thereafter	1,094,214
Total	\$ 3,363,156

Note 8. SHORT TERM LEASES

The Company leases office space under a non-cancellable operating lease expiring November 2023. In addition, the Company rents an office space from the Law Firm, which is on a month-to-month basis and therefore is not included in the future minimum lease payments below. Rent expense for the years ended December 31, 2022, 2021 and 2020 was \$0.8 million, \$0.8 million and \$1.5 million, respectively. With the adoption of ASC 842 as noted in Note 2, *Basis of Presentation and Summary of Significant Accounting Policies*, the Company has made an accounting policy election to capitalize leases with initial terms in excess of 12 months. As of December 31, 2022, the Company did not have any leases in excess of 12 months.

The future minimum lease payments under non-cancellable operating leases as of December 31, 2022 for the next five years and thereafter are as follows:

<i>(In thousands)</i>	Lease Payments	
Year Ending December 31,		
2023 ⁽¹⁾	\$	217
Total	\$	217

⁽¹⁾ Operating lease expires before or during the year ending December 31, 2023.

Note 9. INCOME TAX

The Company holds an economic interest in MSP Recovery, LLC and consolidates its financial position and results. The remaining ownership of MSP Recovery, LLC not held by the Company is considered a noncontrolling interest. MSP Recovery, LLC is treated as a partnership for income tax reporting and its members, including the Company, are liable for federal, state, and local income taxes based on their share of the LLC's taxable income.

There was no provision for income tax for the years ended December 31, 2022, 2021, and 2020.

A reconciliation of the United States statutory income tax rate to the Company's effective tax rate for the year ended December 31, 2022, 2021, and 2020 is as follows for the years indicated:

	December 31, 2022	December 31, 2021	December 31, 2020
Federal Statutory rate	21.00 %	21 %	21 %
Noncontrolling interests/effect of pass-through entities	-20.70 %	-21 %	-21 %
Valuation allowance	-0.40 %	0 %	0 %
Other	0.10 %	0 %	0 %
Effective Income tax rate	0.00 %	0 %	0 %

Details of the Company's deferred tax assets and liabilities at December 31, 2022 and 2021 are as follows for the years indicated:

	December 31, 2022	December 31, 2021
Deferred tax assets		
Net operating loss carryforward	\$ 423	53
Investment in MSP Recovery, LLC	38,263	-
Start-up Costs	917	804
Transaction Costs	3,224	-
Total deferred tax assets	42,827	857
Valuation Allowance	-42,827	-857
Total Deferred tax assets (liability)	\$ -	-

The Company has a deferred tax asset for the difference between the financial reporting and the tax basis of its investment in MSP Recovery, LLC. The deferred tax asset above does not consider the iterative impact of the TRA liability as the entire liability has not been recorded as of December 31, 2022.

As of December 31, 2022 and 2021, the Company had \$3,854,829 and \$446,481 of U.S. gross federal and state net operating loss carryovers available to offset future taxable income, respectively.

In assessing the realization of the deferred tax assets, management considers whether it is more likely than not that some portion of all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which temporary differences representing net future deductible amounts become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. After consideration of all of the information available, management believes that significant uncertainty exists with respect to future realization of the deferred tax assets and has therefore established a full valuation allowance.

As of December 31, 2022 and 2021, the Company has not recorded any unrecognized tax benefits. The Company files income tax returns in the U.S. federal jurisdiction and Florida which remain open and subject to examination by the various taxing authorities. As of December 31, 2022, the Company's federal and state and local income tax years 2019 through 2022 remain open and are subject to examination.

Note 10. VARIABLE INTEREST ENTITIES***Investments in consolidated Variable Interest Entities***

The Company evaluates its ownership, contractual, and other interests in entities to determine if they are VIEs, if the Company has a variable interest in those entities, and the nature and extent of those interests. These evaluations are highly complex and involve management judgment and the use of estimates and assumptions based on available historical information, among other factors. Based on its evaluations, if the Company determines it is the primary beneficiary of such VIEs, it consolidates such entities into its financial statements. VIEs information below is presented on aggregate basis based on similar risk and reward characteristics and MSP's involvement with the VIEs.

The Company includes a number of entities that are determined to be VIEs and for which the common control group can direct the use of the entities' assets and resources for other purposes. The Company consolidates VIEs in which one of the combined entities is the primary beneficiary.

The assets of the consolidated VIEs may only be used to settle obligations of these VIEs and to settle any investors' ownership liquidation requests. There is no recourse to MSP for the consolidated VIEs' liabilities. The assets of the consolidated VIEs are not available to MSP's creditors.

Total assets and liabilities included in its consolidated balance sheets for these VIEs were \$2.3 billion and \$0.4 million, respectively, at December 31, 2022 and \$9.7 million and \$122.7 million, respectively, at December 31, 2021. The assets at December 31, 2022 include the Intangible Assets, net included in the Series of \$2.3 billion.

Investments in unconsolidated Variable Interest Entities

The Company is involved with VIEs in which it has investments in equity but does not consolidate because it does not have the power to direct the activities that most significantly impact their economic performance and thus is not considered the primary beneficiary of the entities. Those VIEs are reflected as equity method investments.

Total assets and liabilities for these VIEs were \$3.4 million and \$0.3 million, respectively, at December 31, 2022 and \$5.4 million and \$0.3 million, respectively, at December 31, 2021.

Generally, MSP's exposure is limited to its investment in those VIEs (see *Note 5, Investment in Equity Method Investees*). For MAO-MSO Recovery II, LLC and Series PMPI, MSP may be exposed to providing additional recovery services at its own cost if recovery proceeds allocated to it are insufficient to recover the costs of those services. MSP does not have any other exposures or any obligation to provide additional funding.

Note 11. CLAIMS FINANCING OBLIGATIONS AND NOTES PAYABLE

During the year ended December 31, 2022, the Company finalized an Amendment to Claim Proceeds Investment Agreement and a Warrant Agreement with Brickell Key Investments LP (the "Holder"), pursuant to which the parties have agreed to amend the original Claims Proceeds Investment Agreement ("CPIA") and required payment terms. The Amendment and Warrant Agreement were executed effective September 30, 2022. Pursuant to the agreements, the Company grants to the Holder the right to purchase Class A common shares in the Company (the "Class A Shares") in accordance with the terms and conditions of the Agreement. The maximum amount of Class A Shares that the Holder may purchase from the Company is 66,666,666 (the "Amount") for a purchase price equal to \$6,666.67 (\$0.0001 per Class A Share) and is payable in cash. This Warrant (the "Warrant") will expire at 5:00 p.m. (Eastern Time), on September 30, 2027 and may be exercised in whole or in part by Holder at any time prior to such date. The Holder can only sell a maximum of 15% per month of the Class A Shares obtained through the Warrant. In exchange for the Company issuing the Warrant, the amounts owed to the Holder pursuant to CPIA are amended to equal \$80 million. The Holder has the right to receive the \$80 million owed through proceeds as outlined in the CPIA, cash paid by the Company or monetization of the Warrant (through the sale of the Warrant or sale of the underlying Class A Shares). If the Holder monetizes the Warrant, the amount owed will be reduced at a measure of \$1.20 per Class A Share. In connection with the Amendment and Warrant Agreement, the Holder also executed a Stock Pledge Agreement (the "Pledge Agreement") with MSP Founders, John H. Ruiz and Frank Quesada (the "Founders"). As part of the agreement, the Founders agreed to pledge 50 million shares to secure payment of the original principal amount of the CPIA. If the Holder were to receive amounts in excess of \$80 million, the Founders would receive interest of 10% on the original principal amount of the CPIA. In addition, the Pledge Agreement provides the right to repurchase the Warrant from the Holder on or before June 30, 2023. The Founders entered into an agreement with the Company where this repurchase right has been assigned to the Company (the "Side Agreement"). The Pledge Agreement and Side Agreement were executed effective September 30, 2022. As the Company has, at its option, the ability to pay its obligation through cash proceeds or through monetization of the Warrants, the amount owed as of December 31, 2022 was included as Claims financing obligation and notes payable on the consolidated balance sheet. Also, the liability related to the remaining amounts due was recorded as \$80 million as of December 31, 2022 as the Company, at its option, has the ability to repurchase the Warrants for \$80 million on or before June 30, 2023. The resulting gain on debt extinguishment from the amendment was \$63.4 million and was recorded in Other income (expense), net within the consolidated statement of operations for the year ended December 31, 2022.

Based on Claims financing obligations and notes payable agreements, as of December 31, 2022 and December 31, 2021, the present value of amounts owed under these obligations were \$201.3 million and \$201.4 million, respectively, including unpaid interest to date of \$2.8 million and \$94.5 million, respectively. The weighted average interest rate is 6.3% based on the current book value of \$201.3 million with rates that range from 2% to 11.04%. The Company is expected to repay these obligations from cash flows from Claim recovery income or potentially through class A common stock issuances.

As of December 31, 2022, the minimum required payments on these agreements are \$354.9 million. Certain of these agreements have priority of payment regarding any proceeds until full payment of the balance due is satisfied. The maturity of the commitments range from the date sufficient Claims recoveries are received to cover the required return or in some cases by 2031.

Also, during 2020, the Company obtained funds under the Paycheck Protection Program (the “PPP Loan”) in the amount of \$1.1 million. Since the amount must be repaid unless forgiven in accordance with the Paycheck Protection Program, the Company accounted for the funds as debt under ASC 470. As of December 31, 2022 and December 31, 2021, the total amount of the PPP Loans have been forgiven.

Note 12. NONCONTROLLING INTEREST

The non-controlling interest balance primarily represents the Up-C Units of the Company held by the Members. The following table summarizes the ownership of Units in the Company as of December 31, 2022:

	Common Units	Ownership Percentage
Ownership of Class A Common Units	74,605,284	2.3 %
Ownership of Class V Common Units	3,147,979,494	97.7 %
Balance at end of period	3,222,584,778	100.0 %

The non-controlling interest holders have the right to exchange Up-C Units, at the Company's option, for (i) cash or (ii) one share of Class A Common Stock, subject to the provisions set forth in the LLC Agreement. As such, future exchanges of Up-C Units by non-controlling interest holders will result in a change in ownership and reduce or increase the amount recorded as non-controlling interest and increase or decrease additional paid-in-capital or retained earnings when the Company has positive or negative net assets, respectively. As of December 31, 2022, 6.5 million Up-C Units have exchanged into Class A shares.

In addition to the non-controlling interest related to Up-C Units, the Company also has non-controlling interests related to the Series as noted in Note 10, Variable Interest Entities, and MAO-MSO Recovery LLC Series FHCP (“FHCP”), which is a non-wholly owned subsidiary of MSP Recovery, LLC. In accordance with FHCP’s operating agreement, the noncontrolling member is entitled to a preferred return of 20% per annum (the “Preferred Return”). Once the Preferred Return has been met, the noncontrolling member is entitled to 80% of Claims recoveries by FHCP. The controlling member is allocated 100% of the costs of FHCP. Since the Preferred Return exceeds the total members’ equity of FHCP as of December 31, 2022 and December 31, 2021, the non-controlling interest also includes \$4.3 million representing the entire members’ equity of FHCP.

Note 13. COMMITMENTS AND CONTINGENCIES

The Company is subject to certain legal proceedings, Claims, investigations, and administrative proceedings in the ordinary course of its business. The Company records a provision for a liability when it is both probable that the liability has been incurred and the amount of the liability can be reasonably estimated. These provisions, if any, are reviewed and adjusted to reflect the impacts of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular case. Depending on the nature and timing of any such proceedings that may arise, an unfavorable resolution of a matter could materially affect the Company’s future consolidated results of operations, cash flows or financial position in a particular period. As of December 31, 2022, there was no material pending or threatened litigation against us.

The Company pursues Claims recoveries through settlement, arbitration and legal proceedings. The accounting policy for these activities is discussed under Claims recovery income in Note 2, *Basis of presentation and summary of significant accounting policies*.

Approximately 93% of the Company's expected recoveries arise from Claims being brought under the Medicare Secondary Payer Act private cause of action (Section 1862(b)(3)(A) of the Social Security Act (42 U.S.C. § 1395y(b)(3)(A)). This law allows the Company to pursue recoveries against primary payers for reimbursement of medical expenses that the Company's assignors paid for when primary payers (i.e., liability insurers) were responsible for payment. On May 16, 2023, Senators Tim Scott (R-SC) and Maggie Hassan (D-NH) and Representatives Brad Schneider (D-IL) and Gus Bilirakis (R-FL) introduced the Repair Abuses of MSP Payments Act (S.1607/H.R.3388) (the “RAMP Act”) in the U.S. Senate and the U.S. House of Representatives, respectively, seeking to amend the private cause of action under the Medicare Secondary Payer Act, by striking “primary plan” and inserting “group health plan” (as defined in paragraph 42 U.S.C. § 1395y(b)(1)(A)(v)).

The Medicare Secondary Payer Act’s private cause of action—a fundamental component of how the Company is able to calculate damages—incentivizes private parties, such as MSP Recovery, to pursue reimbursement of conditional payments by rewarding them with double damages. If the Medicare Secondary Payer Act is changed, or if the RAMP Act were enacted to apply retroactively, it could

significantly reduce the Company's potential recoveries and have a material adverse effect on its business, financial condition, and results of operations.

Note 14. RELATED PARTY

Loan from related parties

During the year ended December 31, 2022, the Company issued an unsecured promissory note in an aggregate principal amount of \$112.8 million (the "Promissory Note") to John H. Ruiz and Frank C. Quesada, the Company's Chief Executive Officer and director and Chief Legal Officer and director, respectively (collectively, the "MSP Principals"), to provide cash to pay transaction costs related to the Merger, pay down affiliate payable balances and provide operating cash to the Company. In addition to the amounts in the Promissory Note, at the merger date with LCAP, the MSP Principals contributed \$13.0 million through funds that had been loaned to VRM MSP to cover related service fees. The Promissory Note as well as the amount contributed at the merger date bears interest at an annual rate of 4%, payable in kind, and will mature on the four-year anniversary of the issuance. The Promissory Note is payable by the Company at any time, without prepayment penalties, fees, or other expenses. During the year ended December 31, 2022, the Company recorded \$2.7 million on interest expense related to the Promissory Note.

A portion of the proceeds under the Promissory Note in an amount equal to \$36.5 million was advanced to the Law Firm, an affiliate of certain Members, for certain operating expenses as contemplated by the Legal Services Agreement. This amount is reflected in prepaid expenses and other current assets within the consolidated balance sheets and had a balance of \$26.9 million as of December 31, 2022. The payments of Law Firm expenses are reflected in Professional fees - legal within the consolidated statement of operations. The payments are expense as incurred as the Company doesn't have recourse to these amounts, but if the Law Firm earns fees under the legal service agreements (the "Existing LSAs") noted below, the Company would not be obligated to pay these costs until the amount of fees earned were in excess of the payments of Law Firm expenses and payments the Company has made to co-counsels. As of as December 31, 2022, the Company has paid Law Firm expenses and co-counsel fees equal to \$21.9 million in excess of the fees earned under the Existing LSAs. Therefore, the Company would not be required to pay or incur expenses through cost of Claims recoveries until the amount of fees earned were in excess of the amounts already paid. As of December 31, 2022, this represents prepayments that would cover recoveries of \$109.5 million assuming the 40% fees on the half owned by the Company as fees are not incurred on the half owned by the assignors.

Legal Services – MSP Recovery Law Firm

Certain Company entities have previously entered into the Existing LSAs with the Law Firm, an affiliate of certain Members, for the recovery of Claims. Pursuant to the terms of the Existing LSAs, the Law Firm provides the Company with investigation, case management, research and legal services in the pursuit of recovery of Claims in exchange for a portion of the recovered proceeds relating to such Claims. The Existing LSAs also provide that the Law Firm serves as exclusive lead counsel for any litigation relating to such Claims. As of December 31, 2022 there was no amount due as amounts paid through the prepaid noted above had covered amounts of existing LSAs due to the Law Firm for Claim recoveries. As of December 31, 2021, \$5.5 million was due to the Law Firm and included in the consolidated balance sheets in Affiliate Payable. For the year ended December 31, 2022, \$29.7 million was included in Professional fees - Legal for expenses related to the Law Firm in the consolidated statements of operations. The amounts were largely due to share base compensation as noted below and the payment of Law Firm expenses per the related party loan as noted above. For the years ended December 31, 2021 and 2020, the amounts were de minimis. For the year ended December 31, 2022, \$405 thousand were included in cost of Claims recoveries for expenses related to the Law Firm in the consolidated statements of operations. For the years ended December 31, 2021 and 2020, no amounts were included cost of Claims recoveries for expenses related to the Law Firm in the consolidated statements of operations.

The Law Firm may also collect and/or hold cash on behalf of the Company in the ordinary course of business. As of December 31, 2022 and December 31, 2021, \$2.1 million and \$3.4 million, respectively, was due from the Law Firm and included in the consolidated balance sheets in Affiliate Receivable. In addition, the Company rents office space from the Law Firm as discussed in *Note 8, Short Term Leases*.

For the year ended December 31, 2022, the Company issued 8,022,000 Class A common stock shares to the Law Firm employees, which was deemed to be share based compensation. As such \$20.1 million of expense was included within Professional fees - Legal for expenses related to the Law Firm in the consolidated statements of operations for the year ended December 31, 2022.

MSP Recovery Aviation, LLC

The Company may make payments related to operational expenses on behalf of its affiliate, MSP Recovery Aviation, LLC ("MSP Aviation"). MSP Aviation was created to provide aircraft rental to third party customers and the Company. The Company has made payments in the periods of the financial statements only related to specifically billed flights and these rates are at or below the market rate for such services. As of both December 31, 2022 and December 31, 2021, \$153 thousand was due from MSP Aviation and included in the consolidated balance sheets in Affiliate Receivable. For the year ended December 31, 2022, \$400 thousand was included in

General and Administrative expenses related to MSP Aviation in the consolidated statements of operations. For the year ended December 31, 2021 and 2020, the amounts were de minimis.

Funds held for other entities

The Company may collect and/or hold cash on behalf of its affiliates in the ordinary course of business. As of December 31, 2022 and December 31, 2021, \$19.8 million and \$39.7 million was due to affiliates of the Company and included in the consolidated balance sheets in Affiliate Payable. These amounts were primarily due to Series MRCS, and will be repaid either through excess cash flows from operations or other financing. During the year ended December 31, 2021, the Company also entered into a note payable with Series MRCS as outlined in *Note 7, Intangible Assets, Net*. As of December 31, 2022 and December 31, 2021, the balance of the note payable was \$0.5 million and included in the consolidated balance sheets in Claims financing obligation and notes payable.

As of December 31, 2022 and December 31, 2021, there were additional receivables from other affiliates of \$148 thousand and \$92 thousand, respectively. As of December 31, 2021, \$0.4 million was due to MSP National, LLC from Series MRCS. These were included in the consolidated balance sheets in Affiliate Receivable.

VRM

Historically, MSP Recovery, LLC has received Claims recovery service income for services provided to VRM MSP. The Company concluded that VRM MSP is a related party due to ownership interests in the entity held by Series MRCS LLC. During the years ended December 31, 2022, 2021 and 2020, \$10.6 million, \$11.5 million and \$13.1 million, respectively, of Claims recovery service income was received from VRM MSP as part of the servicing agreement and was included in the consolidated statements of operations. As of the merger date, the VRM MSP servicing agreement was terminated.

Note 15. INVESTMENTS IN EQUITY SECURITIES AND OBLIGATIONS TO DELIVER SECURITIES

The Company had an outstanding obligation to provide equity securities (a “short position”) as of December 31, 2020. The short position was classified as a liability, marked-to-market and was evaluated at Level 1 for fair value. During the year ended December 31, 2021, the Company covered its short position by acquiring 100,000 equity shares of a publicly traded U.S. company for \$1.8 million, recognizing a realized loss of \$193 thousand in Other income, net in the consolidated statements of operations. As of December 31, 2022 and December 31, 2021, the Company had no investments in equity securities.

Note 16. NET LOSS PER COMMON SHARE

Basic earnings per share of Class A common stock is computed by dividing net income attributable to common shareholders by the weighted-average number of shares of Class A common stock outstanding during the period. Diluted earnings per share of Class A common stock is computed by dividing net income attributable to common shareholders adjusted for the assumed exchange of all potentially dilutive securities, by the weighted-average number of shares of Class A common stock outstanding adjusted to give effect to potentially dilutive elements. Diluted loss per share for all period presented is the same as basic loss per share as the inclusion of the potentially issuable shares would be anti-dilutive.

Prior to the Business Combination, the equity structure of MSP Recovery, LLC included units which shared in the profits and losses of MSP Recovery, LLC. In reviewing the calculation of earnings per unit for periods prior to the Business Combination, the Company concluded that it resulted in values that would not be meaningful to the users of the consolidated financial statements. As such, earnings per share information for the year ended December 31, 2021 and 2020 has not been presented. The basic and diluted earnings per share for the year ended December 31, 2022 represent loss from only the period from the Closing Date to December 31, 2022 for the Company.

The following table sets forth the computation of basic and diluted earnings per share of Class A common stock:

(In thousands except shares and per share amounts)

	Year ended December 31, 2022	
Numerator - basic and diluted:		
Net loss	\$	(401,905)
Less: Net loss attributable to MSP Recovery, LLC pre Business Combination		28,640
Less: Net loss attributable to the noncontrolling interest post Business Combination		365,848
Net loss attributable to common shareholders	\$	(7,417)
Denominator - basic and diluted:		
Weighted-average shares of Class A common stock outstanding - basic		61,825,105
Effect of dilutive securities:		
Weighted-average shares of Class A common stock outstanding - dilutive		61,825,105
Earnings per share of Class A common stock - basic	\$	(0.12)
Earnings per share of Class A common stock - diluted	\$	(0.12)

Shares of the Company’s Class V common stock do not participate in the earnings or losses of the Company and are therefore not participating securities. As such, separate presentation of basic and diluted earnings per share of Class V common stock under the two-class method has not been presented.

In the calculation for earnings per share for the year ended December 31, 2022, the Company excluded from the calculation of diluted earnings per share 3,147,979,494 shares of Class V common stock, 3,319,304 Public Warrants outstanding, 66,666,666 CPIA Warrants and 1,028,046,326 shares of New Warrants outstanding because their effect would have been anti-dilutive.

Note 17. DERIVATIVE LIABILITY

The Company and CF entered into an agreement for an OTC Equity Prepaid Forward Transaction (the "Transaction"). Pursuant to the terms of the Transaction, CF agreed to (a) transfer to the Company for cancellation any warrants to purchase shares received as a result of being the stockholder of record of a share as of the close of business on the closing date of the Business Combination, pursuant to the previously announced and declared LCAP dividend and (b) waive any redemption right that would require the redemption of the Subject Shares (as defined below) in exchange for a pro rata amount of the funds held in LCAP's trust account.

At closing of the Business Combination, the Company transferred from the trust account to an escrow account an amount equal to (a) the aggregate number of such Subject Shares (approximately 1.1 million shares), multiplied by (b) the per share redemption price for shares out of the trust account, as a prepayment to CF of the amount to be paid to CF in settlement of the Transaction for the number of shares owned by CF at the closing of the Business Combination (the "FEF Shares"). CF may sell the Subject Shares at its sole discretion in one or more transactions, publicly or privately. Any such sale shall constitute an optional early termination of the Transaction upon which (a) CF will receive from the escrow account an amount equal to the positive excess, if any, of (x) the product of the redemption price and the aggregate number of shares over (y) an amount equal to the proceeds received by CF in connection with sales of the shares, and (b) the Company will receive from the escrow account the amount set forth in (y) above.

The Company concluded that the instrument includes an embedded derivative for the change in value of the Company's Class A common stock and as such, at the end of each period the Company will mark to market the shares through booking a derivative liability/asset. The calculation of the derivative liability/asset would be the difference between the restricted cash and current fair value of the outstanding FEF shares (number of FEF shares multiplied by market price of the Company's Class A common stock as of period end). As of December 31, 2022, CF had not sold any FEF shares. The aggregate purchase price of \$11.4 million is reflected in restricted cash with the fair value of the shares of \$1.8 million included as Class A common stock subject to possible redemption within temporary equity and the derivative liability of \$9.6 million reflected in current liabilities in the consolidated balance sheets.

Note 18. QUARTERLY FINANCIAL DATA (UNAUDITED) RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS

Description of Restatement of Financial Information

Subsequent to the issuance of the interim financial information as of and for the periods ended June 30, 2022 and September 30, 2022, management identified material errors in such financial information. As disclosed within Note 4, Asset Acquisitions, the Company acquired various intangible assets in connection with the Business Combination. The Company identified an error in the accounting for these acquisitions, in that the Class A market price as of the Closing Date utilized in the valuation included the value of the New Warrants, whereas the Up-C Units provided in the acquisition did not have rights to New Warrants. Therefore, the Class A market price didn't equate to the value of the Up-C Units until the opening of the day after the Closing Date when the New Warrants became detached from the Class A shares. This error impacts the intangible assets value that was acquired as of the Closing Date and the resulting amortization of those assets.

In addition, the Company also determined, based on analysis of the rights to cash flows from the Series and the related guaranty obligation, that the Company is the primary beneficiary of the Series, and therefore should consolidate as of the transaction date. This error impacts the intangible assets and indemnification asset value that was acquired as the balance is now reflected in Intangible Assets, net and is therefore amortized rather than recorded as a financial asset; as a result of this change, the indemnification asset is no longer recorded and the Virage Guaranty is accreted through interest expense. The Company's financial statements should also include the activity of the Series from the date of acquisition as it is now consolidated.

As a result of these errors, the Company determined that the valuation of the asset acquisitions and impacts of consolidating the Series were misstated in the Company's financial statements for the periods ending June 30 and September 30, 2022. In the following tables, the Company has presented a reconciliation of its unaudited condensed consolidated financial information as originally reported, to the as restated amounts as of and for the three and six months ended June 30, 2022, and the three and nine months ended September 30, 2022. The restatements will be reflected in the comparative financial statements included in our future filings of our 2023 unaudited condensed consolidated financial statements within our Quarterly Reports on Form 10-Q.

The table below sets forth the unaudited condensed consolidated balance sheet information, including the balances as reported, adjustments and the balances as restated:

Note 19. SUBSEQUENT EVENTS

Hazel Transactions

On March 29, 2023 (and amended on July 17, 2023), the Company entered into a membership interest purchase agreement with Hazel, whereby in exchange for a stated purchase price of \$390 million, the Company acquired from Hazel interests in certain Claims recovery and reimbursement rights (the "Claims Purchase"). The purchase price for the Claims Purchase was funded by (i) the proceeds from the Claims Sale (as defined below), and (ii) a purchase money loan between Hazel, as lender, and the Company, as borrower, in the amount of \$250 million (the "Purchase Money Loan").

On March 29, 2023, the Company entered into a membership interest purchase agreement with Hazel, whereby in exchange for a purchase price of \$150 million, Hazel acquired from the Company the membership interests in entities that own certain other Claims recovery and reimbursement rights, provided that the Company and Hazel will share in the recovery proceeds therefrom in accordance with an agreed waterfall (the "Claims Sale," and together with the Claims Purchase, the "Claims Transactions").

In addition, on March 29, 2023, the Company entered into an Amended and Restated Credit Agreement (the "Working Capital Credit Facility") with affiliates of Hazel, as the lender and administrative agent, which provides for up to \$80 million (with a 40% original issue discount), consisting of a Term Loan A commitment to fund up to \$30 million (in multiple installments) in proceeds, and a Term Loan B Commitment to fund up to \$18 million (in multiple installments) in proceeds, the funding of each conditioned on certain milestones. An initial \$10 million in proceeds was drawn under the Term Loan A on March 6, 2023. On March 29, 2023, an additional \$5 million was disbursed to the Company under the Term Loan A. On May 11, 2023 and June 13, 2023, Hazel notified us that it would

not disburse additional funds under the Working Capital Credit Facility until the Company satisfies certain funding conditions, including the filing of this Annual Report on Form 10-K. The parties subsequently agreed that \$5.5 million will be funded under Term Loan A in accordance with the terms of the Working Capital Credit Facility subsequent to the filing of this 2022 Form 10-K and receipt of funding notices, deeming funding conditions satisfied or waived. Following such funding, the Term Loan A commitment would be terminated, with total funding of \$20.5 million. In addition, the parties agreed to increase the Term Loan B commitment from \$18 million to \$27.5 million, which will be funded in multiple installments and in accordance with the terms of the Working Capital Credit Facility.

Loans under the Working Capital Credit Facility accrue interest at a Term Secured Overnight Financing Rate for 12-month interest period, plus an applicable margin of 10% per annum. Accrued interest on the Working Capital Credit Facility is payable in kind and will be capitalized. The Working Capital Credit Facility has a stated maturity date of March 31, 2026, and Hazel may extend for up to one year in its sole discretion. The Purchase Money Loan accrues interest at a rate of 20% per annum, payable in kind or in cash at the Company's discretion. The Purchase Money Loan has a maturity date of March 31, 2026, extendable up to one year in Hazel's sole discretion.

The Company is permitted to prepay the loans under the Working Capital Credit Facility from time to time without prepayment premium. Prepayment of the Purchase Money Loans will be permitted after the prepayment or repayment of loans under the Working Capital Loans, and such prepayment of the Purchase Money Loans may be subject to prepayment penalty, as applicable.

The Purchase Money Loan and the Working Capital Credit Agreement contains certain representations, warranties and covenants of the Company and its subsidiaries, including restrictions on debt incurrence, liens, investments, affiliate transactions, distributions and dividends, fundamental changes, certain debt prepayments and Claim settlement.

Amounts borrowed and obligations under the Purchase Money Loan and the Working Capital Credit Facility are secured by a pledge of proceeds from certain Claims in the Company's Claims portfolio, with the lien securing the Purchase Money Loan being subordinated and junior to the lien securing the Working Capital Credit Facility. Pursuant to the Purchase Money Loan and the Working Capital Credit Facility, the Company entered into a collateral administrative agreement between the Company and Hazel, which sets forth certain arrangements between the Company and Hazel in relation to the management of the litigation of certain Claims owned by the Company, the proceeds of which were pledged to Hazel to secure the Purchase Money Loan and the Working Capital Credit Facility.

Yorkville Facility

Refer to Note 1 - *Description of the Business* of this Form 10-K.

Virage Amendment

On April 12, 2023, we entered into an amendment (the "Virage MTA Amendment") to the Virage MTA and Virage Guaranty pursuant to which the payment date was extended from May 23, 2023 until September 30, 2024, subject to acceleration upon certain triggering events. The guaranty obligation will become current at September 30, 2023, and the Company does not currently have available liquidity to satisfy such obligations. Under the Virage MTA Amendment, Virage will receive a first priority lien on all sources of revenue of the company not otherwise encumbered as of the date of the Virage MTA Amendment, to the extent in excess of the amount of revenues necessary to establish and maintain an operating reserve of \$70 million for overhead expenses and applicable taxes.

On January 1, 2024, if the Virage Guaranty is not paid, the Company will be required to make a one-time, lump sum payment to Virage for the period starting May 24, 2023 and ending December 31, 2023, in one or a combination of: (a) cash, in an amount equal to 1.0% of each calendar month-end balance (which month-end balance shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and/or (b) warrants to purchase Class A common stock at \$0.0001 per share, in an amount equal to the quotient of 1.0% of each calendar month-end balance (which shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and the volume weighted average price of a share of our Class A common stock for the five day period prior to the issuance. If paid in warrants, such warrants will expire on January 1, 2026.

Further, for each calendar month beginning with January 31, 2024 until the obligations to Virage are paid in full, the Company has agreed to pay to Virage an amount monthly, in one or a combination of: (a) cash, in an amount equal to 1.0% of each calendar month-end balance (which month-end balance shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and/or (b) warrants to purchase Class A common stock at \$0.0001 per share, in an amount equal to the quotient of 1.0% of each calendar month-end balance (which month-end balance shall be increased daily up to 20% per annum based on a formula set forth in the Virage MTA Amendment) of the amount owing to Virage as of each preceding calendar month end and the volume weighted average price of a share of our Class A common stock. If paid in warrants, such warrants will expire two years from the date of issuance.

The warrants will contain customary provisions for a transaction of this type, including that each warrant will be exercisable in whole or in part at any time prior to the expiration date, be freely transferable, subject only to applicable securities laws, and be subject to customary anti-dilution protection regarding the exercise price and number of shares of Class A Common Stock to be issued upon the exercise of each warrant.

Amended and Restated Nomura Promissory Note

On April 12, 2023, the Company amended the promissory note to Nomura originally issued on May 27, 2022, which amendment increased the principal amount to approximately \$26.3 million and extended the maturity date of the promissory note to September 30, 2024. The note will become current at September 30, 2023, and the Company does not currently have available liquidity to satisfy said obligation. The amended note carries an interest rate of 16% per annum and is payable in kind or in cash, at the Company's discretion, every 30 calendar days after April 12, 2023. Upon two days prior written notice to Nomura, the Company may prepay all or any portion of the then outstanding principal amount under the promissory note together with all accrued and unpaid interest thereon.

Cano Health Share Issuance

On July 7, 2023, the Company issued 199,000,001 shares of Class A common stock to Cano Health, LLC ("Cano") as payment for \$61,677,419.35 million dollars in deferred compensation related to the following agreements, which the Company had the option to pay in cash or in stock and has elected to pay in stock, of which (i) 80,645,162 shares of Common Stock were issued as a deferred consideration for the assignment of certain claims pursuant to that certain Purchase Agreement, effective as of September 30, 2022, as amended to date, by and between the Company and Cano, and (ii) 118,354,839 shares of Common Stock were issued as deferred consideration for the assignment of certain claims pursuant to that certain Amended and Restated Claims Recovery and Assignment Agreement effective as of December 31, 2021, as amended to date, by and between the Company and Cano.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

Not applicable.

Item 9A. Controls and Procedures.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Evaluation of Disclosure Controls and Procedures

Management, including our Chief Executive Officer and Chief Financial Officer, is responsible for establishing and maintaining adequate internal control over financial reporting designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Management is likewise required, on a quarterly basis, to evaluate the effectiveness of its internal controls and to disclose any changes and material weaknesses identified through such evaluation of those internal controls. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected and corrected on a timely basis. Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. As required by Rules 13a-15 and 15d-15 under the Exchange Act, our Chief Executive Officer and Chief Financial Officer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2022. Based upon their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) were not effective, due to the material weaknesses related to the items noted below. To address these material weaknesses, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. GAAP. Based on such analysis and notwithstanding the identified material weaknesses, management, including our Chief Executive Officer and Chief Financial Officer, believe the consolidated financial statements included in this Annual Report fairly represent in all material respects our financial condition, results of operations and cash flows at and for the periods presented in accordance with U.S. GAAP.

Management's Report on Internal Control over Financial Reporting

This Annual Report on Form 10-K does not include a report of management's assessment regarding internal control over financial reporting as allowed by the SEC for newly public companies. We completed the Business Combination on May 23, 2022 pursuant to which we acquired MSP Recovery, LLC. Prior to the Business Combination, we were a special purpose acquisition company (formerly known as Lionheart Acquisition Corporation II), which was formed for the purpose of effecting a merger, recapitalization, reorganization or similar business combination with one or more businesses. The existing internal controls prior to the Business Combination are no longer applicable as of the assessment date as our operations prior to the Business Combination were insignificant compared to those of the post combination consolidated entity. Additionally, as we are an "emerging growth company" as defined under the JOBS Act, we are subject to reduced public company reporting requirements. The JOBS Act provides that an emerging growth company is not required to have the effectiveness of such company's internal control over financial reporting audited by its external auditors for as long as such company is deemed to be an emerging growth company.

Material Weaknesses

As of December 31, 2021 and 2020, we identified the following material weaknesses in our internal controls over financial reporting. The material weaknesses we identified were as follows:

- We did not have sufficient accounting and financial reporting resources to address our financial reporting requirements. Specifically:
 - o We did not have sufficient resources with an appropriate level of knowledge and GAAP expertise to identify, evaluate and account for transactions; and
 - o We did not have an adequate segregation of duties or appropriate level of review that is needed to comply with financial reporting requirements.

- We did not design, implement or maintain an effective control environment over our financial reporting requirements. Specifically:
 - o We did not have effective controls over the period end financial reporting process and preparation of financial statements due to:
 - A lack of a sufficient level of formal accounting policies and procedures that define how transactions should be initiated, recorded, processed and reported; and
 - A lack of an effective control environment over period end close procedures.
 - o We did not have appropriate controls or documented segregation of duties over information technology systems used to create or maintain financial reporting records;
 - o We did not design or maintain the appropriate controls related to the separation of accounting records for each entity included within our combined and consolidated financial statements.

As of December 31, 2022, we identified material weaknesses in our internal control over financial reporting. The material weaknesses we identified were as follows:

- We did not have sufficient controls related to the accounting for complex transactions.
- We did not have sufficient controls over the human resources and payroll processes. Specifically:
 - o Insufficient design of controls as the outsourced system used for payroll did not have appropriate service organization report and we did not have appropriate compensating controls or documented segregation of duties over the system used for payroll;
 - o Insufficient design of controls resulting in a lack of an effective control environment over payroll entries;
 - o Insufficient design of controls within our human resources business process.
 - o Insufficient design of controls resulting in a lack of proper documentation over approval of bonus payments.
- Insufficient design of controls as we did not have appropriate segregation of duties and review controls over cash disbursements.

A special committee of the board of directors made unanimous recommendations to enhance and improve the public company reporting capabilities of the Company, including but not limited to:

- The implementation of certain management training,
- The hiring of a director of internal audit, and
- Enhancements to the Company's internal communication process, as well as increased reporting to the Audit Committee of Board of Directors.

We consider these recommendations to be indicative of material weaknesses related to a failure to develop or maintain an effective system of internal disclosure controls for the timely disclosure of material communications from external sources to the Company's management and Board of Directors for review and evaluation. Specifically, the material weaknesses we identified were as follows:

- We did not have sufficient controls related to training personnel to understand their respective roles and responsibilities.
- We did not have sufficient monitoring activities, including a director of internal audit.
- We did not have sufficient lines of communication internally and to the Board of Directors, and therefore did not maintain a sufficient control environment with respect to oversight of the Board of Directors.

These control deficiencies resulted in a misstatement in our accounts or disclosures that resulted in a material misstatement to the previously filed interim unaudited financial statements. Accordingly, we determined that these control deficiencies constitute material weaknesses.

Remediation Plan

As of December 31, 2022, we have implemented measures, which addressed certain material weaknesses noted as of December 31, 2021. The following items were implemented and operated effectively as of December 31, 2022:

- To address lack of appropriate accounting and financial reporting resources and segregation of duties:
 - o We hired key accounting personnel with appropriate levels of U.S. generally accepted accounting principles expertise and financial reporting knowledge and experience.
 - o We completed a segregation of duty review over financial reporting and implemented changes to address any deficiencies.
- To address lack of effective control environment over our financial reporting requirements:
 - o We developed formal accounting policies and procedures.
 - o We designed a control environment over how transactions are initiated, recorded, processed and reported, and implemented period end close procedures.
 - o We have implemented certain accounting and information technology systems to automate manual processes, to help implement segregation of duties and to assist in consolidation and period end close.

While we have implemented these measures and these have remediated the material weaknesses noted as of December 31, 2021, except for those material weaknesses noted as of December 31, 2022, there is no assurance that we have identified all material weaknesses or that there will not be additional material weaknesses or deficiencies that are identified. We are in the process of implementing measures designed to remediate the control deficiencies that led to the material weaknesses as of December 31, 2022. During 2023, we have:

- To address the material weaknesses in internal controls related to the accounting for complex financial instruments:
 - o We are in process of implementing further controls over the review of complex financial instruments, which may include engaging outside advisors with specialist knowledge of GAAP and valuation.
- Within the human resources and payroll processes:
 - o We have identified potential human resource outsourced vendors and have begun designing and implementing payroll and human resource related controls.
 - o We have also identified third party payroll service providers with sufficient service organization reports that we expect will allow us to rely on the system once we implement appropriate complimentary user controls.
- To address segregation of duties over cash disbursement:
 - o We have begun designing and implementing appropriate segregation of duties over disbursements during the current year and added controls to review cash disbursements made prior to this implementation.

In order to address the material weaknesses identified by the special committee, the special committee made recommendations to enhance and improve the public company reporting capabilities of the Company, including but not limited to:

- Enhancing development of the control environment with the implementation of certain management training,
- The hiring of a director of internal audit to improve the monitoring and effectiveness of internal controls, and
- Enhancements to the Company's internal communication process to support controls and increase reporting to the Audit Committee of Board of Directors to allow for more effective exercise of oversight responsibilities.

We intend to implement such recommendations to remediate the weaknesses identified by the special committee.

Neither our Company, nor our independent registered public accounting firm, were required to perform an evaluation of the Company's internal control over financial reporting as of December 31, 2022 in accordance with the provisions of the Sarbanes-Oxley Act and, as such, there is no assurance that we have identified all material weaknesses or that there will not be additional material weaknesses or deficiencies that are identified. While our independent registered public accounting firm is not required to audit the effectiveness of our internal control over financial reporting until after we are no longer an "emerging growth company" as defined in the JOBS Act, a failure to design, implement or maintain effective internal control over financial reporting could adversely affect the results of annual independent registered public accounting firm audit reports regarding the effectiveness of the Company's internal control over financial reporting that we will eventually be required to include in reports that will be filed with the SEC. If the continued existence of one or more material weaknesses in the Company's internal control over financial reporting persist, this could have a

material and adverse effect on our business, results of operations and financial condition, and it could cause a decline in the trading price of the Company's Class A common stock.

Changes in Internal Control Over Financial Reporting

Outside of the material weaknesses noted above, there were no changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information.

Not applicable.

Item 9C. Disclosure Regarding Foreign Jurisdiction that Prevent Inspections.

Not applicable.

Item 10. Directors, Executive Officers and Corporate Governance.**Management and Board of Directors**

The following sets forth certain information, as of June 30, 2023, concerning the persons who serve as executive officers and members of the Board following.

Name	Age	Position
Directors		
John H. Ruiz	56	Class III Director
Frank C. Quesada	43	Class III Director
Ophir Sternberg	53	Class III Director
Beatriz Assapimonwait	61	Class I Director
Michael F. Arrigo	64	Class II Director
Thomas W. Hawkins	62	Class II Director
Roger Meltzer	72	Class I Director
Executive Officers		
John H. Ruiz	56	Chief Executive Officer
Frank C. Quesada	43	Chief Legal Officer
Ricardo Rivera	51	Chief Operating Officer & Interim Chief Financial Officer
Alexandra Plasencia	38	General Counsel

Information about Executive Officers and Directors**Directors**

John H. Ruiz. John Ruiz is a founder of LifeWallet and has served as Chief Executive Officer since the Company's inception (in 2014 as MSP Recovery). Mr. Ruiz was named one of Lawyers of Distinction's "2023 Power Lawyers," for his accomplishments in healthcare law. He was also named "2019's DBR Florida Trailblazer," for his work in integrating data analytics into the practice of law, and for its positive impact on healthcare recoveries across the mainland U.S. and Puerto Rico. Over the course of his 30-year legal career, Mr. Ruiz has gained national recognition in class action, mass tort litigation, MDL consolidated cases, medical malpractice, products liability, personal injury, real estate, and aviation disaster cases. Recently, Mr. Ruiz led the legal strategy in the landmark victory handed down by the U.S. Court of Appeals for the Eleventh Circuit, in *MSP Recovery Claims Series v. Ace American* (11th Cir.). In addition, he has certified more than 100 class actions and led MSP's participation in *Humana v. Western Heritage* (11th Cir.), *MSP Recovery v. Allstate* (11th Cir.), and *MSPA Claims 1, LLC v. Kingsway Amigo Ins. Co.* (11th Cir.). Mr. Ruiz has been involved as counsel in cases that have totaled more than \$20 billion in settlements. These class actions resulted in some of the largest awards in Florida against major insurance companies. In total, Mr. Ruiz has certified class actions against major car insurers in the State of Florida, resulting in the current and potential redistribution of billions of dollars in improperly paid claims spanning a period of more than 10 years. Starting as early as 1996, Mr. Ruiz filed class-action lawsuits on behalf of more than 30,000 Miami-Dade County residents against the Florida Department of Agriculture for trespassing onto the private properties of homeowners and chopping down their citrus trees without any compensation. The case was ultimately certified, and the Department of Agriculture directly compensated all members of the aggrieved class. In 2001, Mr. Ruiz represented consumers in a class action lawsuit against Firestone that resulted in dozens of fatalities and thousands of serious blowouts. Mr. Ruiz was also hired as local counsel by numerous out of state law firms that had pending cases in Florida courts. The cases in aggregate settled for more than \$30 million. Mr. Ruiz also represented the families of crash victims in a wrongful death suit against Chalk's International Ocean Airway. Mr. Ruiz was the first lawyer to file a limited fund class action. The case settled for a confidential agreed amount. Mr. Ruiz is licensed to practice before the Court of Appeals for the Fourth Circuit, the US Court of Appeals for the Second Circuit, the US Court of Appeals for the Third Circuit, and the Florida Supreme Court.

Frank C. Quesada. Frank C. Quesada is a founding member of LifeWallet and has served as Chief Legal Officer since its inception. Mr. Quesada is also a Partner at MSP Recovery Law Firm. With over 16 years of healthcare and complex commercial litigation experience, Mr. Quesada oversees LifeWallet's in-house attorneys and several nationally recognized law firms that assist MSP Recovery Law Firm in their recovery efforts. Additionally, he develops LifeWallet's legal strategies and spearheads execution. Notably, Mr. Quesada led the execution of federal appellate strategies in MSP Recovery cases resulting in landmark legal victories and new Medicare Secondary Payer Act precedent benefitting Medicare entities across the country. These legal victories include *MSP Recovery v. Allstate* (11th Cir.), *MSPA Claims 1 v. Tenet* (11th Cir.), *MSPA Claims 1 v. Kingsway Amigo* (11th Cir.), and *MSP*

Ophir Sternberg. Ophir Sternberg is a Board Member of the Company, and was previously the Chairman, President and Chief Executive Officer of Lionheart Acquisition Corporation II, the SPAC through which LifeWallet became a publicly traded company. Mr. Sternberg has over 30 years of experience acquiring, developing, repositioning, and investing in all segments of the real estate industry, including office, retail, ultra-luxury residential condominiums, hospitality, industrial, and land acquisitions. Mr. Sternberg is the Founder and Chief Executive Officer of Miami/Fort Lauderdale based Lionheart Capital, founded in 2010. Mr. Sternberg began his career assembling, acquiring, and developing properties in emerging neighborhoods in New York City, which established his reputation for identifying assets with unrealized potential and combining innovative partnerships with efficient financing structures to realize above average returns. Mr. Sternberg came to the United States in 1993 after completing three years of military service within an elite combat unit for the Israeli Defense Forces. Under Mr. Sternberg's leadership, Lionheart Capital executed numerous prominent real estate transactions and repositions, including The Ritz-Carlton Residences in Miami Beach, which resulted in a total sell-out value in excess of \$550 million, as well as purchase of the development's site, the former Miami Heart Institute. Additionally, Mr. Sternberg led the \$120 million sale of The Seagull Hotel, making it the highest grossing hotel sale of 2020 in Miami Beach. Mr. Sternberg and Lionheart Capital are currently in development on a number of other projects, including retail properties in Miami's fashion and culture epicenter, The Design District and a pre-war building located in the Gold Coast of Greenwich Village and built in 1928. In addition to The Ritz-Carlton Residences, Miami Beach, Lionheart Capital also partnered with Ritz-Carlton to brand The Ritz-Carlton Residences Singer Island, Palm Beach, cementing a reputation for bringing to market high-end luxury branded properties. In 2017, Mr. Sternberg founded Out of the Box Ventures, LLC, a Lionheart Capital subsidiary, to acquire and reposition distressed retail properties throughout the United States. With 13 properties in 10 states, Out of the Box Ventures currently controls over 3 million square feet of big box stores, shopping centers, and enclosed regional mall properties with plans to improve and expand upon these acquisitions. Mr. Sternberg and Lionheart Capital are dedicated to working with best-in-class operators and partners such as Marriott International. Lionheart Capital has been able to execute numerous, marquee transactions due largely to Mr. Sternberg's extensive industry relationships particularly with key institutional investors. In March 2020, Mr. Sternberg became Chairman of Nasdaq-listed OPES, and on June 30, 2020, announced the SPAC's initial business combination with BurgerFi, a fast-casual "better burger" concept that consists of approximately 120 restaurants nationally and internationally. The OPES-BurgerFi business combination closed on December 16, 2020 and Mr. Sternberg is the Executive Chairman of the post-combination Nasdaq-listed company, BurgerFi International, Inc. (NASDAQ: BFI). The OPES team, led by Mr. Sternberg, evaluated over 50 potential targets and negotiated business combination terms with multiple candidates in a span of a few months and acquired BurgerFi at what it believed was an attractive multiple relative to its peers. On October 11, 2021, BurgerFi, led by Ophir Sternberg as Executive Chairman, announced the acquisition of Anthony's Coal Fired Pizza & Wings, creating a multi-brand platform of premium casual restaurant concepts. With the acquisition of Anthony's, BurgerFi now has 180 systemwide restaurant locations across the country through its two premium casual dining brands, with 61 Anthony's locations and 119 BurgerFi locations. In May 2021, Lionheart Capital acquired the legendary and iconic American speed boat racing brand, Cigarette Racing Team, synonymous with custom-made, handcrafted, high-powered luxury performance powerboats. The Cigarette brand has grown in sophistication, becoming a product excellence company which focuses on impeccable engineering and beautiful design. Cigarette now builds the finest powerboats for the most loyal and discriminating performance boaters, using only the best in materials, technology, and workmanship. Mr. Sternberg is also the Chairman, President, and Chief Executive Officer of Lionheart III Corp, a SPAC that was originally formed for a \$100 million raise, but on November 8, 2021, closed on its initial public offering at an upsized \$125 million. Lionheart III Corp, under the ticker symbol LION, was welcomed into the Nasdaq family. On July 26, 2022, Lionheart III announced its business combination agreement with Security Matters Limited ("SMX") (ASX:SMX), a publicly traded company on the Australian Securities Exchange, bringing the expected combined entity value to \$360M. SMX creates a sustainable system within the current supply chain, designed for the 21st century economy. The SMX business combination closed on March 8, 2023.

Beatriz Assapimonwait. Beatriz (Betty) Assapimonwait has over 40 years of experience in the managed health care industry. Ms. Assapimonwait was, up until August 2021, Regional President for the South Florida region at Humana Inc. (NYSE:HUM) ("Humana"), one of the largest private insurance health insurers in the U.S. with a focus on administering Medicare Advantage plans. In her role at Humana, Ms. Assapimonwait was responsible for developing market strategies and leading all market operations for all Medicare lines of business, including HMOs and PPOs for the South Florida region. Prior to her role at Humana, she served as CEO of Family Physicians of Winter Park, Inc., until its acquisition by Humana, where from December 2016 to July 2019, she led the strategic and operational efforts of a global risk MSO with 22 primary clinics in the Central Florida Region. Additionally, she served as the Vice President of Medicare Advantage Prescription Drug Plans at Aetna, Inc. from November 2014 to November 2016; Chief Operations Officer at Innovacare Health, from January 2014 to October 2014; Founder and President of Seven Stars Quality Healthcare, from July 2013 to December 2013; and Regional President for the North Florida region at Humana, from January 2009 to June 2013. Ms. Assapimonwait was appointed to serve on the board of directors of CareMax Inc. (Nasdaq:CMAX) in September 2021 and also serves as the Chair of the Strategy and Operations Committee since September 2021. She earned her Bachelor of Arts degree from Florida International University in 1983, and is certified in Healthcare Compliance by the Health Care Compliance Association and in HIPAA Compliance from Kennesaw State University. She has won several awards and commendations, including being a

Stevie Award Finalist of the American Business Awards for Best Customer Service Organization in 2004 and appointed Preceptor and Clinical Adjunct Faculty for the Healthcare Administration Program in 1997 at the University of Houston-Clear Lake.

Michael F. Arrigo. Michael F. Arrigo is a co-founder and the chief executive officer of No World Borders, Inc., a healthcare data, regulations, and economics firm with clients in the pharmaceutical, medical device, hospital, surgical center, physician group, diagnostic imaging, laboratory and genetic testing, health information technology, and health insurance markets. In his role at No World Borders, Inc., Mr. Arrigo advises MAOs who provide health insurance under Part C of the Medicare Act and serves as an expert witness regarding medical coding and medical billing, fraud damages, HIPAA privacy, and Electronic Health Record software. Prior to his current role, Mr. Arrigo served as Vice President at First American Financial (NYSE: FAF) from October 2002 to February 2007, overseeing eCommerce and regulatory compliance technology initiatives for top mortgage banks; Vice President of Fidelity National Financial (NYSE: FNF) from 2002 to 2003; chief executive officer of one of the first cloud-based billing software companies, Erogo, from 2000 to 2002; Vice President of Marketing for an email encryption and security software company until its acquisition by a company that merged into Axway Software SA (Euronext: AXW.PA) from 1999 to 2000; CEO of LeadersOnline, an online recruiting venture of Heidrick & Struggles from 1997 to 1999; management consultant to Hewlett Packard, Oracle, and Symantec from 1994 to 1997; Vice President of Marketing for a software company acquired by a company that merged into Cincom Systems from 1992 to 1994; Product Manager at Ashton-Tate from 1987 to 1992 responsible for database software products including Microsoft/Sybase SQL Server. Mr. Arrigo earned his Bachelor of Science in Business Administration from the University of Southern California in 1981. His post-graduate studies include biomedical ethics at Harvard Medical School, biomedical informatics at Stanford Medical School, blockchain and crypto-economics at the Massachusetts Institute of Technology, and training as a Certified Professional Medical Auditor (CPMA).

Thomas W. Hawkins. Thomas Hawkins previously served as a Management Consultant for MEDNAX, Inc. from February 2014 to December 2017, after serving as General Counsel and Board Secretary from April 2003 to August 2012. Prior to that, Mr. Hawkins worked for New River Capital Partners as a Partner from January 2000 to March 2003; AutoNation, Inc. as Senior Vice President of Corporate Development from May 1996 to December 1999; Viacom, Inc. as Executive Vice President from September 1994 to May 1996; and Blockbuster Entertainment Corporation as Senior Vice President, General Counsel, and Secretary from October 1989 to September 1994. Mr. Hawkins has been a board member of MSP Recovery, Inc. since May 2022, and currently serves on the board of directors of SMX (Security Matters) Public Limited Company (from March 2023 to present), Jumptuit Inc., a data analytics technology company (from November 2019 to present), and the Alumni Association of the University of Michigan (from October 2019 to present). Mr. Hawkins received his Juris Doctor from Northwestern University in 1986 and his A.B. in Political Science from the University of Michigan in 1983.

Roger Meltzer. Mr. Meltzer practiced law at DLA Piper LLP from 2007 and held various roles: Global Co-Chairman (2015 through 2020), and currently as Chairman Emeritus; Americas Co-Chairman (2013 through 2020); Member, Office of the Chair (2011 through 2020); Member, Global Board (2008 through 2020); Co-Chairman, U.S. Executive Committee (2013 through 2020); Member, U.S. Executive Committee (2007 through 2020); and Global Co-Chairman, Corporate Finance Practice (2007 through 2015). Prior to joining DLA Piper LLP, Mr. Meltzer practiced law at Cahill Gordon & Reindel LLP from 1977 to 2007 where he was a member of the Executive Committee from 1987 through 2007, Co-Administrative Partner and Hiring Partner from 1987 through 1999, and Partner from 1984 through 2007. Mr. Meltzer currently serves on the Advisory Board of Harvard Law School Center on the Legal Profession (May 2015—Present); and the Board of Trustees, New York University Law School (September 2011—Present); and previously served on the Corporate Advisory Board, John Hopkins, Carey Business School (January 2009—December 2012). He has previously served on the board of directors of: Lionheart II Corp (March 2021 to May 2022), Lionheart III Corp (March 2021 to August 2022), Haymaker Acquisition Corp. III (February 2021 to July 2022), certain subsidiaries of Nordic Aviation Capital (December 2021 to April 2022), The Legal Aid Society (November 2013 to January 2020), Hain Celestial Group, Inc. (December 2000 to February 2020), American Lawyer Media (January 2010 to July 2014) and The Coinmach Service Corporation (December 2009 to June 2013). Mr. Meltzer has also received several awards and honors and has been actively involved in philanthropic activity throughout his career. Mr. Meltzer received Juris Doctor degree in law from New York University School of Law and an A.B. from Harvard College. In February 2021, Mr. Meltzer joined the board of directors of Haymaker Acquisition Corp. 4, a special purpose acquisition company focused on identifying and implementing value creation initiatives within the consumer and consumer-related products and services industries. In February 2021, Mr. Meltzer joined the board of directors of Ubiq LLC, a smart solutions infrastructure company. In May 2022, Mr. Meltzer joined the board of directors of MSP Recovery, Inc. following its business combination with Lionheart Acquisition Corp. II. In June 2022, Mr. Meltzer joined the board of directors of Aearo Holding LLC and affiliated entities. In August 2022, Mr. Meltzer joined the board of directors of Empatan Public Limited Company (“SMX”) following its business combination with Lionheart III Corp, Security Matters Limited and Aryeh Merger Sub Inc. In January 2023, Mr. Meltzer joined the board of directors of AID Holdings II (“Enlivant”), a senior living facility provider and portfolio company of TPG Capital L.P. In February 2023, Mr. Meltzer joined the board of directors of Klein Hersh, an executive recruitment firm that spans the life sciences continuum and healthcare industry. In April 2023, Mr. Meltzer joined the board of directors of Cyxtera Technologies, Inc., a company specializing in colocation and interconnection services, with a footprint of more than 60 data centers in over 30 markets. In

May 2023, Mr. Meltzer joined the board of directors of John C. Heath, Attorney at Law PC d/b/a/ Lexington Law, an industry leader specializing in credit repair services.

Executive Officers

John H. Ruiz - See “-Management and Board of Directors.”

Frank C. Quesada - See “-Management and Board of Directors.”

Alexandra Plasencia. Alexandra Plasencia currently serves as the General Counsel of MSP Recovery, Inc. Prior to becoming General Counsel, Ms. Plasencia served as the Company’s Chief Compliance Officer and Corporate Counsel. Ms. Plasencia is a corporate and healthcare attorney who focuses her practice on complex business transactions, contracting, and healthcare and organizational compliance. Ms. Plasencia utilizes her comprehensive healthcare background to advise the Company on a full spectrum of legal and regulatory business issues. Prior to her role at the Company, Alexandra was General Counsel and Corporate Secretary for Conviva Care Solutions, a management services organization overseeing 300,000 patients, throughout 300 practices and 800 clinicians throughout Florida and Texas. In that role, Ms. Plasencia worked closely with and advised the board of directors, developed the organization’s legal strategy and oversaw legal affairs, including acquisitions, regulatory compliance & oversight, corporate governance, litigation oversight, and provider, payor, and physician contracting. Ms. Plasencia has extensive experience in managed care and full-risk arrangements. Prior to her role with Conviva, Ms. Plasencia was the General Counsel for MCCI Medical Group where she developed a legal team and oversaw the company’s legal and organizational strategy. During her tenure, Ms. Plasencia handled various multi-million-dollar acquisitions, corporate financing, and successfully integrated various physician practices into MCCI. Most notably, Ms. Plasencia represented MCCI in its sale to Humana and played a pivotal role in the structure, development and creation of Conviva Care Solutions and Conviva Physician Group. Ms. Plasencia earned her Juris Doctor and MBA in 2011 from the University of Miami, where she also received her BBA from the School of Business. Ms. Plasencia has supported and contributed her time to Kristi House, the Leadership Learning Center, Amigos for Kids, and the Friends of St. Jude.

Ricardo Rivera. Ricardo Rivera currently serves as Chief Operating Officer and has served as the interim Chief Financial Officer of MSP Recovery, Inc. since June 29, 2023. Mr. Rivera joined the Company in September 2019, and from September 2019 until July 2021, Mr. Rivera served as the Chief of Staff. Over the past 25 years Mr. Rivera has held positions as COO & CFO at various private corporations in the US and internationally. Before joining the Company, Mr. Rivera was COO & CFO of Transatlantic Power Fund Management, LLC, a subsidiary of Transatlantic Power Holdings LLC. Mr. Rivera has a Master’s in Professional Accounting and a BBA in Accounting from the University of Miami.

Family Relationships

There are no family relationships between any of our directors or executive officers.

Involvement in Certain Legal Proceedings

During the past 10 years, none of our current directors, nominees for directors or current executive officers has been involved in any legal proceeding identified in Item 401(f) of Regulation S-K that would be material to an evaluation of the ability or integrity of any director, person nominated to become a director or executive officer of the Company.

DELINQUENT SECTION 16(a) REPORTS

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company’s officers and directors, and greater than 10% shareholders, to file reports of ownership and changes in ownership of the Company’s securities with the SEC. Copies of the reports are required by SEC regulation to be furnished to the Company. We believe that, during 2022, our directors, executive officers, and 10% stockholders complied with all Section 16(a) filing requirements, except for: (i) a late Form 4 filing by Frank C. Quesada dated June 8, 2022 to report the purchase warrants by the reporting person; (ii) a late Form 4/A filing by Frank C. Quesada dated June 14, 2022 to report the purchase warrants by the reporting person; (iii) a late Form 4 filing by Michael F. Arrigo dated June 3, 2022 to report the purchase of Class A common shares by the reporting person; and (iv) a late Form 4 filing by John H. Ruiz dated November 23, 2022 to report to report the purchase of Class A common shares by the reporting person.

Corporate Governance Principles and Code of Ethics

Our Board is committed to sound corporate governance principles and practices. In order to clearly set forth our commitment to conduct our operations in accordance with our high standards of business ethics and applicable laws and regulations, our Board adopted Corporate Governance Guidelines applicable to our directors, executive officers and employees that complies with the rules and regulations of Nasdaq. A copy of our Corporate Governance Guidelines is available on our corporate website at <https://investor.lifewallet.com>, in the “Documents & Charters” section in the “Corporate Governance” tab. The information on our website shall not be deemed incorporated by reference in this Form 10-K. You also may obtain without charge a printed copy of the

Board of Directors

The business and affairs of the Company are managed by or under the direction of the Board. The Board is currently composed of seven members.

The Board held eight meetings and acted by written consent without a meeting on one occasion during the year ended December 31, 2021. In 2022, each person serving as a director attended at least 75% of the total number of meetings of our Board and any Board committee on which he or she served.

Board Committees

Pursuant to our bylaws, our Board may establish one or more committees of the Board however designated, and delegate to any such committee the full power of the Board, to the fullest extent permitted by law.

The standing committees of our Board currently include an Audit Committee, a Compensation Committee, and a Nominating and Corporate Governance Committee. Each of the committees reports to the Board as such committee deems appropriate and as the Board may request. The composition, duties, and responsibilities of these committees are as follows:

Audit Committee

Mr. Hawkins, Mr. Meltzer, and Mr. Arrigo serve on the Audit Committee. Mr. Hawkins qualifies as the Audit Committee financial expert as defined in Item 407(d)(5) of Regulation S-K promulgated under the Securities Act, and serves as Chairperson of the Audit Committee. The Audit Committee operates under a written charter adopted by the Board of Directors. According to its charter, the Audit Committee shall consist of at least three members, each of whom shall be a non-employee director who has been determined by the Board to meet the independence requirements of Nasdaq, and also Rule 10A-3(b)(1) of the SEC, subject to the exemptions provided in Rule 10A-3(c). The charter contains a detailed description of the scope of the Audit Committee's responsibilities and how they will be carried out. The Audit Committee's charter is available on our website at <https://investor.lifewallet.com>, in the "Documents & Charters" section in the "Corporate Governance" tab. The information on our website shall not be deemed incorporated by reference in this Form 10-K. The Audit Committee held two meetings during the year ended December 31, 2022.

Item 11. Executive Compensation.**Summary Compensation Table**

The following table presents information regarding the total compensation awarded to, earned by, and paid to the named executive officers of LifeWallet for services rendered to LifeWallet in all capacities for the years indicated.

Name and Principal Position	Year	Salary (\$)¹	Bonus (\$)	All Other Compensation (\$)²	Total (\$)
John H. Ruiz ³	2022	\$964,507	—	\$427,382	\$1,391,889
Chief Executive Officer	2021	—	—	\$739,832	\$739,832
Frank C. Quesada ⁴	2022	\$318,339	—	\$190,365	
Chief Legal Officer	2021	—	—	\$355,750	\$355,750
Ricardo Rivera	2022	\$506,130	—	—	\$506,130
Chief Operating Officer	2021	\$400,000	\$75,000	—	\$475,000

1. The salary amounts represent the actual amounts paid during the fiscal year.
2. Amounts reported in the "All Other Compensation" column reflect amounts paid to our named executive officers by the Law Firm for their services to the Company. The relationship between the Company and the Law Firm, which is an entity that is not part of the Business Combination, is fully described in "Certain Relationships and Related Party Transactions—Certain Relationships and Related Party Transactions-The Company—Legal Services-MSP Recovery Law Firm." Except as detailed below, in 2022 and 2021, the total amount of perquisites and personal benefits for each of the NEOs was less than \$10,000.

- All Other Compensation includes: In 2022: \$89,832 paid by the Law Firm for life insurance premium and \$48,000 for personal security paid by Law Firm to a limited liability company.
- All Other Compensation includes: In 2021: \$350,000 paid by the Law Firm to a limited liability company, which is owned by Mr. Quesada.
- During the years 2022 and 2021, the NEOs did not receive Stock Awards, Option Awards, Nonequity incentive plan compensation nor Nonqualified deferred compensation earnings.

Narrative Disclosure to Summary Compensation Table

For 2022, the principal elements of compensation provided to the named executive officers were base salaries, bonuses, and broad-based employee benefits.

Base Salary

During 2022, each of our named executive officers received an annual base salary from the Company as a fixed component of compensation. See the "Summary Compensation Table." Base salaries were either determined when the named executive officers entered into their employment agreements or were determined by the Compensation Committee, and are intended to attract and retain individuals with superior talent commensurate with their relative expertise and experience. Considerations in determining base salary amounts include the executive's performance, level of responsibility, experience, and comparative salaries in the marketplace.

Cash Bonus Compensation

The Company did not pay cash bonuses to any of the named executive officers during the fiscal year ended December 31, 2022.

Equity Compensation

The Company did not issue any equity compensation in fiscal year ended December 31, 2022. The Company intends to issue equity awards under the Incentive Plan, a copy of which is filed as an Exhibit 10.16 to our Form S-1 Registration Statement filed on November 30, 2022.

Outstanding Equity Awards at Fiscal Year-End

As of December 31, 2022, the named executive officers did not have any outstanding equity awards.

Fiscal Year 2022 Director Compensation Table

The following table provides information regarding the total compensation that was earned by or paid to each of our non-employee directors during the fiscal year ended December 31, 2022. Other than as set forth in the table and described below, we did not pay any compensation, make any equity awards or non-equity awards to, or pay any other compensation to any of the non-employee members of our Board of Directors. John H. Ruiz, our Chief Executive Officer, did not receive any compensation for his service as a member of our Board of Directors during 2022. Frank C. Quesada, our Chief Legal Officer, did not receive any compensation for his service as a member of our Board of Directors during 2022. To the extent applicable, we reimburse non-employee directors for travel expenses incurred in attending meetings of our Board of Directors or any committee thereof.

2022 Non-Employee Director Compensation Table

Name	Fees earned or paid in cash (\$)	Stock Awards (\$)	Total (\$)
Michael Arrigo	\$73,525	\$100,725	\$174,250
Beatriz Assapimonwait	\$54,704	\$100,725	\$155,429
Thomas Hawkins	\$64,418	\$100,725	\$165,143
Roger Meltzer	\$58,346	\$100,725	\$159,071
Ophir Sternberg	\$43,168	\$100,725	\$143,893

Narrative Disclosure to Director Compensation Table

During the fiscal year ended December 31, 2022, the Compensation Committee and the Board determined that each non-employee director was entitled to receive a \$143,893 retainer per year regardless of committee services, paid in 30% cash and 70% equity. In addition to the \$143,893 retainer for each non-employee director, some directors received additional payment as follows:

- \$21,250 cash retainer per year for the chairman of the audit committee or \$15,179 cash retainer per year for each other member of the audit committee; and
- \$15,179 cash retainer per year for the chairman of the compensation committee or \$11,536 cash retainer per year for each other member of the compensation committee.

Compensation for our non-employee directors is not limited to the payments determined by our compensation policies. Our non-employee directors remain eligible to receive equity awards and cash or other compensation as may be provided from time to time at the discretion of our Board. No such awards or payments were made in 2022.

Company Executive Officer and Director Compensation

The following disclosures concern employment agreements with the Company's executive officers:

Employment Agreements. We have entered into Employment Agreements with John H. Ruiz and Frank C. Quesada.

Employment Agreement with John H. Ruiz

Mr. Ruiz serves as our Chief Executive Officer. Under the terms of his employment agreement, he will earn a base salary of not less than \$1,800,000, subject to annual review for potential increase (but not decrease) by the Board. In addition, Mr. Ruiz is eligible to receive an annual cash performance bonus of up to 100% of his base salary, based upon the achievement of individual and Company performance objectives and subject to Board approval. In addition, Mr. Ruiz is entitled to: (i) participate in and be granted awards under the MSP Recovery Omnibus Incentive Plan effective as of May 18, 2022 at the discretion of the Board, (ii) participate in the employee benefit plans, including pension, medical, disability and life insurance offered by the Company, and (iii) reimbursement for all reasonable and necessary out-of-pocket business, entertainment and travel expenses.

During the term of Mr. Ruiz's employment agreement, he will be bound by non-competition and non-solicitation obligations. Upon a termination of Mr. Ruiz's employment without Cause (as defined in his employment agreement) or the resignation by Mr. Ruiz for Good Reason (as defined in his employment agreement), Mr. Ruiz will be entitled to receive all accrued, determined and unpaid compensation, a pro-rata bonus payment for the fiscal year of termination based on actual performance results for the full annual performance period and a severance payment of Mr. Ruiz' base salary for a period of six months after the date of termination.

Employment Agreement with Frank C. Quesada

Mr. Quesada serves as our Chief Legal Officer. Under the terms of his employment agreement, he will earn a base salary of not less than \$600,000, subject to annual review for potential increase (but not decrease) by the Board. In addition, Mr. Quesada is eligible to receive an annual cash performance bonus of up to 100% of his base salary, based upon the achievement of individual and Company performance objectives and subject to Board approval. In addition, Mr. Quesada is entitled to: (i) participate in and be granted awards under the MSP Recovery Omnibus Incentive Plan effective as of May 18, 2022 at the discretion of the Board, (ii) participate in the employee benefit plans, including pension, medical, disability and life insurance offered by the Company, and (iii) reimbursement for all reasonable and necessary out-of-pocket business, entertainment and travel expenses.

During the term of Mr. Quesada's employment agreement, he will be bound by non-competition and non-solicitation obligations. Upon a termination of Mr. Quesada's employment without Cause (as defined in his employment agreement) or the resignation by Mr. Quesada for Good Reason (as defined in his employment agreement), Mr. Quesada will be entitled to receive all accrued, determined and unpaid compensation, a pro-rata bonus payment for the fiscal year of termination based on actual performance results for the full annual performance period and a severance payment of Mr. Quesada's base salary for a period of six months after the date of termination.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The following table sets forth information known by us regarding the beneficial ownership of the Common Stock as of June 30, 2023, by:

- each person who is known by us to be the beneficial owner of more than 5% of the outstanding shares of Common Stock;

- each of our current Named Executive Officers and directors; and
- all of our current executive officers and directors as a group.

Beneficial ownership is determined according to the rules of the SEC, which generally provide that a person has beneficial ownership of a security if he, she or it possesses sole or shared voting or investment power over that security, including options and warrants that are currently exercisable or exercisable within 60 days.

The percentage of beneficial ownership is based on 132,235,874 shares of Class A Common Stock issued and outstanding as of June 30, 2023, and 3,106,616,119 shares of Class V Common Stock issued and outstanding as of June 30, 2023, as applicable, the only outstanding classes of the Company's common stock. At the Closing, the Class B Common Stock was automatically converted into shares of Class A Common Stock on a one-for-one basis. Unless otherwise indicated, the address for each of the persons listed in the table is c/o MSP Recovery, Inc. 2701 Le Jeune Road, Floor 10 Coral Gables, Florida 33134.

Beneficial Owner Name	Class A Common Stock (1)		Class V Common Stock (2)	
	Number of Shares	%	Number of Shares	%

Brickell Key Investments LP(23)	66,666,666	47.01%		

* Less than one percent (1%)

1.Includes shares of Class A Common Stock issuable pursuant to derivatives (including Up-C Units and warrants) exercisable within 60 days of June 30, 2023.

2.Includes shares of Class V Common Stock, which are non-economic voting shares of the Company.

3.Includes 172,489 shares of Class A Common Stock and 846,000 warrants directly held by Mr. Ruiz. In addition to securities directly held by Mr. Ruiz in his individual capacity, includes shares held by the following entities Jocral Family LLLP, Ruiz Group Holdings Limited, LLC and Series MRCS, a series of MDA, Series LLC, a Delaware series limited liability company ("Series MRCS"), including shares held by Series MRCS for the benefit of Jocral Holdings LLC. Reported figures do not include securities held by John Ruiz II, Mr. Ruiz's son, in his capacity as a Member, or by Alex Ruiz, Mr. Ruiz's son, of which Mr. Ruiz disclaims beneficial ownership.

4.Reported figures do not include any attributed ownership based on Mr. Ruiz's investment in VRM, which have been transferred to affiliated trusts of Mr. Ruiz and of which Mr. Ruiz disclaims beneficial ownership. Messrs. Ruiz and Quesada together invested in VRM, which investment represented a 1.14% ownership interest in VRM. Mr. Ruiz is entitled to 70% of such investment, and Mr. Quesada is entitled to 30% of such investment. As a result, the indirect beneficial ownership attributable to such affiliated trusts would be 0.8% of VRM.

5. Includes 138,909 shares of Class A Common Stock and 399,539 warrants directly held by Mr. Quesada. In addition to securities directly held by Mr. Quesada in his individual capacity, includes shares held by Quesada Group Holdings LLC and Series MRCS.

6. Reported figures do not include any attributed ownership based on Mr. Quesada's investment in VRM, which have been transferred to affiliated trusts of Mr. Quesada and of which Mr. Quesada disclaims beneficial ownership. Messrs. Ruiz and Quesada together invested in VRM, which investment represented a 1.14% ownership interest in VRM. Mr. Ruiz is entitled to 70% of such investment, and Mr. Quesada is entitled to 30% of such investment. As a result, the indirect beneficial ownership attributable to such affiliated trusts would be 0.3% of VRM.

7. Includes 46,691 shares of Class A Common Stock.

8. Consists of 35,825 shares of Class A Common Stock held by the spouse of Alexandra Plasencia.

9. The business address for each of these individuals is c/o, Lionheart Equities LLC, 4218 NE 2nd Avenue, Miami FL 33137.

10. Roger Meltzer has been a member of the Board since 2021.

11. Beneficial ownership includes 10,000 shares of Class A Common Stock and 1,180,000 shares of Class A Common Stock underlying New Warrants.

12. Thomas Hawkins has been a member of the Board since 2021. Beneficial ownership includes (i) 50,000 shares of Class A Common Stock and 2,360,000 shares of Class A Common Stock underlying New Warrants held in an individual capacity and (ii) 10,000 shares of Class A Common Stock and 1,180,000 shares of Class A Common Stock underlying New Warrants held by the Estate of Steven R. Berrard. Thomas Hawkins holds sole voting and investment control over the shares held by the Estate of Steven R. Berrard as the personal representative.

13. Beneficial ownership includes 50,000 shares of Class A Common Stock and 2,360,000 shares of Class A Common Stock underlying New Warrants.

14. Beneficial ownership includes 114,945,825 shares of Class A Common Stock issuable upon exchange of the Up-C Units.

15. Includes (i) 832,498 shares of Class A Common Stock and 87,320,000 shares of Class A Common Stock underlying New Warrants owned by Lionheart Investments, LLC; (ii) 1,000,000 shares of Class A Common Stock and 118,000,000 shares of Class A Common Stock underlying New Warrants owned by Star Mountain Equities, LLC; (iii) 2,435,060 shares of Class A Common Stock and 273,029,937 shares of Class A Common Stock underlying New Warrants owned by Sponsor; and (iv) 1,000,000 shares of Class A Common Stock and 118,000,000 shares of Class A Common Stock underlying New Warrants owned by the 2022 OS Irrevocable Trust. Mr. Sternberg holds sole voting and investment control over the shares held by each of Lionheart Investments, LLC, Star Mountain Equities, LLC, and Sponsor as the sole manager. Mr. Sternberg's spouse holds sole voting and investment control over the shares owned by the 2022 OS Irrevocable Trust as its trustee and as a result, Mr. Sternberg may be deemed to have beneficial ownership of the shares owned by the 2022 OS Irrevocable Trust.

16. Beneficial ownership includes 58,990,077 shares of Class A Common Stock underlying New Warrants. Alan Rubenstein holds sole voting and investment control over the shares held by Oliver SPV Holdings, LLC as its manager. The address for Mr. Rubenstein and Oliver SPV Holdings, LLC is 822 Oliver St, Woodmere, NY 11598.

17. Alex Ruiz is the son of John H. Ruiz, the Company's Chief Executive Officer.

18. Beneficial ownership includes 112,499 shares of Class A Common Stock and 11,800,000 shares of Class A Common Stock underlying New Warrants. Jacob Sod holds sole voting and investment control over the shares held by JLS Equities LLC as its manager. The address for Jacob Sod and JLS Equities LLC is 58 Larch Hill Rd, Lawrence, NY 11559.

19. Beneficial ownership includes 87,499 shares of Class A Common Stock and 9,440,000 shares of Class A Common Stock underlying New Warrants.

20. John H. Ruiz, II is the son of John H. Ruiz, the Company's Chief Executive Officer. Beneficial ownership includes 7,420,004 shares of Class A Common Stock issuable upon exchange of the Up-C Units held in an individual capacity.

21. Beneficial ownership includes 5,065,769 shares of Class A Common Stock issuable upon exchange of the Up-C Units.

22. Includes 124,043,400 Up-C Units held by Series MRCS that are beneficially owned by Frank C. Quesada and 289,434,600 shares beneficially owned by John H. Ruiz (including through his affiliate, Jocral Holdings, LLC).

23. Includes 66,666,666 shares of Class A Common Stock issuable upon exercise of the CPIA Warrant pursuant to the Amendment and the Warrant Agreement with the Holder.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Advances and Promissory Notes

Pursuant to a loan agreement dated May 20, 2022, John H. Ruiz and Frank C. Quesada provided a cash loan to the Company in the amount of \$13,272,176.64 in order to satisfy the Service Fee Account condition as described in the Membership Interest Purchase Agreement dated July 11, 2021 (the "Closing Loan"). The Closing Loan has an annual interest rate of 4% and was set to mature on November 23, 2022; however, the maturity date of the Closing Loan may be extended, at the option of the Company, for up to three successive six-month periods (for a total of 24 months). The Company exercised this right and extended the maturity date of the Closing Loan. This loan agreement was ratified by the Audit Committee on June 15, 2022.

Pursuant to a loan agreement dated June 16, 2022, La Ley con John H. Ruiz d/b/a MSP Recovery Law Firm and MSP Law Firm, PLLC (collectively, "Law Firm") made a cash loan to the Company in the amount of approximately \$112,000,000 (the "New Loan") in order to: (i) to fund the obligations to pay costs and expenses incurred in connection with the SPAC transaction undertaken by Lionheart II Holdings, LLC, and (ii) to fund operating expenses and other obligations of MSP Recovery, Inc., including repayment of certain funds that had been previously advanced to the Company by John H. Ruiz and Frank C. Quesada of approximately \$24,000,000. The New Loan has an annual interest rate of 4%, paid in kind, and will mature four years from the effective date of the New Loan, with no prepayment penalty. This loan agreement was approved by the Audit Committee on June 15, 2022.

In addition to the New Loan, John H. Ruiz and Frank C. Quesada advanced an additional \$4.95 million to the Company to cover certain expenses (the "Bridge Loan"). The Bridge Loan does not accrue interest on the unpaid balance and becomes due and payable upon funding of a credit facility that was being negotiated, but had not closed, at the end of fiscal year 2022, as set forth in Note 18 - Subsequent Events of the 2022 Form 10-K. Company can repay the Bridge Loan at any time, without prepayment penalties, fees, or other expenses.

Legal Services Agreement

At the closing of the business combination between the Company and Lionheart Acquisition Corporation II, the Company entered into a Legal Services Agreement ("LSA") with La Ley con John H. Ruiz, P.A. d/b/a MSP Recovery Law Firm and MSP Law Firm, PLLC (collectively the "Law Firm"), dated May 23, 2022. Pursuant to the LSA, the Company engaged the Law Firm to act as its exclusive lead counsel to represent the Company, and each of its subsidiaries, as it pertains to certain assigned Claims, causes of actions, proceeds, products, and distribution. Under the LSA, the Company will pay the Law Firm all of the Law Firm's documented costs related to representation of the Company or its subsidiaries approved in accordance with an agreed budget. For the services described in the LSA, the Law Firm will be entitled to: (i) any attorneys' fees that are awarded to the Law Firm pursuant to a fee shifting statute by agreement or court award in such case, and (ii) an amount, if greater than zero, equal to the difference between 40% of the recovery proceeds due to the Company or its subsidiaries for recovered Claims, less any amount due to the Law Firm under the foregoing clauses (i) and (ii) together, the "Compensation").

The LSA also contains an advance provision, whereby the Company will advance to the Law Firm a monthly amount equal to: (x) \$1,000,000 of the Compensation due to the Law Firm to fund certain resources necessary to provide services by the Law Firm, plus (y) overhead costs (i.e., salaries rent, utilities, and similar expenses; provided that any compensation paid to John Ruiz or Frank Quesada by the Law Firm shall not be included in such overhead costs) to operate the Law Firm in an amount necessary to pay such overhead costs reasonably anticipated by the Law Firm to become due in such month. This Advance shall be offset from the Compensation, and in the event that the Legal Services Agreement is terminated, certain additional fees may become payable to the Law Firm pursuant to the terms of the Legal Services Agreement. The LSA was ratified by the Audit Committee on June 15, 2022.

Air Transportation Services Agreement

Historically, MSP has been provided with aviation services pursuant to an Air Transportation Services Agreement, dated June 3, 2019, by and between MSP Recovery Aviation, LLC ("MSP Aviation") and Series MRCS, a designated series of MDA Series, LLC, pursuant to which MSP Aviation agreed to provide Series MRCS and its affiliates with air transportation services via its private, non-commercial plane. In exchange for such services, Series MRCS agreed to reimburse MSP Aviation for aircraft rental and flight time along with related fees, expenses, and taxes in accordance with a lease agreement for each flight. MSP Aviation is owned by John H. Ruiz.

As of both December 31, 2022 and 2021, \$153 thousand was due from MSP Aviation and included in the condensed consolidated balance sheets in Affiliate Receivable. For the year ended December 31, 2022, \$400 thousand was included in General and Administrative expenses related to MSP Aviation in the condensed consolidated statements of operations. For the year ended December 31, 2021, the amounts were de minimis. Management of MSP intends to continue its relationship with MSP Aviation under an informal arrangement that provides MSP and its representatives with economic terms that are at least no less favorable than the terms it would receive if it were to engage an unrelated third party to provide substantially similar services. This agreement was approved by the Audit Committee on June 15, 2022.

Registration Rights

The Company has entered into the Registration Rights Agreement August 13, 2020 with the Holders (as defined therein). Pursuant to the terms of the Amended and Restated Registration Rights Agreement, (i) the Founder Shares and the shares of Class A common stock issued or issuable upon the conversion of any Founder Shares, (ii) the Units (as defined therein), (iii) the shares of Class A common stock included in such Units, (iv) the Original Warrants included in such Units (including any shares of Class A common stock issued or issuable upon the exercise of any such Original Warrants), (v) the New Warrants (including any shares of Class A common stock issued or issuable upon the exercise of any such New Warrants), (vi) the equity securities that Nomura purchased from the Company pursuant to that certain Forward Purchase Agreement described in the section entitled “Business – Company History.” (the “Forward Purchase Shares”), (vii) any outstanding share of the Class A common stock or any other equity security (including the shares of Class A common stock issued or issuable upon the exercise or conversion of any other equity security) of the Company held by a Holder as of the date of the Registration Rights Agreement, (viii) any shares of the Company issued or to be issued to any Additional Holders (as defined in the Registration Rights Agreement) in connection with the Business Combination and (ix) any other equity security of the Company issued or issuable with respect to any of the securities described in the foregoing clauses (i) - (ix) by way of a stock dividend or stock split or in connection with a combination of shares, recapitalization, merger, consolidation or reorganization will be entitled to certain registration rights, subject to the terms and conditions set forth in the Registration Rights Agreement.

The foregoing summary of the Registration Rights Agreement is not complete and is qualified in its entirety by reference to the complete text of the Registration Rights Agreement as set forth in an exhibit to the registration statement.

Director Independence

Our Board has determined that five of our directors, Michael F. Arrigo, Beatriz Assapimonwait, Thomas Hawkins, Ophir Sternberg, and Roger Meltzer, qualify as “independent” directors within the meaning of the independent director guidelines of Nasdaq and applicable SEC rules. The Nasdaq independence definition includes a series of objective tests regarding a director’s independence and requires that the Board make an affirmative determination that a director has no relationship with us that would interfere with such director’s exercise of independent judgment in carrying out the responsibilities of a director. As part of the Board’s determination, among other factors, the Board considered certain relationships of directors, including employment by LifeWallet.

Item 14. Principal Accounting Fees and Services.

The following is a summary of the fees billed to us by Deloitte & Touche LLP (“Deloitte”) for professional services rendered for the fiscal year ending December 31, 2022 and 2021.

Accounting Fees and Services		
Fee Category	2022	2021
Audit Fees	\$1,444,002	\$557,796
Audit-Related Fees	\$895,821	—
Tax Fees	—	—
All Other Fees	—	—
Total Fees	\$2,339,823	\$557,796

Audit Fees. The aggregate audit fees (inclusive of out-of-pocket expenses) billed by Deloitte were for professional services rendered for the audit of our annual financial statements and review of financial statements included in our Annual Report on Form 10-K filed with the SEC, and for services that are normally provided by the independent registered certified public accountants in connection with such filings, including amendments, or engagements for the fiscal year ended December 31.

Audit Related Fees. This category consists of assurance and related services by the independent registered public accounting firm that are reasonably related to the performance of the audit or review of our financial statements and are not reported above under “Audit Fees.” The services for the fees that would normally be disclosed under this category include consultation regarding our correspondence with the SEC and other accounting consulting.

Tax Fees. This category consists of professional services rendered by our independent registered public accounting firm for tax compliance, tax advice and tax planning. The services for the fees that would normally be disclosed under this category include tax return preparation and technical tax advice.

All Other Fees. This consists of fees billed for products and services other than those described above.

PART IV

Item 15. Exhibits, Financial Statement Schedules.

1. FINANCIAL STATEMENTS

The following is a list of the consolidated financial statements of MSP Recovery, Inc. filed with this Annual Report, together with the reports of our independent registered public accountants and Management's Report on Internal Control over Financial Reporting:

Financial Statements

Report of Independent Registered Public Accounting Firm (PCAOB ID No 34).	66
Consolidated Balance Sheets as of December 31, 2022 and 2021	67
Consolidated Statements of Operations for the Years Ended December 31, 2022, 2021 and 2020	68
Consolidated Statements of Equity for the Years Ended December 31, 2022, 2021 and 2020	69
Consolidated Statements of Cash Flows for the Years Ended December 31, 2022, 2021 and 2020	71
Notes to Consolidated Financial Statements	72

2. FINANCIAL STATEMENT SCHEDULES

All financial statement schedules are omitted because the information is inapplicable or presented in the notes to the consolidated Financial Statements.
